BUSINESS TERMS.

ADDRESS.—All General Correspondence, Payments, Plant Orders, &c., to Clibrans, Altrincham.

Orders for Seeds, Bulbs, Plants, Garden Requisites, or any other class of Nursery Goods, sent to any of our establishments, will receive immediate attention.

- REMITTANCES.—Accounts due Quarterly and Half-yearly, strictly nett; 5 per cent. discount allowed off the majority of Garden Requisites, Seeds, and Bulbs; 2½ per cent. off Plants, Trees, &c., for cash within 14 days after the receipt of invoice. Small amounts may be remitted in stamps. No receipts sent for sums under 2/6, unless stamp is sent to cover postage.
- OCCASIONAL CUSTOMERS.—In cases of small orders, customers are respectfully requested to send remittances in prepayment.
- NOMENCLATURE.—Every care is taken to supply goods true to name, but mistakes may occur. We shall be glad if our patrons will communicate with us immediately an error is discovered, and we will then return the amount paid or replace with the true variety, if in stock; but we cannot take further responsibility. Please Note, goods are supplied on this coudition only.
- PACKAGES.—Crates, Baskets, and Mats are invariably charged at less than cost of material, and in no case when returned can the full amount charged be allowed, as value is depreciated by the journey. We allow their intrinsic value when received here, and in no case will this exceed two-thirds of invoice price. Material used in the packing of bundles is not returnable. Sender's name and address should be attached to packages when returned and an advice sent by post.
- are sent carriage paid. Plants, Trees, and heavy Garden Sundries, if ordered in cart or lurry loads, will be delivered free any reasonable distance from the Nurseries, or if a railway truck load is ordered, we will make special carriage arrangements, according to amount, distance, &c., but in no other cases can we pay carriage ou these unless we charge it in invoice; extra Plants, however, are always added to compensate in part for carriage when not delivered free. In consequence of the Railway Companies having intimated that they will pay no claim made for damage or delay of goods sent at "Owner's Risk," we wish to point out to our customers that our responsibility ceases when goods are delivered to the Railway Company, and that we supply goods on this coudition only. In the event of any of our customers desiring to have goods forwarded at "Company's Risk," we shall be happy to do so upon receipt of instructions; otherwise we shall continue to despatch goods at "Owner's Risk," thus effecting a saving

CARRIAGE OF GOODS .- Bulbs and Seeds

PLANTS IN STOCK.—All orders are received subject to the Plants being in stock at the time. When not in stock no substitution will be made unless the customer desires.

of about 15 per cent.

- LATE ORDERS.—In cases of failure when Plants are ordered out of season, we cannot take any responsibility, as such arise through causes beyond our control.
- ACCURACY OF DESCRIPTION.—The descriptions of many varieties of Plants are those of the raiser, for which we cannot take any responsibility, but every care is taken to truthfully describe.
- complaints respecting damage in transit or relating to goods supplied, must be made immediately on receipt or cannot be entertained.

PECIAL COLLECTION

HERBACEOUS AND ALPINE PLANTS

ADAPTED FOR SPECIAL PURPOSES.

The undernoted Collections have been formed in order to supply representative collections of plants snited for special purposes, at a cheap rate, to those who either have not had sufficient experience to enable them to make their own selection, or are willing for the selection of varieties to remain in our hands.

As we only cultivate the best varietics in all classes of plants, our customers may rely upon the following Collections containing only such plants as can be recommended, and will give

satisfaction.

NOTE.—Except Nos. 11, 13 and 14, all the following Collections can be supplied as follows (our selection of varieties in every case) :-

TALL GROWING. FOR SPRING EFFECT. DWARF GROWING. FOR SUMMER EFFECT. TALL & DWARF, MIXED. FOR AUTUMN EFFECT.

When ordering, it should be stated which of the above is preferred. In the absence of instructions to the contrary, we shall select plants of varying heights that will maintain a successional display throughout the season.

NEW, RARE, AND CHOICE HERBACEOUS AND ALPINE PLANTS.

ALYSSUM saxatile, fl. pl., A.M., R.H.S., a beautiful double-flowered variety producing bright, golden-yellow flowers from . March until June; highly-effective. 6d.

cach, 5/~ doz.

ANCHUSA italica "Dropmore var.," an exceptionally beautiful variety, without doubt the finest blue-flowered herbaceons plant in existence; produces an abundance of spikes, attaining a height of 4 ft. during June and July. 2/6 each.

ARABIS albida fl. pl., fol. var., a very beautiful form of the well-known double flowered Arabis, the margins of the leaves, being prettily variegated with creamy white; quite as hardy and free blooming, as the green leaved variety. 6d. each; 5/- doz.

- aubrictioides, A.M., R.H.S., a beautiful Arabis about 3 in. in height; producing a multitude of spikes of lovely pale pink flowers throughout the Spring. 4d.

ASPERULA athoa (syn. suberosa) a pretty dwarf, compact species about 4 in. in height, silvery foliage, charming pink

ASTER amellus, "Perry's Favourite," A.M., R.H.S., lovely deep rose-coloured flowers; a variety that should be cultivated in

every garden. od.

Novi Belgii, "Elsie Perry," A.M., R.H.S.,
a lovely variety, bright, glistening pink
flowers, said to be the finest pink-flowered

Aster. od.

ASTILBE Davidii, F.C.C., R.H.S., one of the most beautiful hardy perennials of recent years, clegant tufted foliage and graceful spikes of deep rose-violet or mauve-coloured flowers, borne on stems 6 ft. or more in height; leaves bronzy-green when young and bright green when matured. 1/6.

AUBRIETIA deltoidea, "Bridesmaid," a very beautiful variety, producing large flowers, of a beautiful soft blush; a lovely variety for the rock garden, or border. 9d. each; 7/6 dozen.

"Dr. Mules," large flowers of a rich deep purplish-violet; extraordinarily free; one of the best Spring bedders, 4d. each; 3/- dozen; 20/- 100.

Ex Gardeners' Chronicle.

"The darkest and richest violet-blue colour of the whole.

Ex Gardeners' Magazine.
"The finest of all the dark purple aubrictias is 'Dr. Mules,' the honour of raising which is due to Messrs. Clibrans. We have no finer of its colour, and no equal as yet." "THE GARDENS, PLAS LLANFAIR, LLANFAIR, P.G.

"I have been much pleased with your aubrietia 'Dr, Mules.' It is the darkest and richest violet blue of all the aubrietias, very large and remarkably free; indispensable for the rock garden.
"R. BATEMAN."

AUBRIETIA deltoidea, Pritchard's A1, A.M.,

R.H.S., 3 in., rich violet-purple flowers of large size; free blooming. 9d. each. tauricola alba, a beautiful variety of tanricola, with white flowers, a counterpart of the type in freedom of blooming and dwarf compact habit. 9d.

BELLIS perennis "Alice," a pretty and charming variety of Daisy, with quilled salmon

3/6 doz.; 4d. each. flowers.

CAMPANULA persicifolia La Fee (See illustra-tion on next page), large lavender blue, bellshaped flowers, produced with the greatest freedom, on stout upright stems; vigorous, bushy habit; undoubtedly one of the finest Campanulas. During the past season, this variety has been a feature in our collection

semi-double flowers on stout spikes 2 ft. in

Moerheimii. od.

- turbinata, "Isabel," rich violet-blue flowers, an exceptionally handsome variety, of compact habit, an effective variety for the rock garden, or border. A.M., R.H.S. 1/- each.

A.M., R.H.S. 1/- each.

CHRYSANTHEMUM maximum, "King Edward," A.M., R.H.S., a splendid variety, immense flowers of the purest white on stiff stems nearly 3 ft. high; an excellent variety for cutting purposes, 6d.

INCARVILLEA DELAVAYI. A very beautiful, hardy, and free-flowering. plant. (See next page.)

New, Rare, and Choice Herbaceous and Alpine Plants-Continued.

CAMPANULA PERSICIFOLIA LA FEE.

From a photograph taken in our nurseries, showing its remarkable freedom in flowering. (See preceding page.)

- CHRYSANTHEMUM Maximum, Mrs. Charles Lowthian Bell, pure white flowers on stout stems that do not exceed 20 in. in height; is said to bloom earlier than other varieties, and to continue to bloom until cut down by frost. I/-
- Rev. H. Sanders, a giant-flowered variety of great beauty; pure glistening white of excellent shape and good substance; robust habit, very free. 1/-
- CIMICIFUGA simplex, A.M., R.H.S., a Japanese species, pure white, deliciously perfumed flowers, on black stems in pyramidal spikes during the Autumn; superb. 6d. each.
- CYCLAMEN libanoticum, flowers rose-pink, with small crimson markings, in form similar to europæum, an excellent introduction. 1/-
- DIANTHUS Atkinsonii, a beautiful Chinese pink, producing single flowers of the richest crimson; the darkest and most effective of the Dianthus; flowering from June until Autumn. 1/6.
- Coccineus, a very beautiful Dianthus, producing an abundance of single bright cochineal crimson flowers, dwarf habit. 9d. each; 6/- dozen.
- hybridus Mrs. Dixon, A.M., R.H.S., the result of crossing *Dianthus barbatus* with Carnation *Uriah Pike*; flowers similar to those of a Carnation, and of a rich deep cerise, the foliage and appearance of the plant being that of a Sweet William; a very interesting hybrid. 1/6

- **DIANTHUS hybridus, Napoleon III.**, the freest of all double Dianthus, fiery scarlet blooms on stout stems, a splendid variety. 1/-
- GERBERA Jamesoni (The Transvaal Daisy), 1½ ft., flowers brilliant orange-red, over 3 in. across, produced from July until September; strikingly handsome; requires a light rich soil with Winter protection. 2/-
- GLYCERIA spectabilis foliis variegatus, a charming grass with long drooping silver striped leaves; beautiful and effective; well adapted for a moist situation, grand for margins of lakes, streams, etc. 4d. each; 3/- doz.; 20/- 100.
- GYPSOPHILA paniculata fl. pl., A.M., R.H.S., a grand double-flowered form of the beautiful G. paniculata. Flowers pure white, borne in large panicles, lasting much longer than the type. Perfectly hardy, useful for conservatory decoration, cutting purposes, &c. 1/-each; 9/- doz.; stronger 1/6 each; 15/- doz.
- HOLCUS Mollis fol. var., a very pretty narrowleaved, green and white variegated grass; an excellent subject for planting in a clump, or for making a permanent edging.
- INCARVILLEA Delavayi, 2½ ft., handsome leaves 18 in., long and 10 in. broad, and numerous spikes of large rosy-carmine spreading trumpet flowers flaked yellow and brown at the base; a glorious plant of easy culture. (See illustration on preceding page). 9d. and 1/- each; 6'- and 9/- doz.

New, Rare, and Choice Herbaceous and Alpine Plants - Continued.

- ISATIS glauca, produces bright yellow flowers throughout June and July; the foliage is of a beautiful glaucous green, with a distinct white central rib; an excellent plant for the border, or an isolated position. I/-
- LATHYRUS latifolius grandifiorus, "White Pearl," A.M., R.H.S., a pure white variety double the size of the type. The spikes are of large size, the petals of the purest white; vigorous in growth, a new variety of great merit. See illustration, page 36. 3/-
- LUPINUS Somerset, A.M., R.H.S., 4 ft., a pretty perennial Lupin, producing spikes 1½ ft. in length, of clear yellow flowers; splendid for herbaceous borders, or isolated beds. 9d.
- MECONOPSIS integrifolia, pure rich yellow flowers. 6 to 9 inches in diameter, borne on stout stems well above the leaves, one of the most remarkable introductions of recent years. F.C.C., R.H.S. 10/6.
- --- puncea, a scarlet flowcred species resembling the preceding in habit, but the flowers are drooping and solitary. F.C.C., R.H.S. 10/6.

- OSTROWSKIA magnifica, 4-5 ft., a grand Bell-flower with tall stems bearing whorls of leaves and terminal branched racemes of mauve-lilae flowers, suffused with white, cup-shaped, and 5 in. to 6 in. in diameter; stems and leaves are glaucous; requires a rich, well-drained soil. F.C.C., R.H.S., 1/6 and 2/6.
- PAPAVER ORIENTALE, Lady Roscoe, A.M., R.H.S., a lovely shade of orange terracotta, with a peculiar sheen over the petals, giving it a most striking appearance; a distinct and beautiful variety, erect grower and very free. 2/6.
- ---- Mrs. Marsh, bright crimson scarlet, striped white, quite distinct from any other variety, 1/-
- rose coloured flowers, of large size and great beauty, a superb variety in every way. 2/6.
- PRIMULA megaseæfolia, F.C.C., R.H.S., a beautiful species, producing nmbels of bright rose-coloured flowers during February and March. Will prove a great acquisition to the family of Primulas. 1/- and 1/6.

The strikingly handsome pure white Californian Tree Poppy. See next page.)

New, Rare, and Choice Herbaceous and Alpine Plants-Continued.

POLYGONUM Baldschuanicum, a magnificent climber rising to a height of 18 ft. or more in a season; the growths persist and become woody unless cut back by very severe frost; leaves heart-shaped and exceedingly pretty; flowers creamy-white, and tinged with rosy-pink, produced in great profusion in axillary and terminal panicles from July until Autumn. A most attractive object when growing up the stems and branches of dead trees, long stakes, &c. An ideal plant for pergolas. 1/- and 1/6 each.

ROMNEYA Coulteri (Bush Poppy). See illustration on preceding page. A gloriously beautiful plant, the flowers, 5 in. to 6 in. across, of the purest white, with a centre of golden yellow stamens, petals beautifully crenulated, and deliciously perfumed. The beauty of this lovely plant is without parallel in its class; foliage of a pleasing glaucous tint, deeply laciniated, and highly ornamental.

Strong plants, established in pots, 1/- and 1/6 each.

SAXIFRAGA Griesbachil (F.C.C., R.H.S.), valuable species from Macedonia. Foliage similar to a small growing s. Longifolia in close compact rosettes. The peduncles are about 4 in. long, densely hairy, and of a purplishered tint, carrying a somewhat crowded inflorescence of purplish-crimson flowers, distinct and novel. See Illustration. Plants in pots 1/- each.

— Gulldford Seedling, a pretty Saxifrage forming a close, fresh green carpet and producing deep crimson flowers early in summer; charming for the rock garden. 6d.

Saxifraga Griesbachii.
A new and beautiful species introduced from Macedonia.

SENECIO clivorum, a new species from China; flowers orange-yellow, produced in large heads, bold, handsome foliage; fine for borders or the margins of streams. 9d.

If you have herbaceons plants, rather tender, or in poor soil, and it is thought necessary to mulch with manure, the greatest care must be taken in Spring with regard to snails and slugs. Frequently they do great damage to rising shoots quite unknown to the cultivator. If a mulched plant does not appear at the right time, an examination should be made. If shoots with tops eaten off are found, the border should be dressed with air slacked new lime, or with soot, and the mulch removed, or turned under.

If the successful cultivation of Alpine and some varieties of Herbaccous plants be desired, there should be greater attention paid to their requirements than is usually shown by making a hole in a level border and putting in the plant. An inexpensive and successful way of arranging, and one that may be made a pretty feature, in even small gardens, is to move off the good surface soil, from a secluded plot of ground, run one or more paths 2 to 3 ft., wide, through it in an irregular form, and descending in some parts, as deep in the earth as the water level or the width of the sides allow for the removed earth being deposited on, without making banks too steep; in other parts, running the walk over the high parts of the mound. The sides of the walk should be sloped to a pitch, so that there will be no slipping of the earth. All this can be done without stone if there is none available, although, the use of stone enables better effects to be obtained. Planned with a little taste, all aspects are available for plants requiring shade or sun, and damp and dry positions are also at command. Replace the good soil on the banks and mounds and as planting goes on, the varieties needing peat or limestone, &c., can all have their needs supplied.

Aquatic, Bog and Marsh Plants.

Under this heading we give a list of the most desirable and suitable plants for planting in water or in moist situations. Some beautiful effects may be obtained in this phase of gardening by planting judiciously those species and varieties that are best adapted for the situation. In planting along the banks of streams where the water runs rapidly, or is liable to rise and flood its banks, care should be taken to secure the plants from the danger of being washed away. This can be done by inserting a strong peg and attaching the plant to it by means of string. This will enable it to retain its position until it becomes established.

> Those marked * should be planted in water 1 ft. to 2 ft. in depth. 3 in. to 9 in. at the water's edge or in bog soil.

Those without a distinguishing mark should be planted where the soil is only moist.

Note.—The Roman numerals immediately following the description of each plant indicate the month or months in which they are in bloom. Thus—vi.-vii. indicates June and July.

Collections of Aquatics for growing in deep water, 6 varieties, our selection, 9/-. Collections of Semi-Aquatics for margins of streams, ponds, and moist situations, 12 varieties, our selection, 4/- or 6/-

ACORUS (Sweet Flag).

†§ 268 Calamus, 21 ft., an aromatic bog plant, long leaves gracefully drooping at the tips; curious short yellowish-green flower spikes; vii.viii. 4d.

†§ 270 argenteus striatis, 2 ft., foliage prettily striped white and tinged red. 6d.

ALISMA (Water Plantain).

†§ 272 Plantago, 2½ ft., an elegant plant, bears an abundance of pretty pink flowers, vii.-viii. 4d.

ANEMONE rivularis, white flowers, 4d. See page 20.

APONOGETON (Cape Pond Weed).

* 274 distachyon, a fast-growing aquatic, Hawthorn-scented flowers and long narrow floating leaves, v.-x. od. and I/-

ASCLEPIAS incarnata, purple flowers. 6d. See page 22.

ASTILBE rivularis, reddish creamy white flowers, 6d. See page 22.

ASTRANTIA carniolica and major, flowers white, tinged green, 4d. See page 22.

BAMBOOS. See page 12.

BUTOMUS (The Flowering Rush).

†§ 276 umbellatus, 3 ft. a handsome aquatic, tall stalks carrying an umbel of rose-coloured blooms; vi.-viii., 6d.

CALLA.

†§ 278 palustris (Bog Arum), beautiful small white spathes and rich dark green leaves; grows luxuriantly in muddy soil or moist bog, vii.-64. viii.

CALTHA (Marsh Marigolds), buttercup-like flowers and bright glossy leaves; grows in any rich soil near water.

†§ 280 biflora, o in., large twin-flowered species with creamy white flowers, v.-vii. 6d.

†§ 282 leptosepala, 1 ft., flowers white, like small water lilies iv.-vi. 6d.

CALTHA.

†§ 284 palustris, t ft., large shining golden
yeilow flowers, the weil-know
wild form, iv.-vi. 4d.

†§ 285 ft. pl., 9 in., double, bright
golden yellow petals; most charming, iv.-vii. 6d.

parnassifolia, 6 in., a distinct †§ 289 form, very free, yellow flowers, iii. x. 4d.

CARDAMINE (Lady's Smock or Cuckoo Flower). see page 25. 4d.

CAREX.

§ pendula See page 25. 4d. each; 3/6 dozen. riparia variegata

CYPERUS (Galingale).

§ 291 longus, 3 ft., a handsome Sedge with tall naked flower stems, ending in three long unequal gracefully-arching leaves surmounted by a large branching cluster of chestnut-coloured flowers; viii. 4d. each; 3/6 dozen.

CYPRIPEDIUM spectabile, rosy white flowers, 1/- and 1/6. See page 27.

DODECATHEON (Shooting Stars or American Cowslip). 4d. and 6d. See page

DONDIA (syn. Hacquetia), greenish yellow flowers, 6d. See page 28.

ELYMUS (Lyme Grass).

§ 302 glaucifolius, 3 ft., somewhat rigid glancous-leaved grass, makes magnificent clumps, vii.-viii. 4d.

EPILOBIUM.

ifolium and var., rosy purple flowers. 4d. and 6d. See page 29. § angustifolium and var.,

FUNKIAS (Plantain Lilies), 4d. and 6d. See page 30.

GALAX aphylla (The Fairies' Wand), white flowers, 9d. See page 31.

GLAUX maritima (Sea Milk Weed), flesh coloured flowers, 4d. See page 32.

GLYCERIA

§ 306 spectabilis foiiis variegatus, 4d. See new Plants page 4.

Aquatic, Bog and Marsh Plants-continued.

- GUNNERA (Chilian Rhubarb), handsome bold foliage plants, leaf stalk 4 ft. to 6 ft. long, and the leaves often exceed 6 ft. across; requires shelter from the wind, and rich treatment in a sunny position, with a little winter protection in exposed situations.
 - 308 manicata, 3 ft. to 6 ft., the largest leaved plant in eultivation, viii. 2/6 and 3/6.
 - 310 scabra, 3 ft. to 6 ft., with prickly leaf stalks, viii. 1/- and 1/6.
- HEMEROCALLIS (Day Lilies), 4d., 6d. and 9d. See page 33.
 - \$ ---- pseudo acoris vars., 4d. eaeh, see page 51
 - †§ Kæmpferi vars., 1/- eaelı. See page 50.
 - †\$ —— Siblrica vars., 4d. each. See page 51.

JUNCUS (Rush).

- § 312 effusus spiralis, a enrious Rush with spreading eorkserew-like leaves, vii.-viii. 6d.
- LIATRIS (Button Snake Root), 4d. See page 35.
- **LINNŒA borealis.** blush white, 6d. See page 35.
- LOBELIA littoralis, white flowers, 6d. See page 37.
- cardinalis, deep red flowers, 4d. See page 52.
- —— syphilitica, blue and white flowers, 4d. and 6d. See page 52.
- LYCHNIS chalcedonica (Russian Campion), searlet flowers, 4d. See page 37.

- NUPHAR (Yellow Water Lily).
 - †* 318 advena (The American Yellow Water Lily), quite hardy, large incurved deep yellow petals. 2/6.
 - * 319 lutea (English Yellow Water Lily), handsonie Caltha like flowers, rieli yellow, quiek grower. 1/and 1/6.

- NYMPHÆA (Water Lily). The introduction during recent years of the lovely hybrid forms of the Water Lily has given an added charm, the colours range from pure white, through rose, pink, yellow, to intense crimson. They should be planted in April or May, on mounds of rich soil, or in mud, so that the crowns are not less than 1 ft. or more than 2 ft. below the surface of the water, Winter and Summer. Flowers begin to open in June, and there is a constant display until the appearance of frost.
 - * 321 alba, common white, a beautiful native of England. 1/- & 1/6.
 - * 324 "Aurora," a beautiful variety which changes colour from rose-yellow the first day, to deep red on the third day after opening. 3/6.
 - * 329 Ellisiana, a combination of brilliant eolours, petals bright vermilionred, stamens orange, one of the best. 10/6.

Antirrhinums.

Antirrhinums are lovely plants for bedding purposes, also for borders and the rockery. An open situation, sheltered from strong winds, and a deeply-trenched soil, well-manured, are essential to success.

Purchaser's Selection, 3/6 per dozen; 4d. each, excepting those priced. Our Selection 2/6 doz. No.

8 Archie A. Oliver, golden-yellow mouth, flaked blood crimson.

10 A. Rennie, French white, flaked purple-crimson; very fine.

12 Crimson Bedder, deep crimson self, of dwarf, compact habit; most effective and charming.

13 Cupid, lemon mouth, suffused and mottled rich pink.

15 Distinction, orange mouth, flaked and mottled crimson.

20 Lady Lewis, crimson, shaded purple ' good spike; dwarf.
27 Mark Twain, finely mottled and flaked

blood crimson.

35 Mrs. Heap, creamy white with orange mouth flaked rich crimson.

39 P. J. Duff, golden-yellow, mottled and

pencilled crimson. 46 Sir Robert Pullar, creamy white, delicately

pencilled rosy-purple.

49 Sparkler, canary-yellow, mottled crimson. 6d.

55 White Bedder, pure snow-white; dwarf and floriferous.

57 William Robinson, rich, glowing crimson self; extra fine.

64 Yellow Bedder, pure yellow self; formed flowers on a splendid spike.

SEEDLINGS.—Fine healthy plants raised from seed saved from the best named varieties, and comprising every shade of colour. From Stores, in Spring, 6d. per score; or in pots, 1/6 per dozen. Seed, 6d. per packet.

Asters—Michaelmas Daisies or Starworts.

The Asters comprise the most beautiful, easily grown, and useful of garden plants. They produce a grand display in the garden from early Autumn until late in November, and may be utilised with good effect either for lines, masses, or mixed borders. They are effective in pots for house, conservatory and greenhouse decoration, and equally useful for cut flower purposes. The following selection comprises the most showy and desirable varieties, remarkable either for colour, size of flower, or abundance of bloom, and can be thoroughly recommended. The merit of the various sorts settled by the R.H.S. Aster Conference Committee are distinguished thus: (xx) signifies commended. (xxx), signifies highly commended.

-albus, large white graceful, 31 ft., Oct.-Nov.

281 undulatus, pale blue, very free, 3 ft., Aug.-Sept.

284 versicolor nanus, white changing to rose,

dainty and sweet, 1½ feet.
287 vimlneus "Cassiope," white, shaded rose-lilac, pretty and free, compact habit,

distinct and good, 21 ft. Sept., xx.

Asters—Alpine Species and Varieties.

Charming plants for the rockery or well-drained border. Possess brilliant colours and relatively large flowers. Very free and early flowering.

No. 203 alpinus, bright purple flowers, dwarf habit, July, 6 to 9 in.

- albus, a pure white flowered form of the preceding, but in other respects identical. 205

 ruber, deep rose, a very beautiful variety, of compact habit, 9 in. July. 6d.
 speciosus, splendid variety, forms dense tufts, and produces very rich dark violet flowers 297 299 ist C.C., R.H.S.

- var. superbus, bright purplish-blue, flowers in early Summer, branching; height 15 in. perigrinus, pretty species, for the rockery or border, flowers bluish-purple, 2 in, across, 1 ft., July and August. 301

Auriculas-Stage Varieties.

These old-fashioned favourites are greatly admired for their richly-coloured flowers and beautiful form. They are quite hardy, and require only the simplest treatment. If grown in a cold house or frame the flowers remain in perfection for a considerable time.

Our selection of six fine Stage Varieties, 10/6 to 21/-; twelve fine varieties, 21/- to 42/-. They are all named sorts from the various classes, Green-edged, Grey-edged, White-edged, and Selfs.

Auriculas—Alpine Varieties.

These riehly-coloured, free-growing varieties are deservedly popular. Their culture is of the simplest, their chief requirements being a rich, light soil, and plenty of moisture during the growing They should be taken up, divided, and replanted every second or third year, after flowering or in early Autumn. Named kinds, 12/- and 18/- per dozen.

Seedling Alpine Varieties, strong blooming plants. 2/- per doz.; 12/- per 100.

Our Seedling Alpine Auriculas are very fine and make most lovely displays for Spring gardening. The strain is very select, all inferior flowers being carefully weeded out. SEED, 6d, and 1/- per pkt.

Bambusa—Bamboo. Including ARUNDINARIA and PHYLLOSTACHYS.

Bamboos are graceful and elegant Reed-like Grasses of exquisite form, and charming foliage, they prefer a rich soil, and are eminently adapted for growing on the margins of streams and in moist boggy places; should be sheltered from cold cutting winds, and mulched every Autumn with cow manure till thoroughly established. With suitable backgrounds these beautiful plants are capable of producing glorious effects.

6 Bamboos in 6 distinct sorts, our selection, 7/6, 12/- or 15/-

ARUNDINARIA.

3 anceps (6 to 10 ft.), graceful species; leaves brilliant green two or three inches in length. The stems when young are a pretty purple changing with age to a greenish brown tint. 2/-.

2/6 and 3/6.
5 auricoma (Fortunei aurea), 3 ft., leaves
2 in. apart, striped bright yellow;
broad stems purplish green. 6d. to extra strong elumps, 1/6 1/- each ;

to 2/6 each.

9 Fortuneii, 3 ft., bright green, beautifully striated white, 6d, to 1/-; extra strong elumps, 1/6 to 2/6 each.

12 Hindsii, 8 ft., olive-green stems with branches in whorls; leaves long, dark green exquisitely tesselated. 2/and 3/6.

and 3/6.

— graminea, 6 ft., yellow stems and longer leaves. 1/6 and 2/6.

15 japonica (syn. B. Metake), 6 ft., stems with abundant long persistent dark green sharply pointed leaves; makes a grand specimen, 1/-, 1/6, 2/6 and 3/6 each.

21 pygmæa, 6 to 12 inches, one of the dwarfest Bamboos. Leaves bright green; a vigorous and rampant grower, carpeting the ground wherever it is planted. 2/-, 2/6 and 3/6 each.
22 Simonii, tall straight slender stems and

runs very freely at the root. 1/6 and

-striata (syn. Narihari), similar to Simonii with a partial silver-striped variegation, which disappears as the plant grows older. 2/6 and 3/6.

Veitchli, 2 ft., rounded stem and small leaves, the edges of which wither in

Winter giving the plant a variegated appearance. 1/6 and 2/6.

BAMBUSA.

38 Arundinacea, slender stems and long plumes of light green leaves. 6d. to 1/- each, extra strong, 1/6 and 2/6.

BAMBUSA-continued.

41 disticha, 2 ft., a splendid little Bamboo for earpeting; zigzagged stems, small leaves. 2/6 to 3/6.

52 palmata, 5 ft., leaves long and very broad. vivid green above, glaucous below; a bold effective plant. 2/6 and 3/6.

57 quadrangularis, stems square when matured; leaves fine deep green; runs freely at the root. 2/6 and 3/6.

62 tessellata, 2½ ft., the largest leaved of all the hardy Bamboos; tessellation

minute. 2/6 and 3 6.

PHYLLOSTACHYS

75 aurea, stems yellow, erect, and free branching, leaves handsome, but variable. 1/-, 1/6 to 2/6.

82 Henonis, one of the loveliest Bamboos with tall slender stems yellowing with age and erowded with relatively small tapering leaves. 1 -, 1/6 to 2/6.

84 Kumasasa (ruscifolia), a pretty plant of unique appearance : eurious arrangement of the leaves. 2/6, 3, 6 and 5/-

86 mitis, a beautiful tall species with golden stems and graceful habit. 1 6, 2/6 to 3/6.

89 nigra, stems glossy black after the first year; leaves green above, glaucous below. 2/-, 2/6 and 3/6.

96 Quiliol, 18 ft., a beautiful Bamboo, rapid grower, young sheaths of a pinkish brown mottled with purple spots, canes dark green, brilliantly polished; 2/6, 3/6 to 5/-

104 violescens, young stems beautiful deep purple, leaves green above, and bluish-

grey below. 1/-, 1/6 and 2/6.

106 viridi-glaucescens, (15 to 20 ft.), In many respects the most desirable and ornamental of all Bamboos. The stems are stout and covered with bright green foliage, which remains eoloured throughout the winter. The side branches curve and give the plant a weeping effect, rapid grower. 26 to 36.

Outdoor Carnations.

Border Selfs and Cloves.

. These can be sent out from October to April, or even later, but we do not recommend planting after the beginning of May.

Border Carnations are of easiest culture, and thrive in almost any good garden soil. Their chief enemy is the wireworm, and this may be kept at a distance by sowing mustard seed in the late Summer, where it is intended to plant the carnations, and digging the mustard crop in when it has reached a height of 6 in. to 18 in.

Twelve fine varieties, our selection, 4/-, 6/- and 9/-

Reds, Whites, Rose and other shades, for borders, 4/- dozen.

Show Carnations and Picotees.

Our collection has been most carefully formed from the numerous varieties in cultivation. These plants succeed best in fresh, cool, loamy soil, and but moderately rich. Carnations and Picotees should be planted at the end of March or early in April.

Twelve fine varietics, our selection, 6/-

Special priced and descriptive List of Carnations, Picotees, etc., gratis and post free on application.

Delphiniums.

These grand hardy percnnials are splendidly showy in the mixed border, while for massing their gorgeous effects are unrivalled. The prevailing colour in the group is blue, which varies from the palest lavender through cobalt to deep indigo; but white, primrose, and orange-scarlet are represented. The flowers vary considerably in size, some being single, some semi-double, and others again perfectly double and imbricated. The spikes range in length from 1 to $3\frac{1}{2}$ ft., and almost all the varieties mentioned below produce lateral spikes most freely. They grow well, so long as they are not dry, in any ordinary deeply-worked soil, but prefer one that is cool, moist, and rich. They at all times show a generous appreciation for liberal treatment. Top dressings of manure in the Spring or early Summer keep the soil moist and cool and encourage a vigorous but floriferous growth, especially when accompanied by a dressing of Clibran's Phosphate Manure at the rate of 1 oz. to the square yard. By regularly cutting off the spikes as the flowers begin to wither, they may be had continuously in bloom for many months. A selection from the following varieties will insure a floral display from early June till late September, treated as advised.

Varieties marked (*) are double or semi-double.

Purchasers' selection, 1/- each, 10/6 per dozen, excepting those priced. Our selection of Twelve fine varieties for 9/-

Strong seedling plants to bloom this year, specially selected from a grand strain, all shades and very fine, 3/6 dozen; 25/- per 100.

These should not be compared for prices to the produce of seeds saved from inferior sorts.

Seeds from these fine varieties, 6d. per packet.

It is generally agreed, that undulating land, with mounds and hollows, forms the prettiest landscape. That being so, why is it, that almost invariably, if there be a hollow or dingle on a building plot, the owner, and those in charge of the work, think all the spare material should be deposited there, to wholly or partially fill up the surface to an uninteresting level? Even in the smallest garden, a mound of earth can be made serviceable to hide something unsightly, or to aid effect, by directing the eye to the prettiest views. Surplus material will often be more artistically used for making a hollow still greater, or by raising a mound; doing so, enables the gardener to cultivate many Alpine and Herbaceons plants, which he could not do successfully, on the level.

Hardy Ferns.

Many shaded places where other plants will not flourish are admirably adapted for Hardy Ferns. If a well-selected collection is planted, a pleasing and agreeable effect can be obtained throughout almost the whole of the year. Once planted, the majority of Hardy Ferns may, with little care and attention be left alone.

Hardy Varieties for Rockeries, Rooteries, &c.

Twelve fine varieties, 4/- and 6/- 25, in 12 varieties, 9/-. Our selection only. Common hardy sorts, are supplied at 20/- per 100. To those of our Clients making rockeries and requiring an early effect, we can generally offer various low growing Alpine and Herbaceous plants such as have spreading growth, to cover rocks, ledges, &c., from 1 '- to 3/6 per square foot, according to soils. Buying in this way is more economical and saves time, but nothing new, or rare can be offered in this way; only surplus stock that may be on hand.

Fuchsias—Hardy Varieties.

The following varieties are all Hardy, and may be planted in any garden of ordinary situation with every prospect of their succeeding.

In our part of Cheshire, they are generally cut down to the ground by frost, but the roots send up strong shoots, each Spring.

Purchaser's selection 4d, each; 3/- dozen in pots; our selection, 2/6 dozen. Strong ground plants of several sorts, our selection, 6/- dozen.

- 377 corallina, tall, slender growth; flowers large, showy; good for walls, free.
 387 Drame, semi-double lilac-violet corolla;
- strong grower.
- 391 Elysee, corolla violet, sepals coral; makes a nice bush.
- 394 Enfant Prodlgue, semi-double, corolla violet-blue; good grower, makes an attractive bush.
- 405 **globosa**, corolla deep violet, bright coral crimson sepals; branching habit.
- 408 gracilis elegans, slender and graceful neat foliage; rapid grower and most floriferous; makes a lovely shrub.

No.

- 426 myrtifolia "Bouquet," vigorous graceful flowers, reflexed coral sepals and bright violet corolla; extraordinarily free.
- 438 **Profusion**, a strong, free, shapely grower, with abundance of bright reddishviolet flowers; good for a wall.
- 445 Riccartoni, compact habit, bright red flowers and very hardy.
- 460 Telegraphe, sepals bright red, corolla purple-lilac; very free, alike good for a bush or wall.

For other varieties of Fuchsias, see our List of Indoor Plants. Gratis and post free on application.

Helianthemums ("Rock" or "Sun" Roses).

A beautiful class of trailing Alpine perennials, for rockwork or hot exposed situations. flowers are transient, but produced in such immense quantities that the plants are a sheet of bloom for a considerable time.

Purchasers' selection, 4d. each; 3/- per doz. Our selection, 2/6 per doz.

No.

Hepaticas.

These are lovely Spring Flowering Plants. A partially shaded position is the most suitable for them, as they suffer from the heat of the sun; cold does not harm them, but snn-heat predisposes them to attacks of red spider, then the foliage dies away and the plants become weak, therefore shade from sunshine, mulch in June with leaf-mould, water in dry weather occasionally then enjoy the results in lovely tufts of bloom in Spring. When a position is found which suits these little gems, leave them in it undisturbed

One each of the following 6 sorts, for 2/6.

No.	Each—s.	d.	No. Each—s. d. 182 triloba cœrulea, single blue,

The following Section contains all the smaller genera of Herbaceous and Alpine Plants, arranged in alphabetic sequence.

Less than 6 plants of a variety will be charged at the "each" rate, less than 50 at the "dozen" rate.

NOTE.—The Roman numerals following the description of each plant indicate the month, or months, in which they bloom, thus—vi-vii. indicate that the blooming period is during June and July.

Marked (c) denotes most suitable for Carpet Bedding; (o) those with Ornamental Foliage.

In sending orders, the first letter of the group, name and the number affixed to the species or wariety that is desired, is sufficient, thus A 12, indicates Acantholiunon glumaceum; the plants will be sent with corresponding letter and number attached.

The prices are for young ordinary sized plants, of the free growing varieties, not new or rare, targer plants can be supplied of many kinds, one and two years older, at 50%, extra, and double the ordinary prices; as instance a variety at 4d. in extra sizes, at 6d. or 8d. Purchaser's selection of varieties at 4d. each; 3/- per doz.; those at 6d. each; 5 - per doz.

ACÆNA (New Zealand Bur), very neat rockery evergreens with tiny spleen-wort-like

evergreens with tiny spleen-wort-like foliage; grow in almost any soil.

3 Buchanani, 3 in., glaucous pea-green foliage, contrasting prettily with the red spiny fruit. vt.-viii. 6d.

4 Inermis, 3 in., distinct rockery plant, with light green leaves and bronzy stems, vii.-ix. 4d.

6 microphylla (syn. Novæ Zealandicæ), 3 in rosy-crimson heads in great pro-

in., rosy-crimson heads in great profusion; lovely, vii-ix. 4d.

ACANTHOLIMON (Prickly Thrift), forms dense tufts of leaves; prefer a sandy

soil and a sunny rockery.

12 glumaceum, 6 in., dainty spike of rosecoloured flowers, distinct and beautiful, vi-vii. 6d.

ACANTHOLIMON—continued.

- 14 venustum, 9 in., large bright crimson flowers with spiny foliage, charming species; very free, vii-ix. 2
- ACANTHUS (Bear's Breech), stately plant with bold graceful foliage and tall handsome spikes of white, rose, or lilac flowers. Warm deep soil.
 - o 18 lusitanleus, 2½ ft., very robust ; retains its foliage far into winter, viiiix. 4d.
 - o 20 mollis, 3 ft., large and handsome. The best, vii-ix. 4d.
 - o 22 spinosus, 21 ft., deeply cut foliage, vii-ix. 4d.

ACHILLEA MILLEFOLIA ROSEA,

ACHILLEA (The Yarrow), prettily cut often silver foliage, with clusters of small flowers, from early Summer to Autumn, the smaller species make delightful rockery plants, the others are excellent for herbaceous borders.

26 ægyptica, 1½ tt., bright pale yellow flowers and beautifully cut silver-grey foliage; excellent for cutting, vi ix. 4d.

- 27 Boule d'Argent, 13 ft., one of the love-liest, pure white single flowers, large heads, very free, excellent for cutting, vi-x. 4d. each; 3/- per dozen.
- 28 Clavennæ, 6 in., beautiful silvery leaves and white flowers, vi-vii. 6d.
- 30 Eupatorium, 4 ft., a noble plant, richest golden-yellow flowers, occasionally 6
- in across, vi-ix. 4d.

 31 millefolia rosea, 1½ ft, a bright rosecoloured form of the common Yarrow (see illustration), vii-ix. 3/- per doz., 4d. each.
- 33 mongolica, 11 ft., flowers large, pure white, on tall elegant stems; greatly valued for cutting, v-vi. 4d.
- 35 Ptarmica fl. pl., flowers very freely, splendid for cutting; hardy, smoke-resist-
- ing, vii ix. 3/- per doz; 4d. each.

 "The Pearl," 2 ft., similar to No. 35, with all its good points, but with flowers double the size and purer, vii-x. 3/- doz.; 4d. each.
- 48 "W. B. Child," 2 ft. pure white flowers produced with the utmost freedom, in large heads, throughout
- the Summer. 6d.
 38 rupestris, 3 in., dense tufts of narrow dark-green leaves, with trusses of white flowers, delightful rockery plant, v-ix. 6d.
- 40 santolinoides, 1 ft., with greyish white foliage and large clusters of white flower heads, vii-viii. 4d.
- 42 **serrata fl. pl.,** 2 ft., not so double as No. 35, but purer white and earlier; excellent for cutting, vii-ix. 4d.

ACHILLEA - continued.

44 tomentosa, I ft., forms a dense carpet, flowers rich bright yellow; free; likes a dry gravelly soil, vi-viii. 4d.
46 umbellata, 9 in., deuse coat of silvery tomentum; flowers white, vi-ix. 3/

doz., 4d. each.

9 distinct varieties of Achilleas, our selection, 2/6.

ACONITUM (Monkshood), handsome Summer-flowering plants, long bold spikes of helmet-shaped flowers; excellent for borders, shrubberies, sides of streams, copses, woodland walks,

and the drier parts of a bog.

1 Anthora, 2-4 ft., pale yellow flowers, a pretty and effective species. viii. 6d.

52 autumnale (japonicum), 3 ft., rich bluish purple, vii-ix. 6d.

54 californicum, most effective, very free. 6d.

lycoctonum, 5 ft., creamy sulphur; vigorous, vii-viii. 4d.
Napellus (Common Monkshood), 4 ft.,

violet-blue, vi-viii. 4d.

album, 4 ft., fine white form, viviii. 4d.

- bicolor, 4 ft., white and blue; very beautiful, vi-viii. 4d.

62 pyrenaicum, 2½ ft., large pale yellow flowers in dense spikes, vi-vii. 4d. 65 strictum, 4 ft., similar in colour to Napellus but more robust and a later

bloomer, vii. 4d.

ACORUS (Sweet Flag). See Aquatic Plants,

ACTÆ (Bane Berry).

68 spicata fructo rubra, 3 ft., loose heads, Thalictrum like flowers succeeded by

red berries; very pretty, vi-viii. 6d.

ADENOPHORA (Gland* Bellflower), closely resembling the Campanula, easily

grown and very useful border plants.

69 Iilifolia, 1 ft., blue flowers, in loose panicles, sweetly scented, vii-viii. 6d.

70 Stricta, 2 ft., a Japanese species producing large blue flowers, vii. 9d.

ADONIS (Flower of the Gods).

73 vernalis, 1 ft., butter-yellow, Anemone-like flowers 3 in., across, likes moist sandy loam; one of the loveliest Spring 3/- per doz.; 4d. each. flowers, iii-v.

AGAPANTHUS (African Lily). In all but favoured localities, these require a cold house in Winter, not being hardy.

- 76 umbellatus, bold clusters of bright blue flowers on stout stalks; rich compost, abundance of water when growing and flowering, and rest during the Winter.
- albus, pure white, fine; a grand 77

contrast to umbellatus. I/
fl. pl., double blue flowers, a dis-79 tinct variety.

- variegatus, foliage striped white.

- AGROSTEMMA (Rose Campion), produces an extraordinary profusion of flowers; nseful for beds, borders, or wild garden, vi-viii.
 - 85 atrosanguinea, 21 ft., rich crimson-purple.

87 coronaria, 21 ft., flowers rosy erimson..

4d. - alba, 2½ ft., white; very beautiful. each;

3/-- bicolor, 21 ft., white, with doz. rose eye.

92 Flos Jovis, 1 1 ft., clustered heads of rosy-pink.

94 Walkeri, 2½ ft., single bright erimson; very free.

AGRIMONIA (Agrimony).

84 Odorata, swect-scented Agrimony, 21 ft., sweet-scented yellow flowers on numerous spikes.

ÆTHIONEMA.

- 99 cordifolium, 6-9 inches, rosy pink flowers, produced at the ends of numerous stems; a rock plant, of great beauty v.-viii. 9d.
- tol grandiflora, one of the loveliest rockery shrubs, numerous sprays of rose or lilac Arabis-like flowers. Root-run must be deep, and dry in Winter, viix. 9d.
- 103 persica, 9 in., spikes of rosy-lilac, free, vi-vii. 9d.

AJUGA (Bugle).

- 105 Brockbanki, flowers vary from rose to blue and white; v-vii. 4d.
- 107 metallica crispa, 5 in dark metallic-green wrinkled foliage, rich blue flowers. 4d.
- o 109 reptans atro-purpurea, 6 in., leaves rich bronzy-purple, vi-vii. 12/- per 100, 2/6 per doż., 3d.
- o 111 fol. var., 3 in., variegated form of common Bugle, leaves margined ivory; flowers blue; vi-vii. 4d.

ALCHEMILLA (Lady's Mantle).

0 119 alpina, 6 in., leaves covered beneath with dense coating of shining silvery hairs, flowers inconspicuous, 4d.

ALFREDIA.

115 cernuua, 3 ft., thistle-like heads of flowers in clusters. 4d.

ALLIUM

124 pedemontanum, 9 in., handsome elusters of drooping bell-shaped rosy-purple flowers, choice, vii-viii. 6d.

See Aquatic (Water Plantain). ALISMA Plants, page 7.

- ALSTRŒMERIA, handsome clusters of beauti ful richly coloured flowers. Plant 6 in, deep in rich thoroughly drained soil.
 - 125 **aurantiaca**, 3 ft., orange, suffused red, vii-ix. 4d.
 - 129 aurea, 3 ft., large golden-yellow flowers streaked deep red, in splendid clusters, vii-ix. 4d.

130 Chilensis, 3 ft., orange, searlet, and pink, vii-ix. 6d.

 131 psittacina, 4 ft., flowers green, flushed and striped deep red, vii-viii. 4d.
 Mixed Varieties, make a splendid display in the borders, 2/6 dozen.

ALYSSUM (Madwort), beautiful free flowering rock plants, producing sheets of bloom in Spring.

134 alpestre, 3 in., neat hoary tufts, bright yellow flowers, v-vi. 6d.

135 argenteum, 6 in., a pretty species of compact habit, with highly attractive silvery foliage. 4d.

136 montanum, 3 in., bright yellow sweet-

seented flowers, v-vi. 4d.

138 saxatile compactum, 9 in., masses of bright yellow flowers; deservedly popular for Spring bedding, &c., iv-vi.

8/- per 100, 1/6 doz., 3d. each.
——fol. var., 9 in., rich cream, variegation best on a sunny rockery. 139

3/- doz.; 4d. each.

141 — fl. pl. See New Plants, page 3.

143 spinosum, 6 in., a dainty little bush, white flowers, vi-viii. 6d.

AMSONIA.

147 salicifolia, 2 ft., beautiful clusters of pale blue flowers, likes half shade, vii-ix. 6d.

ANCHUSA (Bugloss).

150 italica, 3½ ft., bold stems covered from May till September with large bright blue flowers; grand in the sun. 4d.

"Dropmore" var. See New Plants.

ANDROSACE (Rock Jasmine), small exquisitely beautiful flowers, in clusters, plant firm in rock fissures.

152 arachnoldes, 3 in., white flowers, in umbellate heads, vi-vii. 9d.

153 carnea, 3 in., pink, in clusters, moss-like

habit, vi viii. 9d. 155 **chumbyi,** 3 ins., a charming rock plant,

producing umbels of rosy flowers, on short stems, iv-vi. od.

160 lanuginosa, 9 in., 10settes of white woolly leaves, rosy-pink flowers, vi-viii, 1/

162 sarmentosa, 9 in., rose, white eye, many flowered trusses, v-vii. 6d.

163 sempervivoides, bright purple, fine heads; 6d.

164 villosa, 3 in., flowers white, pretty hairy foliage, v-vii. 1/-

ANEMONE (The Wind Flower), beautiful and popular flowers; very floriferous. valuable for cutting.

167 alpina, 1½ ft., white eup-shaped flowers, slightly flushed slate on the outside, v-vi. 9d.

ANEMONE—continued.

171 appenina, 6 in., finely-cut foliage, numerous sky blue flowers; half shade and

light soil, iv-v. 4d.

— blanda, 6 in., flowers of deeper

blue and larger size than the type. 9d. 181 japonica, 1½ ft., npright stems, large showy rose flowers; vii-ix. 4d. each: 3/- per doz.

-alba Beaute Parfalt, 4 ft., white, frequently semi-double, free. 6d. 6d. Lady Ardilaun," 1½ ft., large,

182 pure waxy white with a double row 4d. of sepals.

39 decurrens, 5 ft., splendid profusion of

pink flowers, vii-ix. 4d.

40 glastifolla (woad-leaved), 2 ft., pretty pink-flowered species blooming in September. 4d.

BOUSSINGAULTIA

46 baselloides, white flowers, not quite hardy, vii. 6d.

BRACHYCOME (Swan River Daisy).

48 Sinclairil, 3in., yellow centre, with white ray, pretty plant, allied to the Daisy vi-viii. 4d.

BUPTHALMUM (Ox Eye).

51 sallcifolium, 1½ ft., showy golden-yellow flowers, with dark discs, vii-viii. 4d.

(The Flowering Rush). See BUTOMUS Aquatic Plants, page 7.

CALAMINTHA (Calamint).

3 alpina, 6 in., very free, bright purple,

pretty, vi-viii. 4d.

5 grandiflora, 1 ft., pretty rose coloured flowers, very free, vi-vii. 6d.

CALLA (Bog Arum). See Aquatic Plants. page 7

CALCEOLARIA (Slipperwort).

8 vlolacea, 1 ft., white, flushed violet and dotted rich purple, vii-ix. 6d.

CALYSTEGIA (syn. Convolvulus).

10 puhescens fl. pl., 4 6 ft.. useful climber, large double flesh-coloured flowers, vi-ix. 4d.

See Aquatic CALTHA (Marsh Marigold). Plants, page 7.

CAMPANULA (The Bell Flower).

18 abletina, 6 in., one of the prettiest dwarf Harebells; lovely blue, densely com-

pact, vi-vii. 6d. each; 4/- doz.

24 allariæfolia, 3 ft., white drooping flowers, vi-viii. 4d. each; 3/- doz.

30 Barrelieri, 6 in., a lovely trailer, large blue flowers, good for rockeries and hanging baskets, vii-viii. 6d.

20 hononiensis, 2-2 ft. bluish-violet flowers.

29 bononiensis, 2-3 ft., blnish-violet flowers-

in long racemes, vii. 4d.

28 — alba, 2 ft., a beautiful whiteflowered form, very fine, 9d.

33 Burghalti, 2 ft., handsome satiny-lilac
flowers, vi-viii. 4d.

36 carpatica, 1 ft., large, pale blue flowers,
one of the best for rockery or front
border vi.iv. 4d.

37

border, vi-ix. 4d.

— alba, 1 ft., pure white form. 4d.

— pallida, 1 ft., pale blue. 6d.

— Robert Parker, 1 ft., lovely whitebells, 3 in. across, blue centre. 6d.

— Riverslea, 1 ft., a distinct break. 41 -47

large flat Clematis-like flowers of a richblue. 6d.

50 celtidifolia (syn. loctiflora), 3 ft., large milk-blue flowers, in huge panicles; anthers orange, vi-viii. 6d. 52 fragilis, 6 in., handsome trailer, lilac

blue, white centre, over 1 in, across; good for rockery and hanging baskets, vi-viii. 6d.

55 garganica, 6 in., light blue, delightful for rockery or baskets, vi-viii. 4d.

- hirsuta, 6 in., covered with a stiff

57 — nirsuta, o in., covered with a still woolly down. 4d.
 60 G. F. Wilson, 6 in., numerous purplishblue flowers on short stalks, vi-ix. 6d.
 62 glomerata dahurica, 1½ ft., large deeppurple bells over 2 in. long, likes lime, vii-ix. 3/- doz.; 4d. each.
 65 — pallida, 2 ft., deuse clusters of pale grey-blue flowers: likes lime. 4d.

pale grey-bluc flowers; likes lime. 4d. grandiflora, grandiflora alba, and grandiflora pumila. See Platycodon grandiflorum.

68 grandis, 2½ ft., clear purple-blue pendant flowers in dense profusion, magnificent for cutting, vii-ix. 4d. See

illustration next page.
69 — alba, snow white flowers. 4d.
73 Hendersonii, 18 in., mauve flowers. pyramidal habit; 4d.

CAMPANULA GRANDIS. * A lovely blue-flowered species. See previous page.

CAMPANULA—continued.

76 Hostii, 10 in., large rich blue flowers gracefully arranged on branching stems,

vi-viii. 4d.

77 — alba, 10 in., white-flowered form of the preceding, vi-vii. 4d.

88 latifolia, 3½ ft., the statelicst of our wild the process of the preceding vi-viii. 4d.

Bell flowers; dislikes lime, vi-viii. 4d.

- alba, pure white, one of the best. 4d.

92 --- oculata, with a deep blue eye. 4d. 94 mirabilis, 21 ft., extraordinary profusion of large pale blue flowers; vi-ix. 1/-

96 muralis (syn. portenschlagiana), 3 in., pale blue : seen to advantage on steep rocks, v-viii. 6d.
97 nitida, 9 inches, large blue flowers, excellent habit, vii-ix. 6d.

08 persicifolia, 2 st., the peach-leaved Bell flower, blue flowers over 2 in. across; this and its varieties should be in every collection. vi-ix. 4d.

— alba, very large pure white flowers. 3/- doz. 4d. cach;

--- fl. pl., pure white, exceedingly 102 handsome. 4d

grandiflora, 3 ft., immense flowers of purest white; for decorative purposes unrivalled. 6d. — cœrulea coronata, pretty blue flow-

100 ers, vi-viii. 4d.

bells on each flower, the inner very shapely, the other somewhat reflexed. 4d.

CAMPANULA-continued.

116 Persicifolia, La Fee. (See New Plants, page 3).

- Moerheimi, A.M., R.H.S., 21 ft., large semi-double flowers of the purest white, produced in great abundance, vii-ix. 6d.

- Lavender Queen, 21 ft., 117 magnificent spikes of large lavender flowers; most distinct. 6d.

- Newry Giant. 121 See New Plants, page

Plants, page 3.

Oldfield Blue, 3 ft., enormous shapely bright blue bells; very free flowering. 6d. each; 4/6 doz.

Oldfield White, 3 ft., enormous white bells of most available forms. 124

126 exquisite form. 6d. each; 4/6 doz.

130 pulcherrima, a fine blue-flow ered species. 4d.

131 pulla, 4 in., a little gem, violetblue flowers, vi-viii. 4d.

133 pumila alba, 4 in., great profusion of pretty flowers in pairs; excellent for edging and rock, vi-vii. 3/- doz.; 4d'. each.

134 punctata, 1½ ft., large white flowers, spotted purple, v. 4d.

- alba, white flowers, grand for con-139 --servatory. 6d.

142 Raineri, dwarf creeping species, large blue flowers, free, vi. 6d.

144 rapunculoldes, 3 ft., bluish-violet flowers, drooping, long spikes, vi ix. 4d. each.

146 rhomboldalis, 1 ft., graceful sprays of purple-bluc, vii-viii. 6d.

150 rotundifolia (The Common Harebell), 9 in., shapely, beautiful and free, v-ix. 4d.

154 Sibthorpii, 2½ ft., purplish-blue, distinct, vii-ix. 4d.

159 thyrsoides, 18 in., straw-coloured flowers, dense spikes, vi-viii. 4d.

157 Tommasiniana, 9 in., pale blue flowers, on slender stems. 6d.

161 Trachelium alba, fl. pl., 2½ ft., flowers pure white, double but of graceful bell form, vii-ix. 6d.

164 turbinata, 6 in., elegant habit, with a charming abundance of dcep violetblue flowers, 1½ in. across; one of the best, vi-viii. ⁻6d.

Chad Valley Gem. 6 in., compact and free; pale blue. 6d.

- Distinction, 6 in., deep blue, very rich. 6d.

169 - Isabel. (See New Plants, page 3).

170 Van Houttei, 2 ft., large blue flowers. 4d.

Twelve beautiful Campanulas, our selection, 3/-; Twelve extra choice for 5/-

CARDAMINE (The Lady's Smock or Cuckoo Flower), spring flowering, dainty branching flower sprays; grow anywhere.

176 præcox, 9 in., neatly arranged white flowers, iii-iv. 4d.

178 pratensis, fl. pl., 1 ft., an elegant double form, flowers lilac-purple when first open, but paling with age, iii-v. 4d.

180 trifolia, 9 in., flowers pure white; fairly large, iv-vi. 4d.

CARDUUS

183 Heterophyllus, 3 ft., deep rose thistlelike flower, prettily cut foliage, ornamental. 4d.

CAREX (The Sedges), a showy group of semi-

aquatics, tufted foliage.

186 Morrowli, 1} ft., dainty form, graceful reflexed leaves, prettily margined white; a lovely table plant, vi-vii.

4d. cach; 3/- per dozen.

188 pendula, 5 ft., handsome tufts with many upright flower stems carrying

graceful spikes, 1½ ft., long, vi-viii.
4d. each; 3/- per dozen.

190 riparia, 2½ ft., handsome broad leaved;
makes a splendid clump, vii-viii. 4d.

- variegata, graceful leaves with a creamy stripe down the centre; looks well in pots; useful for table decora-4d. each; 3/- per dozen.
- CATANANCHE (Cupid's Dart), numerous flower stalks each ending in a single large flower head; of great value for cutting.

195 bleolor, 2 ft., blue and white, vi-vii.
4d. eacli; 3/- per doz.

198 cœrulea, 2 ft., blue, vi-vii. 4d. ea.; 3/-

per doz.

CEDRONELLA

201 triphylla (Balm of Gilead), 3 ft., de liciously perfumed leaves, long spikes of pale purple Dead-nettle flowers, ii-viii. 4d.

CELSIA.

- 201 Abetonicæfolia, 2 ft., a half-hardy biennial, yellow flowers, the two upper segments marked with a purple spot, vi. 6d.
- CENTAUREA (The Corn Flower), a favourite group with thistle-like spineless flower heads of large size, excellent for cutting.
- 204 albicans, 1½ ft., flower heads white, vi-vii. 4d.
- 206 atropurpurea, 2 ft., dark purple, good for cutting for bouquets, &c., fine for garden decoration, vii-viii. 6d.
- 208 canariensis, 2 ft., flower heads clear yellow, viii-ix. 4d. 210 dealbata, 2 ft., rose; leaves silver white
- beneath, vii-ix. 4d.

 212 glastifolia, 4 ft., handsome yellow flowers, silvery base; handsome, viiix. 6d.
- 214 macrocephala, 4 ft., noble plant, large handsome leaves, stately bright yellow heads of enormous size; vii-ix. 3/doz.; 4d. each.
- 216 montana, 1½ ft., flowers bright blue, 3 in., across, largely grown for cutting, vii-viii. 4d.
- 217 alba, 1½ ft., flower heads white. 4d.
 219 rubra, 1½ ft., flower heads purplish-red. 4d.

CENTAUREA -continued.

220 montana sulphurea, 11 ft., flower heads pale yellow. 4d.

222 **rigidifolia**, 1½ ft., flower heads rosy-purple, vi-viii. 6d.

224 ruthènica, 3 ft.. elegant pale-lemon, vii-viii. 6d. 8 fine varieties of Centaureas, our selection, for 2/6,

CENTRANTHUS (Red Valerian).

- 230 ruber, 2½ ft., large, rich red clusters of small flowers and shining glancous
- 232 -
- CERASTIUM, the Mouse-ear Chickweed, pretty white flowers; easiest possible culti-
- c 237 Arvense, 3 in., useful for edgings and rock-work, v-vi. 8/- per 100; 1/6 doz.; 2d. each.
 - 239 biebersteinii, 6 in., allied to above. but larger in both leaves and flowers, v-vii.
- 8/- per 100; 1.'6 doz.; 2d. each. c 241 tomentosum, Snow in Summer, 6 in.. stems and leaves covered with silvery white, smothered with white flowers; extensively used for edging flower beds, v-vii. 8/- per 100, 1/6 per doz. 2d. each.

CEPHALARIA. See Scabiosa.

- CHEIRANTHUS (Wallflower), plant on a dry sunny bank or an old wall; among the finest of border plants; fragrant.
 244 alpinus (Alpine Wallflower), 6 in., dense
- heads of pale yellow, v-vii. 6d.
- 246 luteus fl. pl., 1½ ft., a lovely donble yellow, iv-vi. 6d.
- chelone (Turtle Head), handsome plants of easy cultivation; flowers somewhat like a large Antirrhinum, in dense clusters.

- barbata. See Pentstemon barbatus.

 251 Lyonii, 2½ ft., numerous stems, soft pink flowers, vii-ix. 4d.

 253 obliqua, 2 ft., more slender, flowers rich pink yii, viiii.
- pink.
- ink vii-viii. 4d. alba, 2 ft. flowers creamy white. 254 -
- CHRYSANTHEMUM (Marguerites or Ox-eye Daisies), free and attractive; excellent for beds, borders, &c.
- 259 latifolium, 3 ft., one of the best hardy Marguerites, 2 to 3½ in. across, vii-ix. 4d. each; 3/- per doz.
 263 "Top Sawyer," 4 ft., the largest of all white Marguerites; very hand-
- some. -6d.
- W. Henshaw, 3½ ft., pure white 265 flowers, good substance, produced in
- great abundance. 6d. and od.

 268 Leucanthemum, 1½ ft., the well-known common white flowered marguerite, 4d. each; 3/- doz.

 270 maximum 2 ft. One of the finest;
- blooms 3 inches across. Invaluable for cutting, vii-ix. 4d. each;
- " Duchess of Abercorn," 2 ft., large pure white, petals gracefully toothed at the tips. 6d.

CHRYSANTHEMUM-eontinued.

274 maxlmum, "Elaine," superb variety, flowers finely formed; grand for cut 6d.

276

ting. 6d.

--- 'Fantast,' creamy white, finely divided petals. 6d.

--- fliformis, 2 ft., specially graceful. 278 4d.

ray flores deeply notched at tips. 6d. 280 - King Edward, A.M., R.H.S. Sec 284

New Plants, page 3.
— lanceolatum, 2½ ft., superb variety, 286

4d. - " Marguerite Marwood," 2 ft., large, 288 pure white beautifully reflexed, dwarf, fine. 6d.

—— "Mauriee Pritchard," 2½ ft., most of the flowers 4 in. across. Very free, 200

6d.

- Mrs. Charles Lowthian Bell. See 289 New Plants, page 4.
— Mrs. Head, 2½ ft., large pure white

flowers, 3 to 4 in. diameter, in the utmost profusion, viii. 6d.

- Rev. H. Sanders. (See New Plants, 200A-

page

- Robinsoni, $2\frac{1}{2}$ ft., one of the finest roduced; flowers purest white, introduced; petals divided into long segments, an excellent plant for cutting. 6d.

"Triumph," pure white with long broad petals, grand for cutting. 6d.

W. H. Gabb, white, a fortnight

294 -

296 earlier than maximum, blooms on long stalks; suitable for cutting or border.

12 fine varieties of Chrysanthemum Maximum, for 3/-

CHRYSOCOMA

305 Linosyris (Goldie Locks), 11 ft., dense clusters of bright vellow, vii-ix. 4d. each; 3/- doz.

CHRYSOBACTRON

302 Hookerii, 2 ft., allied to Antherieum, dense flower spike of showy bright yellow flowers; v-vii. 6d.

CHRYSOGONUM

308 virginianum, ½ ft., yellow, leaves serrated; v.ix. 6d. rated; v-ix.

- CIMICIFUGA (Bugwort), white, with a conspicuous bunch of stiff white projecting stamens, on long slender drooping spikes.
 - 311 cordifolia, whitish flowers, thrives in a moist, shady situation, vi-viii. 9d.
 - 315 Japonica, 3 ft., white, remarkably handsome spikes; foliage ornamental. 6d.
 - 317 raeemosa (serpentaria), 41 ft., branching, bold, stately, vii-viii.
 - 319 simplex. See New Plants, page 4.
- CISTUS (Rock Rose), with their profuse succession of brilliant fugacious flowers, are beautiful flowering shrubs. They prefer a dry sandy loam. The species are all variable in habit and size, viviii.
- 324 algarvensis, 2 ft., yellow flowers with a crimson ring. 6d.
- 331 crispus, 2 ft., brilliant rose, bushy habit.
- 333 enpanianus, 2 ft., pure white, prefers warm borders, 6d.

CISTUS -eontinued.

334 cymosus, 12 ft., white, spreading. 6d.

334 cymosus, 13 ft., white, speaking odd.
335 florentinus, 3 ft., pure white, fine for sunny position. 6d.
337 formosus, 2 ft., golden yellow, dark spots, suitable for rock or banks. 6d.

339 laurifolius, 3 ft., large white; one of the hardiest. 6d.

341 lusitanicus, 3 ft., pure white, each petal having a yellow base and dark crimson

blotch. 6d. 343 obtusifolius, 3 ft., flowers pure white, very free. 6d.

345 rosmarinæfolius, 3 ft., white; rosemary-

like foliage. 6d.
347 salvifolius, 2 ft., pure white, fine for warm border or bottom of warm wall.

64

349 undulatus, 2 ft., large flowers, free and pretty, 6d. 8 distinct sorts of Cistus, our selection,

for 3/-

(Virgin's Bower). When well . CLEMATIS established these herbaceous species form a beautiful addition to a border, growing freely in any fairly rich soil.

352 Davidiana, 21 ft., large clusters of deliciously perfumed porcelain-blue flow-

ers, vii-ix. 9d. 354 erecta, 2 ft., many flowered clusters of fragrant white blooms, vi-viii. 6d.

356 integrifolia, 2 ft., blue wavy margined flowers, vi-viii. 6d.

CODONOPSIS

360 ovata, 1½ ft., a striking profusion of metallic blue flowers, the interior curiously marked yellow, vii-viii. 6d.

COMMELINA (Spider-wort).

366 cœlestis, 2 ft., a half-hardy plant, beautiful sky-blue flowers. 6d.

CONVALLARIA.

369 majalis, (Lily of the Valley), strong clumps for planting in the ground, 6d. and 9d. each; single crowns for planting, 4/- per 100; 25/- and 30/-

per 1,000.

fol. var., leaves striped with silverywhite. Planting crowns, 1/- per doz.

CONVOLVULUS. Well-known handsome and showy plants luxuriate in almost any soil.

377 cneorum, 2 ft., a non-climbing species; light pink flowers, leaves clothed shining silvery-grey; almost hardy, vii-ix. 6d.

379 sepium giganteum, 6 to 8 ft., a large form of the native bindwced, vii-ix. 6d.

381 stans, 1 ft., dense creeper, large white flowers, vi-viii. 4d.

COREOPSIS (Tiger Flower), among the best of yellow flowers for cutting, elegant flower heads on long smooth stalks;

385 grandiflora, 3 ft., large lovely refined golden-yellow flowers, vii-x. 4d. each; 3/- doz.

387 lanceolata, 2 ft., branching and free; a general favourite, vii-ix. 4d.

389 rosea, 1 ft., ray florets rosy-red, disc.

yellow, vii-ix. 4d. each; 3/- doz.

301 verticillata, 1½ ft., elegant feathery foliage and a great wealth of clear yellow flowers, vi-ix. 6d.

CORNUS

394 canadensis, 4 in., a pretty plant, yellowish-white flowers, vii-viii. 6d.

CORONILLA (Crown Vetch), flowers in conical heads; of great value for rockeries and borders,

396 **iberlea**, prostrate stems, pretty dark green leaves, coronets of bright yellow flowers; likes deep soil, vi-ix. 9d. 398 Mlnlma, sweet scented yellow flowers,

very pretty, procumbent habit, vi-vii. 6d.

400 varla, 2 ft., graceful rambling habit, profusion of rosy-pink flowers, vi-ix. 6d.

CORTUSA (Bear's Ear Sanicle).
402 matthioli, 6 in., deep red flowers, in drooping umbels, charming rockery plant. 6d.

CORYDALIS (Funitory), pretty feathery foliage and an abundance of beautiful flowers in spikes; fine for borders and roekery.

405 bulbosa, 6 in., flowers reddish-purple, iii-iv. 4d.

407 — purpurea, 6 in., flowers deep purple.

- rosea, 6 in., light rose flowers, with

dark tip. 4d. 411 lutea, 1 ft., dense delicate pale-green foliage, yellow flowers tinted green and white, delightful on walls, v-x. 6d.

--- alba, I ft., a white flowered form of the preceding, v-x. 6d.

CRAMBE (Seakale).
417 cordifolia, 5 ft., a noble plant, large smooth heart-shaped and ovate leaves and long many-branched spikes of dense small white flowers, vi-viii, 9d.

CRINUM

422 capense album, 2 ft., 6 to 12 large white Amaryllis-like flowers on stems 2 ft.

426 Powelli, 2 ft, rose flowers, in fine umbels,

fragrant, vii-viii. 1/--

CRUCIANELLA (Crosswort).

430 stylosa, 1 ft., a graceful rosy pink Bed-straw, fine for rockery, vi-viii. 4d.

ANTHUS. Charming plants for growing on the rockery; plant in a shaded CYANANTHUS. rather moist place, where their stems

ean rest among the stones.

CYCLAMEN (Sowbread). Hardy species are of great beauty. They require perfect drainage, protection from cutting winds and shelter from hot sun. For rockwork they are excellent.

433 Coum, 4 in., usually deep red flowers;
 bright and cheerful, ii-v. 9d.
 435 Europeum, pretty red flowers, makes

a pretty mass in a shady border, viii- '

x. 6d. rubrum, a richly coloured form of 437 the preceding species, viii-x. 6d.

439 hederæsolium (syn. repandum), 6 in., fragrant rosy-purple flowers in stonishing profusion; leaves large, zoned silver, delightful for Winter table decoration, ix-x. 6d.

decoration, ix-x. 6d.
443 libanoticum. See New Plants, page 4. 445 neapolitanum, 4 in., bright red flowers,

and very handsome leaves, ix-x. 6d. CYPERUS (Galingale). See Aquatic Plants, page 7.

CYPRIPEDIUM (Slipperwort).

450 Acaule, lovely pink and white flowers of large size, very attractive, v-vii. 1/6.

452 calceolus (Common's Shipper), a pretty species, with fragrant vellow flowers, v-vii. 1/-

454 pubescens (The Downy Lady's Slipper), flowers brownish-purple and yellow.

free and pretty, vi-vii. 1/- and 1/6.
456 spectabile (The Mocassin Flower), 12 ft., a hardy Orchid of supreme beauty; one to three large rosy-white flowers prefers deep planting in a peaty soil in half-shade, vi-viii. 1/-, and 1/6.

CYTISUS (Broom).

459 Ardoini (Alpine Broom), 6 in., dense clusters of yellow flowers, beautiful and showy, v-viii. 1/-

DACTYLIS (Cocksfoot Grass).

3 glomerata aurea, 1½ ft., richly margined yellow. 6/-100; 1/-doz.; 2d. each. 6—elegantissima, 1½ ft., creamy striped

form of Coeksfoot, excellent for edging, for dividing beds, for dainty elumps, v-vii. 6/- per 100; 1/- doz.; 2d. ea.

DELPHINIUMS. See page 13.

DIANTHUS (The Pinks), an indispensable

group of lovely plants. 8 alpinus, 2 in., a dense shining dark green carpet, covered with large deep rose flowers, spotted crimson; likesexposure, but easily injured by drought v-vii. 6d.

8Aarenarius, 6 in., small white fringed flowers, with purplish spot. vi vii. 6d.

— maculata, 6 in., lilae white flowers, with a deep crimson blotch, on each petal, vi-vii. 6d.

9 Atkinsonii. See New Plants, page 4. barbatus. See Sweet William, page 63.

- magnificus (double crimson Swect William), I ft., a riehly coloured plant, good for a border or rockery, vi-vii. 9d.

12 cæslus (Cheddar Pink), 6 in., neat cushions of glaucous green foliage, round fragrant pale pink flowers, likes an old wall or gritty chink, v-vii. 4d.

15 coccineus. (Sce New Plants, page 4).
14 "Cyclops," I ft., large rose-erimson flowers, with broad maroon zone, vivii, 6d.

16 deltoldes (Maiden Pink), 9 in., with numerous bright pink flowers, prefers a dry position, but grows almost any where, vi-ix. 4d.

— albus, 9 in., flowers white, 6d. — dependens, 9 ins., lovely pink flowers, free and effective. 6d.

24 fragrans fl. pl., 9 in., solitary deliciouslyfragrant fringed double white flowers, vi-vii. 6d.

29 hybridus multiflorus (Mule Pink), 15 in... remarkably free, double showy rosecoloured flowers, v-x. 6d.

Marle Pare, 15 in., free, pure double white flowers. 9d.
— Mrs. Dixon. See New Plants, free, pure

page 4.

31 - Napoleon III. See New Plants, page 4.

35 Integer, 8 in., fringed pure white flowers ; likes a dry rockery nook, vi-ix. 6d.

DIANTHUS-continued.

 Monspessulanus, 1 ft., pale pink, free and attractive, v-vii. 6d.
 neglectus, 3 in., an exquisitely brilliant Alpine, clothed in Summer with bright rosy flowers, sandy loam v-vii. 9d.

40 petraeus (Rock Pink), 6 in., blush-white, fringed, vi-vii. 6d.

11 plumarlus annulatus, 9 in., pale rose, form of the Garden Pink, broad dark

zone, vi-ix. 4d. superbus, 1½ ft., fragrant rosy flowers, gritty fibrous loam, vi-ix. 4d.

sylvestris, 6 in., deep rose, prettily fringed, vi-ix. 6d.

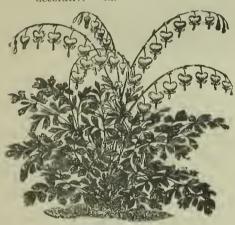

Twelve fine Dianthus, our selection,

for 4/-

DICTAMNUS (Burning Bush, Dittany), ornamental plants of the Rue family, impregnated with the characteristic fragrant oil. If a light be applied to the stem, &c., on eve of hot summer's day the oil. being volatile, will blaze, hence the name.

52 Fraxinella. 2½ ft., large pale reddish-purple flowers; light soil, v-vii. 6d.

- alka, flowers white splendidly decorative 6d.

DIELYTRA SPECTABILIS.

A well-known garden plant, largely used for forcing indoors.

D!ELYTRA (Dicentra, Bleeding Heart, Lyre Flower), graceful showy large flowered Fumitories with lovely fern-like foliage.

57 eximea, 15 it., long spikes of reddishpurple flowers, v.vii. 3/- doz.; 4d. each.

59 formosa, 1 ft., pink delicately cut foliage,

v-vii. 3/- per doz., 4d. each. 61 spectabilis, 2 ft., old-fashioned garden plant, graceful spikes of white and rose flowers (see illustration). 6d. each; 4/- per dozen.

62 -- alba, a pretty blush-white form, 9d.

71 grandiflorum, 1½ ft., handsome yellow flowers. 4d. each; 3/- dozen.

DIPSACUS (Teazel).

75 Fullonum (Fuller's Teazel), 6 ft., singular heads of whitish flowers, vii-viii. 3/- per doz.; 4d. each.

DODECATHEON (Shooting Stars), pendulous Cyclamen-like flowers with a projecting beak of anthers. Like half shade.

294 integrifolium (splendidum), 9 in., deep rosy crimson, iv-vi. 6d.
 296 Jeffreyanum, 1½ ft., pale rosy lilac, yellow eye; handsome, iv-vi. 6d.
 298 Media, heads of drooping lilac Cyclamen-

like flowers. 4d.

DONDIA (syn. Hacquetia).

300 Eplpactis, 4 in , pretty greenish yellow flowers in May. 6d.

DORONICUM (Leopard's Bane), a wealth of large yellow flower heads in Spring and Autumn.

77 Clusii, 2 ft., most effective; grand for cutting, iv-vi. 4d.

79 plantagineum excelsum, flowers large and bright, v-viii. 4d.

DRABA (Whitlow Grass), Spring flowering plants of exquisite form, showy little flower spikes and leaves usually in rosettes; delightful on sunny walls, or rockeries.

82 bruniæfolia, 4 in., yellow, foliage like a choice mossy Saxifrage. 6d.

84 cuspidata, 3 in., flowers bright yellow, iii-iv. 6d.

80 gigas, 9 in., very compact; flowers white, iii-iv. 6d.
88 Mawii, 9 in., white flowers, \$in., in

diameter, foliage deep green, tufted, excellent for the rockery, iii-v. od.

pyrenaica (syn. Petrocallis pyrenaica),
3 in., white changing to purple; choice

and pretty, iv.v. 6d.

DRACOCEPHALUM (Dragon's Head), showy border plants resembling Salvias. Flowers in whorls on long handsome spikes.

of grandiflorum, 6 in., flowers charming blue tint, a creeping species of great

beauty. 6d.

98 ruyschianum, 2 ft., bright showy violet-

blue, vi-vii. 4d.

100 speciosum, 1½ ft., pink and purplish-blue, dark spots, vi-viii. 4d.

102 virginianum album (syn. Physostegia virginiana alba), 2½ ft., flowers large, white, graceful, vii-ix. 4d.

DRYAS (Mountain Avens).

107 octopetala, 3 in., creeping evergreen, crowded tiny leaves, shining green above and white beneath; flowers white with yellow stamens, succeeded by long beautifully-feathered fruits; moist peat, vi-viii. 6d.

ECHINACEA purpurea. See Rudbeckia purpurea.

ECHINOPS (Globe Thistle), handsome perennials with large Hedgehog-like flower heads and thistle-like leaves, downy beneath;

2 Ritro, 3 ft., clear blue, vi-viii. 4d. 4 ruthenica, 4 ft., very handsome steel-

blue, vii-ix. 4d. 6 sphærocephalus albidus, 5 ft., a fine white, vii-ix. 4d.

EDRAIANTHUS (syn. Wahlenbergia).

8 dalmaticus, 4 in., lovely blue flowers in clusters; eharming for rockery,

vi-vii.

o serpyllifolius, A.M., R.H.S., 3 in., Thymelike foliage, upright purple-blue flowers an exquisite rock plant of rare beanty, deep gritty perfectly drained sunny soil, vi viii. 1/6.

EOMECON

12 chionantha (The Cyclamen-leaved Poppy), I ft., pearly white, yellow stamens, 2 in. across, moist open soil, vi-viii. 6d.

ELYMUS (Lyme Grass). See Aquatic Plants), page 7.

EPIGÆA (Ground Laurel).

13 repens, a dainty creeping evergreen; white tinged red, rich spicy fragrance; sandy peat in shade. 1/6.

EPILOBIUM (Willow Herbs), flowers somewhat like Godetia, but smaller and in long spikes.

14 angustifolium, 4 ft., handsome spikes of rosy-magenta; excellent for shrubbery, wild garden, or water edge, vi-viii. 3/- doz.; 4d. each.
— album, 4 ft., creamy-white form.

3/- doz.; 4d. each.
18 Fleischerl, 1 ft., showy, for rock or border; flowers rose, vi-ix. 6d.

20 rosmarinæfolium, 2 ft., rosy-purple, viiix. 6d.

- EPIMEDIUM (Barren-wort), exquisitely graceful, often beautifully coloured in Antumn, and much prized at all times for cutting; light spikes of extremely pretty flowers in Spring; half-shade in moist soils, with peat added.
 - 25 alpinum, 1 ft., outer sepals grey, inner dark crimson; tiny yellow petals, iv-vi. 6d.
 - 20 diphyllum, 3 in., flowers white, delightful for rockery, iv-vi. 4d.
 - 31 lilacinum, long rosy-lilac sprays, v-vi. 4d.
 - 34 macranthum, white and reddish-purple, iv-vi. 6d.
 - musschianlum, 15 in., dull-white, rich
 - Antunn colouring, iv-vi. 4d. rubrum, 10 in., flowers red, v-vi. 4d.
 - 40 niveum, 8 in., flowers pure-white, v-vi. 4d.
 - 42 pinnatum, 15 in., bright yellow flowers, graceful foliage, specially useful for friuging shrubberies, v-vii. 4d.
 - 44 versicolor, 8 in., dainty white and lilac flowers, iv-vi. 6d.
 - Six Epimediums in 6 varieties, our selection, 2/-.
- EREMURUS (King's Spear), noble and elegant perennials, belonging to the Lily family. Thrive in rich well-drained soil, need protection in early spring from lite frosts.
 - 47 himalaieus, 6 ft., uppermost 2 ft. of each spike covered with star-shaped flowers 1½ in. across, vi-vii. 3/6 to 5/-
 - 49 robustus, spikes 8 to 10 ft., of which 4 ft., is evenly covered with sweet-scented bright peachy-lilae flowers, each about 2 in. across; hardy, v-vii. 3/6 to 5/-.

- ERIGERON (Flea-bane), numerous ray florets and a yellow or orange centre; good for rock and borders.
 - 54 aurantiacus, 1 ft., rich orange, 2 in. across, v-vii. 4d.
 - 56 caucasicus, 13-2 ft., rosy-purple, in great loose masses, vi-vii. 4d.
 - 58 Coulteri, 1½ ft., white, good for cutting, vi-vii. 6d.
 - 60 glabellus, 1 ft., flowers large, ray florets purple, vi-viii. 4d.
 64 macranthus, 1 ft., large purple flowers,
 - vi-viii. 6d.
 - 65 Multiradiatus, 1½ ft., violet flowers, with large gold centres, pretty and uscful for cutting, vi-viii. 6d.
 - 67 Roylei, 6 in., flowers pale purplish-lilac, very telling for rockery, vi-viii. 6d.
 - 69 salsuginosus, 2 ft., almost covered with large lilac-like flowers, vii-x. 4d.

 - 71 speciosus, 2 ft., lilac-purple ray florets, centre orange, vii-ix. 4d.
 72 superbus, 3 ft., stronger grower, larger flowers. 6d. 6 distinct sorts, our selection, 2/-

ERINUS

- 74 alpinus, 3 in., slender spikes of Arabis-like flowers varying from rose to violet-purple; delightful for rockery or old wall, iv-vi. 4d.
- albus, 3 in., a pretty white form.
- ERODIUM (Heron's Bill), continuously in flower for many months; excellent for dry sunny border or rockery.

76 Guttatum, 6 in., white flowers, veined with violet, silky white foliage, v-viii.

78 macradenum, 6 in., French grey, tinged

- rosy-lilac, upper petals dark spots, extraordinarily free, vi-ix. 6d.

 80 Manescavi, I ft., large rosy-crimson trusses, vii-viii. 6d.
- ERYNGIUM (The Sea Hollies), Thistle-like in appearance; the whole plant, and especially the bracts, covered with
- vivid metallic sheen.
 o 68 alpinum, 2 ft., handsome; steel-blue sheen, vii-viii. 64.
- o 88 amethystinum, 13 ft., flower heads and stems delightful amethyst blue; one
 - of the best, v-vii. 6d. 89 campestre, 1½ ft., lovely blue, vii-viii.
 - 92 maritimum, 12 ft., pale blue leaves and stems, metallic greyish white; even on poor sand, vii-viii. 4d.
- Oliverianum, 3 ft., noble plant, large rich blue flower heads and a fine steelblue sheen, vii-viii. 6d.
- pandanifolium, 6 ft., purplish heads in large, open, branching clusters, and strikingly handsome, long Yucca-like 0 98 leaves, most effective specimen plant, vii-ix. 9d.
- 100 paniculatum, 3 to 4 ft., greenish-white flowers. 6d.
- o 102 planum, 2 ft., roundish blue heads, attractive, vii-viii. 4d.
 - 104 serra, 5 ft., white, handsome foliage; not quite hardy, ix. 6d.
- 106 spinalba, flowers whitish, grower; quite hardy. 6d,

ERYNGIUM -- continued.

108 tripartitum, 2 ft., steel-blue flowers, fine heads; distinct and handsome, vii., 6d. 6 fine sorts, our selection, 2 -

ERYSIMUM (Hedge-Mustard).

111 helveticum, 1 ft., a handsome Alpine H'allflower, covered in Spring with bright yellow flowers. 6d. each; 4/doz.

114 pachycarpum, rich orange yellow flowers, a very beautiful free flowering species, from the Himalayas, 1/- each.

113 pulchellum, 6 in., pretty yellow-flowered plant of prostrate habit, iv-vi. 4d. each; 3/ doz.

ERYTHRÆA (Centaury),

o 116 diffusa (syn. Massoni), 3 in., lovely rock-plant, of rapid growth, shining leaves, clusters of salver-shaped bright rose flowers. 6d.

PALMATIFIDA. ERYTHROCHÆTA Senecio japonica.

ERYHROLÆNA (syn. Cnicus). (Mexican

Thistle).

o 119 conspicua, 5 ft., an elegant Thistle, large, handsome, conical crimsonscarlet flower heads; vii-viii. od. each.

TORIUM (Hemp Agrimony), small flower heads in large clusters, showy EUPATORIUM and useful for cutting.

122 altissimum, 4 ft., large white flowers in clusters, viii-ix. 4d. each.
126 purpurem, 6 ft., enormous clusters of reddish purple flowers, viii-x. 4d.

EUPHORBIA (The Spurges), rich green leaves, showy elegant flower heads; useful for dry banks.

129 capitata, 3 in. neat effective trailer for the dry rockery; flower heads yellow, 6d. v·vii.

131 Cyparissius, 9 in., a rapid grower, yellow flower heads in handsome umbels, v-vi. 6d.

133 pilosa major, 2 ft., large gorgeous heads of rich yellow; strikingly effective, vi-vii. 6d.

FARFUGIUM.

2 grande, large round green leaves irre-gularly blotched with yellow; prefers a porous soil and half shade. 9d.

FERULA (The Giant Fennels), large very finely divided plume-like rich green leaves of remarkable beauty, especially in Spring; enormous freely-branching spikes of small yellow flowers, vii-viii. 7 gigantea, 10 ft., foliage bright and graceful. od.
10 glauca, 6 ft., foliage very glaneous beneath. od.

12 tingitana, 8 ft., fine plume-like foliage; robust habit. 1/-FESTUCA (Fescue Grass), hardy densely-

tufted grasses, 9 in. high, vi-vii.

15 glauca, soft blue glaucous foliage; good for edging. 2/6 doz.; 4d. each.

17 punctoria, effective grey foliage; good for edging. 4d.

FRAGARIA (Strawberry).

85 vesca fol. var., a pretty form of the wild strawberry, with variegated foliage, iv-v. 4d.

FRANCOA, pretty free-flowering plants, succeed best on dry, sheltcred sunny borders in a mild situation.

21 appendiculata, 2½ ft., white and pink, in tall, beautiful spikes; the hardiest

of Francoas. od. 23 ramosa (Bridal Wreath), 2½ ft., lovely spikes of snow-white flowers: requires protection in Winter; pretty plant for a cool greenhouse. 9d.

FUCHSIA. Hardy varieties. See page 16.

FUNKIA (Plantain Lily), remarkably handsome bold foliage, elegant spikes of long tubular flowers in varied shades from violet-blue to white, produced freely from May to August. Much admired.

27 grandiflora, 2 ft., large handsome pure white sweet-scented flowers, prefers a warm soil. 6d.

20 lancifolia marginata, 1 ft., leaves mar-

gined silver, vi-viii. 6d. foliage, prettily variegated with silver.

34 ovata, 1½ ft., lilac-blue flowers and broad shining dark-green leaves, vii-ix. 4d.

- aurea maculata, 1 ft., richly scented,

and marked creamy-yellow. 6d.

— marginata, 1½ ft., leaves prettily margined white. 4d.

o 40 robusta alba var., I ft., the most beautiful of all, each leaf broadly margined ivory-white, vii-ix, 6d.

o 42 Sieboldil, 1½ ft., most ornamental, leaves

often 1 ft. across; creamy lilac flowers, 6d. vi-viii.

—— elatior, $2\frac{1}{2}$ ft., forms a splendid specimen. 4d.

46 spathulata speciosa, 13 ft., leaves narrow, flowers white, vi-viii. 4d.

Six Funkias In 6 different sorts 2/-, our selection.

GAILLARDIA (Blanket Flower), among the showiest of perennials, large bright flowers, usually of crimson and gold; most useful for cutting, vii-x.

2 hybrida, 2½ ft., seedlings, various colours.

3/- per doz.; 4d. each.

9 — "James Kelway," 2½ ft., dazzling scarlet, edged gold. od.

12 — John Harkness, 2½ ft., bright crim-

son, broad edge of yellow, very beauti-

ful. 6d.

Langport, bright crimson, broad

striking flower. 9d. yellow margin; striking flower. 9d.

"Leonard Kelway," 2½ ft., deep

22

crimson, tipped gold. 9d.

— Semi-plena, 2½ ft., yellow, semi-double, very free. 9d.

— splendidissima plena, 2½ ft., rich crimson, cdged gold, a double flower of great beauty. 1/
— "Vivlan Grey," 2½ ft., large striking yellow self. 6d.

yellow self. 6d. — W. B. Child, 2½ ft., rich, bright,

attractive flowers, very fine. 6d.

"William Kelway," 3 ft., brilliant crimson, gold edge. 9d.

45 oculata sulphurea, 2½ ft., pale sulphur, bright maroon eve. 6d.

6 fine sorts, our selection, 2/6.

GALAX

- 54 aphylla (The Wand Plant), of lasting beauty, dainty leaves, rich green in Summer, vivid bronze in Winter; and sweet wand-like spikes of pure white flowers; cool moist position with peat and leaf-mould, v-vii. 9d.
- GALEGA (Goat's Rue), vetch-like flowers, extraordinarily free; most graceful Summer flowers for cutting.

60 officinalis compacta, 4 ft., rich rosypurple, vii-ix. 4d.

- aiba compacta, white, similar to preceding, but closer habit. 4d.
- GAULTHERIA (Aromatic Winter-green), dwarf creeping evergreens, peaty soil on rockery, or among tree roots in partial shade.

66 nummularoides (Creeping Wintergreen), 6 in., small dark green leaves, and

pretty white flowers, vi-vii. 1/68 procumbens (Canada Tea), dainty drooping white flowers, succeeded by per sistent bright red berries; foliage in Autumn and Winter, handsome bronze, vii-viii. In pots, 9d. each.

GAURA

- 60 Lindhelmeri, 4 ft., rosy-white flowers, on elegant slender branching spikes through the Summer; excellent border plant. 6d.
- GENISTA (Rock Broom), hardy free flowering shrubs, partial to light, dry. soil; very free.
 - 71 pilosa (Greenweed), 1 ft., dense prostrate shrub, bright yellow blossoms, ex-cellent for dry rockery, vii-viii. 4d.

each; 3/6 doz.

73 saglttalis, ½ ft., forms masses, winged and jointed branches, destitute of leaves,

with showy spikes of yellow flowers, vi-viii. 4d. each; 3/- doz.

75 tinctoria (Dyer's Green-weed), 1½ ft., bright yellow flowers from July to September, vii-viii. 4d. each;

77 --- fl. pl., double form, excellent for rockeries. 6d. each.

(Gentian), this lovely group of Alpines require abundant moisture and a firm root bed, they should be planted at the base of the rockery, or in low lying ground. Broken chips of limestone and of roofing slate, should be freely intermixed with the soil;

30 acaulis (Gentianella), 6 in., grand dark blue upright flowers, glorious in clumps and as an edging, v-vi. 3/- per doz.;

4d. each.

82 Andrewsit, I ft., rich purplish-blue,

- charming for rockery, iii-vi. 6d.

 84 Asclepiadea (Willow Gentian), 1 ft.,
 rich purple flowers, a very beautiful species, vii-ix. 6d.
- 87 cruciata, 9 in., trailing stems, light blue flowers; vi-viii. 6d. 88 decumbers, 6 ft., blue flowers, in ter-
- minal spikes, vii-viii.
- 89 lutea, 3 ft., successive whorls of bright yellow flowers, vi-viii. 6d.
- 91 septemflda (Crested Gentian), 9 iu., large terminal clusters of rich blue, lovely white throat, vi-viii. 9d.

-- cordifolia, 6 in., dwarfer than the type, vii-ix. 6d.

GENTIANA—continued.

- 94 tibetica, 1 ft., flowers straw-white, foliage broad and striking. 6d.
- 95 verna (pring Gentian), 3 in. exquisite beauty; flowers glorious blue, pure white eye, iv-vi. od.
- **GERANIUM** (*Crane's Bill*), grow and flower freely in any drained garden soil; excellent for rock-work, and herbaceous borders

98 argenteum, 3 in., lovely silvery leaves, bluish flowers striped pink. 6d.

100 armenum, 3 ft., handsome and free;

- rosy-purple, pencilled black, vi-ix. 4d. 102 balkanum, 1½ ft., showy clusters rosypurple flowers, free; richly perfumed, v-vi. 4d.
- 104 dahuricum, 11 ft., beautiful rich purple, vi-vii. 4d.
- 108 grandiflorum, 1 ft., violet-blue, bright
- glossy petals; pretty. 6d. 106 Endressi, 1 ft., large rosy flowers, vii-ix. 4d.
- 110 ibericum, 1 ft., blue-purple, finely divided leaves; showy, vii-viii. 4d.
- 116 platypetalum, 13 ft., one of the handsomest, clear violet flowers, vii-viii. 6d.
- 112 Lowi (anemonæfolium), 13 ft., beautiful handsome clusters of rosy-pink flowers, deepening to purple-rose in the centre hardy in dry sheltered positions, v-vii. 6d.
- 114 nepalense, I ft., of creeping habit, bright blue, white centre, vi-viii, 4d,
- pratense, 13 ft., flowers rich blue-purple, vi-viii. 4d.
- 120 --- album, 13 ft., a pure white form. 4d.
- 122 - fl. pl., 1½ ft., double, and very free. 4d.
- 124 - Mauve Queen, 12 ft., rich mauve flowers. 4d.
- 126 sanguineum, 9 in., large showy rubycrimson flowers, vi-viii. 4d.
- 128 --- album, 12 ft., a pure white form. 6d.
- lancastriense, 6 in., large pale rose, 130 veined darker, vi-ix. 4d.
- 131 sylvaticum fl. pl., 2 ft., double bluepurple, v-viii, 4d.
 133 Wallichlanum, 6 in, bright purple
- flowers, of large size, on prostrate stems; a haudsome species, vi-ix, 4d. 10 fine sorts, our selection, 2/6.

GERBERA (African Daisy) 136 Jamesoni. See New Plants, page 4.

- GEUM (Avens), bright, showy free-flowering plants in a rich, well-drained soil, useful for the mixed border and the rockery.
 - 139 aureum, 9 in., fine large leaves and large deep yellow flowers in abundance, v-x., 6d.
- 141 coccineum fl. pl., 1 ft., double, dazzling scarlet from June till frost; useful for cutting, vi-x. 3/- per doz.; 4d. each.
- 143 Eweni, 13 ft., bright orange, senii-double, vi-ix. 6d. each.
- 145 Heldreichi, I ft., rich, bright orangered, v-ix. 4d.
 149 --- Superba, I ft., a superb richly
- coloured variety of above, free, v-ix. 6d.

GEUM - continued. .

151 hybridum grandiflorum, 2 ft., dark

orange semi-double, vi-ix. 4d.

153 mlnlatum, 2 ft., brilliant orange-red, from Spring till Autumn. 4d.

reptans, 6 in., charming yellow, dwarf habit; excellent for the rockery, vihabit; viii. 9d.

163 W. B. Child, 1 ft., semi-double, deep orange flowers, handsome and effective, very free. 6d. 5 beautiful sorts, our selection, 1/6.

GILLENIA (False Meadow Sweet).

160 trlfollata, 2 ft., graceful pink and white, numerous dark-red stems and large flowers on thread-like stalks; moist loam or peat in partial shade, vi-viii. 6d.

GLAUCIUM (*Horn Poppy*), silvery glaucous foliage, very hardy, excellent for borders.

172 Iuteum (syn. Flavum), 1½ ft., bright yellow, produced in abundance; the whole plant is an attractive glaucous vi-viii. 6d. colour,

GLAUX (Sea Milk-wort).

174 marltima, 3 in., dainty reclining plant, small slightly succulent leaves, and numerous deeply-lobed flesh-coloured flowers; damp position, vii-ix. 4d.

GLYCERIA Spectabilis folius variegatus. See New Plants, page 4.

GNAPHALIUM (Cud Weed), foliage and stems covered with beautiful silvery down; light dryish soil.

177 Ianatum (syn. japonicum Woolly C.),
1 ft., yellow; the silver foliage makes
it admirable for edging, vii-viii. 4d. each; 3/-doz.

179 margaritaceum (syn. Antennaria margaritacea. Pearly C.), 2 ft., thickly clustered pretty white "everlasting" flower heads, vii-viii. 3/- doz.; 4d.

Leontopodium. See Leontopodium alpinum

GRINDELIA.

181 curvifolla, 2 ft., yellow, in fine heads throughout the Summer; pretty border plant, 6d.

GUNNERA (Chilian Rhubarb), see Aquatic Plants, page 8.

GYNERIUM (Pampas Grass), deep, thoroughly drained soil, and when growing needs an abundance of water.

185 argenteum, 6 ft., noble plumes of bright silver white, viii-x. 6d. and 9d.
 190 --- roseum, 6 ft., delicate rose plumes,

od, and $\tau/-$

GYPSOPHILA (Chalk Plant), extremely graceful habit, best in drvish soil containing old mortar.

197 cerastloides, 4 in., white striped violet,

197 cerasiones, 4 in., white striped violet, \(\frac{1}{2} \) in. across; charming for rockwork, \(\text{vi-viii.} \) 4d. each.; 3/- doz.

109 paniculata, 2\(\frac{1}{2} \) ft., with most graceful loose airy cloud-like clusters of tiny white flowers; exquisitely beautiful among cut blooms, vi-ix. 6d. each; 4/6 doz.

200 -- fl. pl. (see New Plants, page 4).

GYPSOPHILA—continued.

203 repens, 6 in., loose elegant clusters of tiny white or pink flowers; a graceful rock plant, vi-ix. 4d. each; 3/- doz.

- monstrosa, acquisition as a border 204 or rock plant, produces a charming effect; pure white flowers, floriferous and lasting, vii-ix. 6d.

HABERLEA

3 rhodopensis, 3 in., pretty little plant, like a Ramondia, purple flowers; moist peat in half shade, v-vii. 1/-

HARPALIUM. (See Helianthus).

HEDYSARUM

8 coronarium, 3 ft., bright crimson flowers, excellent for cutting; a very hand-some perennial, v-vii. 3/- doz.; each 4d.

9 elongatum, 1 ft., purple-flowered, dwarf,

July. 6d. 12 mlcrocalyx, 1 ft., bright violet red, in

fine racemes, v. 9d.

13 neglectum, 6 in., purple crimson, charming trailer, vii-viii. 4d.
10 obscurum, 1 ft., showy abundance of reddish purple flowers, graceful racemes, v-vi. 4d.

HELENIUM (Sneeze-weed), allied to Sun-flowers, broad frilled ray florets; last well when cut, by cutting early the flowering season is much prolonged.

nowering season is much prolonged.

76 autumnale, 6 ft., clear yellow self, 2½ in. across, in enormous branching masses, viii-x. 3/- doz.; 4d. each.

78 — superbum, 6 ft., richer and finer than the type. 3/- doz.; 4d. each.

86 grandieephalum strlatum, 4 ft., branch-

ing masses of bright orange, splashed crimson. 4d.

-- eompactum bicolor, flowers bright yellow, with rich crimson centre; a beautiful variety of great value. 9d.

90 grandiflorum, 12 ft., clear yellow, dark

90 grandifiorim, 12 ft., clear yellow, dark centre, viii-x. 4d.

92 Harpur Crewe, 3½ ft., a tall form of pumilum, with all its good qualities, viii-x. 3/- doz.; 4d. each.

95 Heopesil, 2½ ft., bright golden yellow; early, vii ix. 4d.

98 pumilum, 1½ ft., golden self, extraordinarily free; early, splendid for culting: general favourite, viii-x.

cutting; general favourite, viii-x. 3/- doz.; 4d. each.

HELIANTHEMUMS. (See page 16).

HELIANTHUS (Sun Flower), extraordinarily free flowering, and where quantities of cut bloom are required for decorative purposes, indispensable.

16 angustlfolius, 3 ft., bright yellow flowers, 1½ in. across, viii-x. 3/- doz.; 4d.

each.

21 Decapetalus, 6 ft., sulphur yellow flowers, bright and effective, viii-ix. 6d.

19 doronleoides, 5 ft., rich yellow flowers, ix-x.

22 H. G. Moon, A.M., R.H.S. pleasing yellow, broad florets, freely produced,

viii-x. 6d. 27 mollis, 3½ ft., golden yellow, black centre, downy silvery-grey foliage; the flowers stand out at right angles from the stems, ix. 6d.

HELIANTHUS-continued.

28 multiflorus, 4 ft., distinct and beautiful, large refined rich yellow flowers and graceful clean-cut small disc. vii-x. 4d. each; 3/- doz.

--- Bouquet d'Or, 4 ft., rich double golden narrow-petalled flowers standing out boldly. 4d. each; 3/- doz.

38 — grandplenus (Soleil d'Or), numer-

ous stems smothered with grand double

46 — meteore, 4 ft., clear golden yellow, dark centre, viii-x. 3/- doz.; 4d. ca.

dark centre; vin-x. 3/- doz., 40. do.

54. rigidus, 4 ft.; clcar yellow, chocolate disc; requires room; one of the best, viii-x. 3/- per doz.; 4d. each.

56. — Danlei Dewar, bright yellow, large, dark disc, freely produced. Three First-Class Certificates. 3/- doz.; 4d.

ligerl, 5 ft., bright yellow, free and of good habit. 4d. a 64 -

--- Miss Mellish, 5 ft., the largest, richest, and brightest, double row of ray florets; one of the best. 3/-doz.; 4d. cach.

--- præeox, 21 ft., centre deep gold; three weeks earlier than the type. 3/- doz.; 4d. each.

Six Helianthus, in 6 varieties, our selection, 1/9.

HELICHRYSUM (Everlasting Flower).

o 127 hellanthemlfollum, 1½ ft., a charming "everlasting," beautiful silver-grey leaves; almost hardy, viii-ix. 4d.

HELIOPSIS (Orange Sunflower), large shapely flower heads; excellent for cutting in

132 lævis, 4 ft., golden-yellow flowers, 3 in. across, vii-ix. 4d. each.

134 scabra major, 5 ft., orange-yellow, 3½ in. across, viii-x. 4d. each.

136 —— B. Ladhams, 4 ft., golden-yellow, 4 to 5 in. across, ray florets slightly twisted; flowers in the utmost profusion. fusion. 4d.

HELLEBORUS (Christmas and I.enten Roses). See page 16.

HELONIAS (Stud Flower), moist, shaded situation, in sandy loam and peat.

144 bullatus, 1½ ft., small purplish rose in oval-shaped spikes; pretty and attractive, vi-vii. 6d.

HEMEROCALLIS (Day Lily), flowers in fine clusters; excellent for shrubberies and borders.

146 aurantlaca major, F.C.C., R.H.S., 2 ft., flower spikes bearing as many as 12 rich orange-yellow flowers, some 7 to 8 in, across. A glorious introduction. vii-ix. 9d.

149 cltrina, 3 to 4 ft., pale citron-yellow, remarkably graceful; the best of the tall growing species. 9d.

151 disticha fl. pl., 3 ft., rich bronzy-orange, semi-double shaded crimson vi-viii.

154 flava, 2 ft., perfumed flowers, clear yellow, in great abundance and lasting well, v-vii. 4d. cach. HEMEROCALLIS—continued.

156 fulva, 3 ft., large coppery-orange, vi-

viii. 4d. each; 3/- doz.

157 — fl. pl., 3 ft., a fine double form. 6d.
160 Dumortlerl, 2 ft., rich orange-yellow, shaded bronze, v-vii. 4d. each.

162 Kwanso fl. pl., 2 ft., large, bronzy-orange, irregularly flushed crimson, vi-viii. 4d. each.

164 — fol. var., 2 ft., foliage beautifully and broadly striped cream; flowers double. 6d.

167 luteola, 3 to 4 ft., beautiful golden yellow, 6 in. across, on branching stems;

free and graceful. 1/170 Middendorfiana, 3 ft., soft orange-yellow, leaves singularly graceful, vii-viii. 4d. each.

6 Hemerocaills In 6 sorts, 2/-

HEPATICA. (See page 17).

HERACLEUM (Cow Parsley).
191 glganteum (Syn. Villosum) (The Giant Cow Parsley), 12 ft., cnormous hand-some leaves, giaut branching flower spikes, carrying large umbels of small white flowers; vi-vii. 6d.

HERBS in variety. (See page 64).

HERNIARIA (Rupture-wort).

c 214 glabra, 4 in., tiny green flowers and small shining deep green leaves; useful for carpeting and edging, 2/6 doz.; 3d. each.
— aurea, 4 in., a fine golden-leaved variety, 2/6 doz.; 3d. each.

c 216-

HESPERIS (Rocket).

219 matronalls alba (White Dames Violet). Single White Rocket), 11 ft., numerous spikes of delightfully fragrant white flowers ; prized for cutting, v-vii. 3/- doz.; 4d. each.

double white Stock; very beautiful and long in flower. 221

- purpurea fl. pl., 1½ ft., fine double 224 purple. 6d.

HEUCHERA (Alum Root), long stems, carrying a loose graceful panicle of cupshaped flowers; drained soil, delightful for cutting, vi-viii.

227 alba, a great profusion of French-white

flowers. 4d.

230 brizoides, 2 ft., extraordinarily free flowering, flowers clear rose-carmine. See illustration next page. 3/- doz.; 4d. each.

233 gracillima, small rosy-crimson; very free; good for cutting. 4d.

242 hybrida, 1½ ft., coral-red flowers on graceful spikes, very free, one of the prettiest. 9d.

246 rosea hybrida, charming rose flowers, very free. 6d.

249 sangulnea, 1 ft., graceful spikes of coral-scarlet, lovely border plant, invaluable for cutting. 3/- doz.; 4d. each. 253 — splendens, 1½ ft., flowers vivid coral

red; improvement on the type. 6d. 4 distinct sorts, 1/-

HIERACIUM (Hawkweed).

264 aurantlacum, 1½ ft., rich dark orange flower heads, long slender stems;

beautiful, vi-viii. 4d.

266 calendullflorum, 6 ins., bright lemon yellow flowers, very free; a charming plant for the rockery or border, viiviii. 6d.

HEUCHERA BRIZOIDES. (See previous page) [From a photo taken in our Nursery.

HIERACIUM-continued.

269 villosum, 1 ft., a densely woolly plant with clusters of bright yellow flowers; vi-viii. 4d. each.

HIPPOCREPIS (Horse-shoe Vetch).

272 comosa, 6 in., a charming evergreen, pretty small leaflets and dainty crowns of bright yellow pea-like flowers; vi-viii, 4d.

274 mollls fol. var. (See New Plants, page 4).

HOLLYHOCKS. See page 49.

HORDEUM

280 jubatum, 2 ft., Squirrel-tail Grass, long silky awns of great beauty; sows itself anywhere; excellent with cut flowers, and when dry for Winter decoration, vi-vii. 3/- doz.; 4d. each.

HORMINUM

282 pyrenaicum, 9 in., bluish-purple Deadnettle-like flowers in whorls; vi-viii. 4d.

HUTCHINSIA

286 alpina, 2 in., pretty foliage, with compact clusters of small glistening white Candytnft-like flowers; dainty; moist soil, v-vii. 6d.

HYPERICUM, The St. John's Wort, free-flowering showy plants, salver-shaped yellow flowers, and an enormous profusion of stamens.

290 calycinum, 1 ft. (Rose of Sharon), clusters of bright yellow flowers, each 3 in. across, v-viii, 2/6 doz.; 3d. each; 15/- 100.

301 Corls, 3 in., rich yellow flowers, dwarf tufted habit, evergreen, v-ix. 6d.

291 Montanum, 1½ ft., pretty yellow, blooming throughout July. 4d.

292 Moserianum, 3 ft., gracefully drooping stems, and lovely profusion of large golden-yellow flowers with red anthers, v-ix. 4/- doz.; 6d. each.

o 294 - tricolor. See New Shrubs, page 71.

HYPERICUM—continued,

206 nepalense, 3 ft., elegant growth with deep green somewhat waxy flowers

vi-viii. 6d. 298 patulum, 1 ft., large showy drooping flower clusters, vi-viii. 6d.

200 polyphyllum, abundance of yellow flowers, June and July. 6d.

300 reptans, 3 in., charming little evergreen, with yellow starry flowers; good for rockery, vi-ix. 4d.

5 Hypericums in 5 sorts, 1/3

IBERIS, Candytuft, excellent for the rock garden, the herbaceous border, and for

edging;
2 capitata, 6 in., flattish white trusses;

very free, iv-vi. 4d.
"Climax," 6 in., flowers white. 3/-doz.; 4d. each.

6 correæfolia, 6 in., large dense white trusses, v-vi. 10/- 100; 2/- doz.; 3d. each.

11 "Perfection," I ft., very free; good for

cutting. 4d.

13 saxatilis, 3 in., dainty and spreading; flowers white; good for rockery and for a low dense edging, v-vii. 2/6 doz.; 4d, each.

15 sempervirens fl. pl., 4 in., a good double

form, iv-vii. 37- doz.; 4d. each.
17 stylosa, 6 in., a gem for the rockery, sweetly-scented lilac flowers in early Spring, 6d,

10 "Superba," 8 in., pure white, large heads; good for cutting. 3/- doz.; 4d. each.

Six Iberls in 6 fine sorts, our selection, 1 9.

INCARVILLEA, trumpet blooms over 2 in. long, among the grandest of recent introductions; succeeding in deep light well-drained soil, containing abundance of vegetable matter, in a sheltered position, with a mulch of leaves in Winter.

22 Delavayi. See New Plants, page 4.

24 Olgæ, 4 ft., finely divided foliage and large clear rose Pentstemou-like flowers with a reddish throat; superb, vii-ix. od.

- INULA (Flea Bane), very large flower heads; highly useful for cutting.
 - 27 glandulosa, 2 ft., numerous bright golden flowers, over 4 in. across, on long leafy stems, vi-viii. 3/- doz.; 4d. each.
 - 31 Helenium (Elecampane), 4 ft., very large solitary yellow flower heads, viii-ix. 4d. each; 3/- doz.
 32 Oculus Christl, 1 ft., dwarf golden-orange
 - flowers in great abundance, vii-ix. 6d.
 - 34 Royleana, 2 ft., large handsome deep vellow flowers of fine form, vi. 6d.

IRIS. See pages 49 10 51.

ISATIS (Dyers Woad).

44 glauca. See New Plants, page 5.

ISOPLEXIS.

- 48 Canariensis (Canary Island Foxglove), golden-vellow in dense raceines : pretty and interesting plant, hardy in favoured localities, vi. 9d.
- JASIONE (Sheep's Scabious), pretty rockery plants, heads of blue flowers, distinct; prefer light soil.
 - 6 perennls.1 ft., pretty little plant, blue flowers, suitable for rockery, vi-ix. 4d.

JUNCUS (Rush). See Aquatic Plants, page 8.

LAMIUM (Deadnettle).

- o 3 maculatum areum, 4 in., lovely golden foliage; one of the best for edging, vii-viii. 2/6 per doz.; 3d. each.
- LATHYRUS (Everlasting Pea), free flowering climbers, delightful for trellis, for groups on pea-pods, for tree stumps, beds of shrubs, for trailing on grass. As cut flowers they are best in large branches.
 - 6 Drummondii, 6 ft., free, and bright with a remarkable profusion of large brick crimson flowers, very beautiful, vii-ix. 6d.
 - 8 grandiflorus, 6 ft., dark rose, about 2 in, across, in 2's and 3's on long stalks in great profusion from base to top, useful for cutting, vi-viii. 6d.
 - 11 latifolius, 8 ft., flowers rose, in large clusters of 10 to 12; beautiful climber, vi-ix. 6d. each; 4/6 doz.
 - 12 -- albus, 8 ft., flowers white, excellent for cutting. 4/6 doz.; 6d. each.
 - grandiflorus albus, "White Pearl," See New Plants, page 5; also page 36.
 - 16 Maritimus, 5 ft., flowers purple, produced in fine spikes; a profuse bloom er, vi-viii. 6d.
 - tuberosus (Fyfield Pea), 3 ft., free and long flowering, small clusters of 5 to 7 rose-coloured flowers; a pretty climber, beautiful as a matted tendrif-bound heap in the open borders; excellent for draping rocks and rough walls, vii-ix, 6d.

4 Lathyrus In 4 sorts, 1/6.

i AVANDULA (1.avender).

28 spica, 11 ft., long slender spikes of fragrant flowers likes an open sunny position; in light soil, vi-viii, 3/per doz, ; td. each,

LAVANDULA—continued.

30 splca Grappenhall Variety, a variety which will supersede the old Lavender. It is more vigorous in growth, habit, and constitution, and more profuse and early blooming than the type. Flowers are beautifully fragrant, and produced on stout spikes; a distinct acquisition. Strong plants in 3 in. pots, 6d. each; 4/6 per doz. Extra strong, 5 in. pots, od. each; 6/- per doz.

LEONTOPODIUM (1.ion's-foot Cudwed).

33 alpinum (Edelweiss), 6 in., small flower heads in clusters, which are surrounded by a horizontal whorl of narrow, grey, woolly leaves; well-drained soil containing lime. 6d.

LEPTINELLA

36 scariosa, 2 in., a dense carpeting plant, with small deeply-cut leaves; vii-viii.

LIATRIS (Button Snake-Root), purplish flower heads, on slender spikes; moist soil or in peat.

40 **cyllndrica**, 11 ft., bright flower heads, attractive. 6d.

42 grandiflora, 13 ft., large bright purple, vii-ix. 4d. 49 spicata, 21 ft., flower heads violet-purple,

vii-ix. qd.

LILIUMS. See page 52.

LINARIA (Toad Flax), flowers like a spurred

Autirrhinum; well-drained soil.

o7 alpina, 4 iv., a striking rock plant,
purple and orange flowers, vi-viii. 4d.

to3 Cymbalaria (lvy-leaved Toad Flax, Ken-

ilworth Ivy), pretty trailer, rich glossy leaves and lilac flowers; useful for half shade, rockwork, wall, or hauging baskets, iv-ix. 4d, each.

alba, white flowers, a delightful

aloa, white howers, a defigition plant. 4d. each.
pallida (syn. Cymbalaria Maxima), 6 in., a creeping species for rockwork and walls, pale violet, in bloom all the Summer, v-ix. 4d.
pilosa, purplish blue, marked yellow, creeping habit, vi-ix. 6d.
purpurea, 1½ ft., long spikes, of blnish-purple, with a long arching spur; fine on old walls vi-ix. 4d.

on old walls, vi-ix. 4d.
120 vulgaris (Common Toad Flax), pale yellow flowers; very handsome; vii-viii. 4d. each.

-- peloria, 2 ft., spikes of five-spurred 122 flowers, pale citron-vellow, most re-markable sport. 6d. 4 distinct sorts, our selection, 1/-

LINDELOPHIA

126 spectabilis, 1½ ft., drooping clusters of rich purple-blue flowers, requires thorough drainage; v-viii. 6d. thorough drainage; v-viii.

LINNÆA

129 borealls, a lovely trailing evergreen, roundish opposite leaves, slender stalk, each with two small gracefully-drooping fragrant blush-white flowers; charming plant for the moist rock garden or cool open border, v-vi. 94.

LINUM (Flax), free-flowering border and rockery plants; like a sunny position,

LATHYRUS LATIFOLIUS GRANDIFLORUS ALBUS, "WHITE PEARL." A new and beautiful variety, producing an abundance of fine pure white flowers. See page 4.

LINUM,—continued.

- 133 flavum, 1 ft., golden yellow, about 1½ in. across, in dense branching clusters, light warm soil and dry situation, with a little Winter protection, v-ix. 6d. each; 4/6 doz.
- 136 monogynum, 1½ ft., large pure white flowers, vi-ix. 6d.
 138 narbonense, 2½ ft., tall, slender, and graceful, with a profusion of large light-blue flowers, veined violet, v-viii. 6d.
- 140 perenne, 1 ft., slender and elegant, with numerous flowers of pearly blue, v-ix.
- 141 album, : 1 ft., a silvery-white form. 6d,

LIRIOPE

- 144 graminifolia, 1 ft., Scilla-like, deep violet-blue, in little clusters, dark purple spike; light soil, viii-x. 4d.
- LITHOSPERMUM (Gromwell), flowers of exquisite beauty, thriving best on sunny light, well-drained soils.
 - 151 multiflorum, 1 ft., bright golden-yellow flowers in terminal heads, distinct and handsome. 1/-
 - 152 prostratum, 3 in., rich dark blue flowers in bloom the year round; beautiful for rockery, dry slope, or border. 4d, each; 3/- doz,

LITHOSPERMUM-continued.

154 purpureo cœruleum, 1 ft., flowers red, changing to purple, a pretty plant of trailing habit. vi-vii. 1/-

172 llttoralls (syn. Pratia angulata), 12 in., pretty rockery plant, creeping over the soil; numerons white flowers in Autumn followed by violet berries.

fulgens, cardinalis, &c. See page 52.

LOTUS (Bird's-foot Trefoil).

105 corniculatus, fl. pl., 6 in., pretty foliage and dainty clusters of bright yellow pea-like flowers; fine for rockery; vi-viii. 4d. each.

LUNARIA.

199 biennis (syn. Annua) (Honesty), 2 ft., violet blue flowers succeeded by large pods; when dried the stems carrying the pods are largely used for indoor decoration, v-vii. 4d.

LUPINUS (Lupin), handsome border perennials, with long snowy spikes of pea-

like flowers in wonderful profusion.

201 arboreus (Tree Lupin), 5 ft., crowded with loose handsome spikes of fragrant vellow flowers; magnificent for a sheltered border or wall; vii-ix. 6d.
203 — Snow Queen (White Tree Lupin),

4 ft., snow-white flowers in elegant racemes, forms dense bushes; the vivid green background improves the effect. 6d.

206 nootkatensis, 1½ ft., large spikes of blue and white; vi-viii. 4d.
209 polyphyllus, 4½ ft., tall spikes of blue-purple flowers; vi-viii. 4d. each.

alba, 3 ft., a fine white form. 4d. 210 -

each.
"Purple Queen," showy purple 213 and white flowers. 4d.

- Sulphur Queen, rich sulphur in 215 fine spikes. 4d.

217 Somerset. See New Plants, page 5. 4 fine sorts, our selection.

LYCHNIS (Campion), showy and of easy cultivation, succeeding best in a light rich loam.

219 alplna, 6 in., a gem for the rockery, pink flowers; likes moist sandy soil; iv-vi. 4d.

222 chalcedonica (Russian C.), 3 ft., large

heads of bright scarlet, splendid for border; likes full sun; vi-viii. 6d. - alba, 3 ft., a showy white form.

- fl. pl., 3 ft., a striking double 225

white. 9d.

227 — fl. pl., 3 ft., vermilion scarlet, double flowers. 9d.
229 dlurna fl. pl., 1 ft., freely clustered

reddish double flowers, vi-viii. 4d.

234 Flos cucull alba fl. pl., a very beautiful double white flowered form. 6d.

— — fl. pl., 1 ft., pink, a fine double-

variety, vi-viii. 6d.

238 Haageana, 1 ft., bright scarlet blooms, 2 in. across, produced throughout the summer in wonderful profusion; best in partial shade; vi-viii. 6d. each. 241 Lagascæ, 4 in., lovely Alpine; numer-

ous bright rosy carmine flowers with white centre, vi-ix. 6d,

LYCHNIS -continued.

246 vespertina fl. pl., 1 ft., clustered double white flowers, sweetly fragrant in the evening, vi-ix. 9d.

- rubra fl. pl., I ft., double rosy-red, 249 fragrant in the evening. 6d.

252 Viscaria (German Catch-fly), I ft., showy rose flowers; grand rockery plant, vi-viii. 4d.

— alba grandifiora, 1 ft., beautiful white variety. 6d.
— rubra fi. pl., 9 in., large double 253

258

reddish pink. 4d.
— splendens, 1 ft., very rich deep 260 red. 4d.

double, in dense spikes; one of the 263 best. 6d. each. Six fine Lychnis, our selection, 2/-

LYSIMACHIA (Loose-strife), exceedingly free, of easy culture; prefer slightly moist

267 clethroides, 3 ft., a great number of drooping flower spikes about 1 ft. long; flowers pure white, plant of striking beauty, vii-viii. 4d. each.

striking beauty, vii-viii. 4d. each.

270 Nummularla (*Creeping Jenny*, *Moncywort*), 4 in., a creeping plant, profusely covered with showy bright yellow flowers, delightful for the rockery, bank, basket, window box or pot, vi-viii. 2/6 doz.; 3d. each.

271 — aurea, fine yellow foliage. 4d. each.

each.

274 punctata, 2 ft., bright yellow, extremely showy, vii-ix. 4d. each.

276 thyrsiflora, 3 ft., closely-clustered spikes; very beautiful, grows best in water, viii-ix. 4d.

LYTHRUM (Purple, Loose-strife), numerous, showy spikes of rosy-purple flowers, prettily curving crinkled petals; waterside plants of easy growth, damp soil, vii-ix.

280 roseum superbum, 3 ft. flowers bright rose, 4d.

282 Sallcarla, 31 ft., pinkish-purple, hand-4d. some spikes.

284 virgatum, 2 ft., purple, in clusters of threes, 4d.

MALVA (Mallow).

4 moschata (Mush Mallow), 21 ft., satinyrose flowers, 2 in. across, in showy

clusters; vi-ix. 4d.
5—alba, 2 ft., flowers pure white. 3/- doz., 4d. each.

MATRICARIA (False Chamomile).

8 chamomilla fl. pl., 1½ ft., dense mass of feathery foliage, large double Daisylike flowers, vi-ix. 4d. each.

MECONOPSIS, Poppies of great beauty with ornamental foliage and handsome flowers.

11 cambrica (The Il'elsh Poppy), 1 ft.. golden flowers, graceful foliage; excellent on walls; vi-viii. 6d.

11A-- fl. pl., a very beautiful orangevellow double-flowered form, a handsome and rare plant, thriving best in a shady situation. 1/6 and 2/-.

14 integrifolla. (See New Plants, page 5).
13 nepalensis, 3 ft., abundant nodding pale golden-yellow flowers, 3 in. across.

Biennial, vii-viii. 9d.

MECONOPSIS continued.

16 punicea. (See New Plants, page 5).

15 Wallichii (Himalayan Poppy). 3 ft., leaves covered with long silky hairs; flowers large and exquisite pale blue in abundant clusters; of great beauty; vii-ix.

MEDICAGO (Medick, Lucerne).

18 elegans, pretty trailing yellow clover, dainty trefoil leaves; for rockery and dry banks, vi-ix. 4d. each.

MEGASEA, bold handsome foliage and dense massive flower spikes, useful for border, rockery, or pots; smoke proof and of easy growth.
22 cordifolia, 1 ft., flowers bright rose, iii-v.

.id.

20 Milesii, 1 ft., pure white, distinct,

iv-v. 4d.

31 purpuraseens, 1 ft., tall stems, rich purple flowers, iii-v. 6d. 33 Stracheyl alba, 9 in., pendant heads of lovely white, folinge shining green, iv-vi. 6d.

MELICA (Melic Grass).

37 altissima argentea, 2 ft., a lovely silvery form. 4d.

MELIANTHUS

o 47 **major**, 6 ft., handsome foliage plant, large glancous leaves, deeply-cut saw edges; requires Winter protection, 6d,

MENTHA

50 puleglum gibraltarica, 2 ins., forms a dense deep green carpet of foliage.

MENYANTHES (Buck-bean). See Aquatic Plants, page 8.

MERTENSIA (Smooth Lung-wort).

55 sibiriea, 2 ft., gracefully arching stems and drooping clusters of small flowers varying from delicate purple blue to rosy pink, vii-viii, 4d, — alba, 2 ft. fine white form. 4d.

each.

MEUM (Bawd-money).

63 athamanticum, 14 ft., aromatic foliage, divided into thread-like segments; strikingly graceful, vi-viii. 4d. each.

MIMULUS. See page 52

MITCHELLA (quaw Vine).
79 repens, 2 in., dainty trailing evergreen, shining leaves and numerous twin white fragrant flowers, succeeded by bright red berries; thrives in shade on sandy peat; v-vi. 6d.

MOLINIA

o 82 cœrulea fol. striatis, 1 ft., a slenderleaved grass, striped yellow and green; good for edging and bedding, vii-viii, 4d.

MOLOPOSPERMUM

o 84 cicutarium, 5 ft., gracefully recurving fern-like (oliage, highly ornamental vi-vii. 4d.

MONARDA (Horse-mint) fragrant leaved Summer-blooming plants flowers like a slender Salvia.

87 alba, 3 ft., pretty white flowers. 4d. each, 3/- doz.

89 didyma (Oswego Tea) 33 ft., deep crimson, vi-viii. 4d. each,

MONARDA - continued.

01 purpurea (syn. fistulosa), Bergamot, 3 ft., deep purple, vi-vii. 4d. cach.

93 rosea, 3 ft., flowers deep rose. 4d. each

MONTBRETIA. See page 52.

MORINA (Il'horl Flower).

os longlfolla, 2 ft., thistle leaves, bright green; llowers in whorls on a long showy spike, pure white before opening them along the state of the s ing, then a lovely shell-pink, and lastly deep crimson; light soil and slight shade; of singular beauty, vii-ix. 6d.

MORISIA

101 hypogæa, 3 in., pretty rosette of narrow shining dark-green leaves, with saw-like teeth, flowers about 1 in., clear bright dazzling yellow, iii-vi. 9d.

MUEHLENBECKIA

104 **complexa,** a rapid-growing evergreen trailer and climber, long black wiry entangled branches and dark-green leaves; its light artistic sprays are invaluable among cut llowers; on a rockery or over a bush it is beautiful; warm sunny open soil, 6d,

MYOSOTIS (Forget-me-not), of easy culture, usually show preference for moist gritty soil.

114 Alpestris Victoria, 1 ft., a lovely large trussed form, excellent for Spring bedding, 4d, each.

115 — alba, 1 ft., white, each 4d.
118 dissitiflora, 3 in., Spring-flowering, deep sky blue; iii-vi. 2/6 doz.; 3d. each, 15/- per 100.

122 oblongata atrocœrulea, 1 ft., of easiest culture in a cool house, trusses of magnificent sky blue flowers with golden eye from December to April. 4d. each.

124 palustris (True Forget-me-not), 1 ft., charming light blue, yellow eye; loves

moisture, v-viii. 4d.

130 **sylvatica,** 1 ft., numerous yellow-eyed flowers, pink when opening, afterwards a fine blue; handsome, v-vii, 1/6 doz., 2d. each.

131 — alba, 9 in., dainty white form.

1/6 doz., 2d. each.

MYRRHIS (Sweet Cicely or Myrrh).

138 odorata, 21 ft., aromatic feathery leaves, large umbels of creamy flowers, vvi. 4d. each.

NEPETA (Cat-mint).

7 Mussini, 6 in., numerous whorls of lavender-blue, spotted white. 4d. each.

NERTERA (Bead Plant)

c 11 depressa, 1 in., dense carpet of tiny glossy leaves, with an extraordinary profusion of bright orange-red berries the size of a small pea; best in pots or pans, vi-vii. 3/- doz.; 4d. each.

NIEREMBERGIA

316 rivularis, 4 in., a lovely creeper, covered in July with blush-white cup-shaped flowers, 1½ in. across, with lemonyellow centre; best in partial shade, vi-ix, 6d.

NUPHAR (Yellow Water Lily). - See Aquatic Plants, page 8,

NYMPHÆA (Water Lily)—See Aquatic Plants, page 8.

ŒNOTHERA (Evening Primrose), amongst the gayest of hardy plants, flowers white or yellow, produced in succession for months.

3 fruticosa major, 2 ft., deep yellow, exceedingly handsome, vi-viii, 4d.

each.

6 Glauca, 11 ft., large pale yellow flowers, glancous, slightly blue foliage. vii.-ix.

10 Lamarcklana (syn. biennis grandiflora), 4 ft., abundance of pale yellow flowers, biennial, vi-viii. 3/- doz., 4d. each.

12 macrocarpa (syn. missouriensis latifolia), 1 ft., clear yellow flowers, 5 in, across; wants a warm light soil, vi-viii. 4/6 doz., 6d. each.

14 marginata (eximia), o in., magnificent species, white flowers nearly 5 in, across vii-ix. 6d.

19 Pilgrimi, 1 ft., yellow flowers in clusters

vi-ix. 4d. each. riparla, 2-3 ft., yellow on short stems. 6d.

peclosa, 1½ft., light graceful habit, sprays of lovely sating white, changing 23 speciosa,

to rich reddish rose, vi-ix. 6d.

27 taraxifolia alba, 6 in., large white flowers changing to rich reddish fawn, vi-viii. 3/- doz., 4d. each.

31 Youngil, 2 ft., elegant reddish stemmed clusters of bright yellow in lovely profusion, vi-ix. 4d. each.
6 fine sorts, 1 9

OMPHALODES (Venus' Navel-wort).

360 Verna, 6 in., creeping, numerous Forgetme-not-like flowers of rich dazzling blue with white centre; grows well under trees if not too dense; dislikes strong sun, iii-yi. 6d,

ONONIS (Rest-harrow).

34 rotundifolla, 1½ ft., a beautiful evergreen, numerous sprays of bright Pea-like flowers each an inch long; rich well-drained soil, vi-viii. 6d. each.

ONOPORDON (Cotton Thistle).

37 Acanthium (True Scotch Thistle), large purple flower heads; a handsome biennial, bold habit, vii-viii. 6d.

ONOSMA (Alpine Comfrey), numerous (ubular sweet-scented flowers; love sunshine, deep soil, and thorough drainage; grand for rockery.

40 taurica (Golden Drop), t ft., a glorious plant, blooming from June till frost; flowers fragrant, bright yellow, closely arranged on numerous curving one-

sided brauches. 9d.

ORIGANUM (Marjoram). o 50 vulgare aureum, 6 in., golden-leaved form, lovely for massing. 4d. each.

OROBUS (syn. Lathyrus. Bitter Vetch), fine for mixed border, rock garden, &c.

53 aurantius (syn. luteus-aureus), 11 ft., deep yellow flowers, iv-vi. 4d.

50 luteus, 13 ft., long yellow spikes, iv-vi. 4d.

61 niger, 3 ft., flower clusters reddish purple, vi-vii. 4d.

63 roseus, 2 ft., clusters of large deep rose flowers, v-vi. 6d.

OROBUS—continued.

64 varius, 15 in., a very pretty species, producing salmon red and yellow flowers,

vi-viii. 9d. 65 vernus, 1 ft., flowers purple flushed green and red but gradually passing to clear purple-blue; iv-v. 4d. each.

OSTROWSKIA

68 magnifica. See New Plants, page 5.

OURISIA

71 coccinea, 4 in., spikes of bright scarlet; half shade and moisture, vi-viii. od.

OXALIS (Wood Sorrel).

75 enneaphylla, 6 in., white flowers, pale glaneous green foliage; a pretty rockery plant, vi-viii. 1/-

77 floribunda alba, 6 in., a creeping wood sorrel, with near little trefoil foliage, and a profusion of white flowers, vi-ix. 4d.

80 carnea, 6 in., flesh-coloured, with dark veins. 4d.

PAEONIES. See pages 53 to 55.

PANSIES. See page 55.

PAPAVER (Poppy), brilliant flowers of transient beauty, but very floriferons. All the following are perennials; rich welldrained soil.

17 nudlcaule (Iceland Poppy) 1 ft., rich yellow, graceful slender stems i it. high; delightful for borders, rockwork, and for cutting, v-ix. 3/- doz.; 4d. each.

- album, 1 ft., the lovely white form, 10 --

4d. each; 3/- dox.

- miniatum, 1 ft., gorgeous orangescarlet. 4d. each. 25 orientale (Oriental Poppy), 3 ft., grand

flowers, crimson-scarlet, blotched black, vi-viii. 4d.

- atrosanguinea, dark crimson tlowers

of large size, 6d.

— Brilliant, 3 ft., vivid vermilion, large black blotches, effective. 6d.

-- bracteatum, 3 ft., massive flower often o in across, bright scarlet with two green bracts at base of flower,

very attractive. 6d.

35 — ccceineum, 3 ft., deep scarlet, showy and effective. 4d.

37A — grandiflora, 3 ft., brilliant scarlet flowers, 9 in., across, medium size, black black by the started flowers. black blotches; an improvement on Royal Scarlet. 1/-

-Grossfurst, cinnamon, shaded orange, with black markings, 9d.

- Lady Roscoe. (See New Plants, 40 page 5).

Mrs. Marsh, (See New Plants. 41 page 5).

multiflorum, 3 ft., deep blood-crimson flowers, cup-shaped, early and -13 - 6d.

-- Novelty, handsome flowers of a 46 rich crimson shade. 6d.

-Princess Victoria Louise. (See New 49 Plants, page 5).

- Proserpine, deep rosy lilac, very 50 pretty. 6d.

- Royal Scarlet, 31 ft., rich glowing scarlet, unequalled for size and brilliancy. 6d. each.

--- semi-plena, 3 ft. rich crimson, semi-double. 6d.

PAPAVER—continued.
58 orientale Silver Queen, white, tinged blush, late flowering. 6d. each.

- Waterloo, rich dark crimson, shot with violet, very large, a beautiful and effective variety. 1/-

Six Fine Papavers, our selection, for 2/-; Twelve choice varieties, our selection, 4/-

PAROCHETUS (Shamrock Pea).

67 communis, dainty trailer, Shamrock foliage, numerous Pea-like flowers, lovely blue; likes warmth, vii-ix. 6d.

70 Scabiosaefolla, 2 ft., terminal heads of clear yellow flowers, toliage resembling that of "Scabious," easily cultivated and highly ornamental for the border. od.

PENTSTEMON (Beard Tongue).

78 barbatus, 2½ ft., long spikes, tubular bright red flowers for several months in succession, vii-viii. 6d. each.

82 glaber, 9 ins., showy violet or purple flowers, an excellent rock plant, vii. 6d.

83 tublflorus, 3 ft., white flowers, sometimes tinged lilac, freely produced in panicles. 1/-

For Florists' varieties, see page 55.

PETASITES

85 japonicus giganteus, from Japan, where it developes to a gigantic size, the leaves used by the natives as temporary umbrellas during rainstorms; a useful plant for a damp position where a bold effect is required. 9d.

PHALARIS (Gardener's Garter). See Aquatic Plants, page 9.

PHLOMIS (Jerusalem Sage), handsome free flowering plants of the Deadnettle

order with hoary foliage.
88 fruticosus, 3 ft., bright yellow blooms in whorls of twenty to thirty at the end of every branch; slight protection in Winter, vii-ix. 6d. 90 Russellianus (syns. viscosa, lunarifolia),

2 ft., hardier than above, and nearly as showy, vi-viii. 4d. each.

PHLOX. Dwarf Alpine Phloxes, flower in Spring and carly Summer, forming sheets of bloom; for rock-work, for rock-work, massing, and edging they are of the greatest value, prefer a sunny position.

103 amæna, 6 in., pretty rosc-pink flowers, iv-vi. 4d.

106 canadensis (syn. divaricata), 9 in., bluishlilac, iv-vi. 6d.

alba, 9 in., more vigorous, flowers pure white. 6d. decussata varieties.

See page 58. 113 ovata, 1 ft., lovely reddish-rose, v-vii. 6d.

116 procumbens, 6 in., lilac flowers, v-vi. 6d.

119 reptans (syn. verna), 4 in., a charming creeper, rosy-purple flowers produced, with the greatest freedom. 6d. 123 setacea (syn. subulala), 6 in., rock plant,

with rich pink flowers, v-viii.

- atropurpurea, 6 in., rosy-red flowers. 6d. each.

- Brightness, bright rose, scarlet

eye, free and effective. 9d.

Dalsy Hill, 6 in., a pretty variety, covering itself with flowers, invaluable for rockery. 6d.

PHLOX-continued.

130 setacea, Falry, 6 in., rosy lilac, purple cyc, beautiful variety, flowering freely in Spring and Autumn. 6d.

frondosa, 6 in., bright rose. 6d. 143

each.

"G. F. Wilson," 1 ft., mauve flowers, vigorous and floriferous. 6d. 145

-- grandiflora, 4 in., deep rose, free; 147 grand variety. 6d.
— Illacina, 6 in., lovely lifac blue,

151 dense sheets of colour. 6d.

- Nelsonl, 6 in., cushions of evergreen 155

foliage, flowers white, violet eye. 6d.

Newry Seedling, 6 in., very pretty, 150 starch-blue flowers. 6d.

163

nivalis, 6 in., snow-white. 6d.

Sprite, bright rose pink, with carmine eye, a striking and beautiful variety. 6d.

"Vivid," 6 in., most effective,

175 6 in., most effective, the brightest crimson carminc eye. 6d. suffrutlcosa varicties. See page 56.

Six Phiox in 6 fine Sorts, our selection, 2/6.

PHYGELIUS (Cape Fig-wort).

183 capensis, 2 ft., long pyramidal spikes of bright scarlet, a warm soil and a little Winter protection, vi-viii. 6d.

PHYSALIS (Winter Cherry), (Chinese Lantern), remarkable for the bladder-like orangered persistent calyces in Autumn, which may be kept for indoor decoration during the Winter.

188 Franchetti, 11 ft., robust, with inflated bright red calyx, often over 3 in. long,

vi. 4d.

PHYTEUMA (Rampion).

198 Scheuchzeri, I ft., curiously-shaped deep purple-blue flowers, forming a globular head on a slender naked stalk; free; for rockeries and borders, vi-vii. 6d.

PINKS. See page 57.

PLATYCODON (Chinese Bell-flower).

204 grandiflorum, 1½ ft., handsome blue flowers, often 3 in. across, in clusters at the end of the slender branches;

light soil, exposed position, vii-ix. 6d.

— album, 1½ ft., flowers white. 6d.

— Mariesii (pumilum), 9 in., flowers 206 -200 deep blue; beautiful for rock or border, 6d.

210 - album, 1 ft., the white form.

PLUMBAGO (Leadwort).

214 Larpentæ, 9 in., slender zig-zag scaly stems, carrying compact clusters of rich blue flowers, flushed violet; fine for rock, borders, &c., vii-ix. 6d.

PODOPHYLLUM (Duck's Foot). See Aquatic Plants, page 9.

POLEMONIUM (Jacob's Ladder), pretty fun-nel-shaped flowers in loose showy clusters.

221 confertum melitum, 9 in., pretty variety, creamy flowers. 9d.

227 reptans, 6 in., dense creeper, showy drooping clusters of slate-blue flowers;

fine for rock, iv-vi. 6d.

229 Richardsoni, 1½ ft., flowers large, showy, pale blue, v-vii. 4d. each.

230 — album, 1½ ft., white; free. 4d. free. 4d. cach.

POLYANTHUS. See page 58.

POLYGONATUM (Solomon's Seal), graceful Spring-flowering plants, gracefully arching stem, and pretty tubular flowers in 2's and 3's from the axil of every leaf; shady nooks, iv-vi.
262 japonicum, 1½ ft., white, tinged green.

4d. ca.

266 multiflorum (common Solomon's Seal.

POLYGONUM (Knot-weed), a beautiful genus, small white or reddish-pink flowers, in dense spikes or great feathery plumes; the tall forms remarkable for their beautiful leaves, and graceful develop-

275 amplexicaule, 2½ ft., bright rosy-red flowers, viii-ix.
279 Baldschuanicum. See New Plants, page

281 Brunonis (syn. affine), 8 in., great pro-fusion of dense erect rosy-red spikes; fine for masses, vii-ix. 4d. each.
283 cillnode, a rapid growing trailer or part

climber, with beautifully marked foliage; excellent for covering rock-work, viii-ix.

285 compactum, 3 ft., 'erect 'showy creamy.

white flower spikes, vii-ix. 4d. each.
289 Sieboldi (cuspidatum), 8 ft., elegant
bamboo-like stems, fine drooping plumes of creamy-white, vii-ix. per doz.; 4d. each.

o 287 Sachalinense, 8 ft., a most picturesque addition to a shrubbery, vii-ix. 4d. ea.

293 vaccinifolium, 6 in., much-branching trailer, with leaves like the Whortle-berry, bright red stems, spikes of rose flowers, vii-ix. 4d. each.
Six Polygonums in 6 varieties, our

selection, 2/-.

POTENTILLA (Cinque foil), beautiful Summer rs, thriving in a deep, exposed Excellent for rock and border.

207 ambigua, 3 in., a creeper, carrying a sheet of clear yellow flowers; superb for rock work, vii-viii. 4d.

301 Nepalensis (syn. Formosa), 11 ft., lovely cherry-coloured flowers, produced with utmost freedom, vi-ix. 4d.

303 splendens, 8 in., white flowers, vii-ix. 4d. 305 Thurberi, 1 ft., flowers dark red-brown,
July and August. 6d

307 Tonguel, 6 in., rich orange-scarlet shaded

terra-cotta, vii-ix. 6d. For Florist Varieties, see page 58.

POTERIUM (Burnet).

314 canadense, 4 ft., an elegant plant, glaucous pinnatc leaves and feathery spikes of whitish flowers, vii-ix, 4d.

PRIMULA. See pages 58 and 59.

PULMONARIA (Lung-wort), drooping clusters of bright blue flowers.

467 arvernensis, 1½ ft., large deep blue flowers, iv-vi. 4d.
475 saccharata, 1 ft., erect with pinkish flowers, v-vi. 4d. each.

PYRETHRUM (syn. Chrysanthemum); ceedingly free, of simplest requirements splendid for cutting.

PYRETHRUM—continued.
478 Parthenium "Model," 3 ft., large double
pure white flower heads, compact growth, vi-ix. 6d.

480 uliginosum (Great Ox-eye Daisy), 6 ft., a noble stately plant, very free; perhaps the finest of all flowers for Autumn cutting; viii-x. 3/- doz.; 4d. each.
482 Willemoti, 1 ft., large white flowers,

бd. vi-vii,

For Florist varieties, see page 60.

PYROLA.

485 rotundifolia, 4 in., pretty evergreen creeper, white flowers, iv-vi. 6d. each.

RAMONDIA (Rosette Mullein).

5 pyrenalca, 4 in., lovely purplish-violet flowers, orange centre, on slender stems; grows best in a nearly horizontal position in a shaded place on

the rockery, vi-viii. 9d.

— alba, closely resembling above, producing white flowers. 1/6.

RANUNCULUS (Buttercup, Crowfoot).

10 aconitifolius, 1½ ft., prettily-cut palmate leaves and numerous white flowers,

yellow centre, v-vi. 4d. each.

fl. pl. (Fair Maids of France), ft., marvellous profusion of pure white, double flowers, useful for cutting. 4d. each.

15 aeris fl. pi. (Bachelor's Button), 1½ ft., double golden-yellow flowers, vi-vii.

18 ampiexicaulis, 1 ft., greyish leaves, pure white flowers, yellow centre. A pretty Alpine, iv-v. 6d.

20 builatus fl. pl., 1 ft., large double oraugeyellow flowers, warm dry soil, vi-vii. 4d. each.

23 cortusæfolius, 3 ft., enormous buttercup flowers, about 4 in. across, v-vi. 9d.

25 glacialis, 4 in., large white flowers, open gritty soil. iii-v. od.
 27 Lingua (The Greater Spear-wort), 2½ ft.,

numerous bright yellow flowers 2 in. across, a handsome bog plant, vii-ix. 4d.

29 montanus, 6 in., abundant large yellow flowers; useful for rock-work, vi-vii.

RHAPONTICUM (syn. Centaurea).

o 38 pulchrum majus, 2½ ft., a purple Centaurea, large sea-green leaves, vi-vii. 6d.

RHEUM (Rhubarb), very imposing when in flower, handsome foliage, very effective and picturesque as water-side plants, v-vi

41 Emodi, bold handsome plant, very large leaves, gives a nice effect in an isolated

position. 6d.
o 43 officinale, 8 ft., large ornamental leaves and branching flower spikes, 6d.

o 45 palmatum, 6 ft., large graceful leaves in narrow segments. 6d.

RHODIOLA (Rose-root).

o 49 sibirica, 1 ft., clusters of showy rosy-purple flowers; lovely for rock, v-vii. 6d. each.

ROMNEYA

52 Couiterl. See New Plants, page 6.

ROSMARINUS

55 officinalis (Rosemary), 3 ft., long fragrant spikes of purple flowers; dry soil, vii-viii. 4/6 doz., 6d. each.

59 —— prostratus, dwarf crceping habit, pale blue flowers, a beautiful variety for covering the surface of a stone in the rock garden. 1/-

RUBUS

63 arcticus (The Arctic Bramble), 6 in., showy reddish-rose flowers, delicious amber fruit and red foliage in Autumn, v-vii. · 9d.

68 rosæfolius coronarius, loose clusters of large double white flowers, a lovely plant, rather tender, viii-ix. 9d.

RUDBECKIA (Cone-flower), handsome Sunflower-like plants, fine yellow flower heads, with an elevated centre, usually dark in colour; most useful for cutting.

71 californica, 3 ft., yellow, centre brown, vii-ix. 4d.

73 hirta, 2 ft., large yellow flowers, dnll

brown centre, vi-viii. 4d.

75 laciniata fl. pl. (Golden Glow), 7 ft. double flowers of exquisite finish, large as a Cactus Dahlia, bright golden colour; graceful, blooming profusely from July to September, 6d.

79 maxima, 6 ft., exceptionally large flower

heads, dark discs, vii-ix. 6d.

81 Nitida, 5 ft., pale yellow flowers, free, very fine. 4d.
83 plnnata, 3 ft., light yellow, drooping; exceedingly graceful when cut, viii-ix. 4d.

85 purpurea, 3 ft., crimson-purple with a disc of changing lines of red, chocolate and green; last a long time cut; vii-ix. 6d.

87 speciosa (Newmani), 12 ft. flower heads 4 in. across, orange-yellow, chocolatepurple centre; 'superb. vii-ix. 4d. each.

89 sub-tomentosa, 3 ft., rich yellow, maroonpurple centre, viii-ix. 4d. each.

Six varieties, our selection, 1/9.

SAGITTARIA (Arrow heads). See Aquatic Plants, page 9.

SAGINA (Pearl-wort).

3 procumbens, 1½ in., forms a smooth velvety carpet, iv-vi. 2/6 doz., 3d. each.

SALIX (Willow).

oretleulata, 6 in., a tiny trailing Willow, with prettily veined leaves, woolly beneath; grows well among stones, iii-iv. 9d

8 retusa serpyllifolla, 6 in., a dainty dense creeping Thyme-leaved Willow, iii-iv.

SALVIA (Sage), beautiful plants with long shapely flowers in whorls, usually in long spikes.

o 14 argentea, 3 ft., handsome silvery leaves veined with white, often a foot long; flowers large blush white, vi-vii. 6d.

16 hlans, 2 ft., a brilliant species, long beautiful blue flowers, vi-vii. 6d.

18 pratensls luplnoldes, 2 ft., showy purpleblue and white flowers vi-viii. 6d.

blue and white flowers, vi-viii.

20 — rosea, flowers reddish purple, ornamental. 6d.

23 Tenoril, 2⁷ft., elegant spikes of purplish-blue, vi-viii. 6d.

SANGUINARIA (Blood-root).

26 eanadensis, 6 in., free-flowering, handsome white flowers, iii-v. 6d.

SANGUISORBA

canadensis. See Poterium canadensis.

SANTOLINA (Lavender Cotton), very narrow leaves. The whole plant completely invested in a beautiful silver-grey tonientuni.

o 32 Chamæeyparlssus, 2 ft., forms a beautiful, showy silver bush, vii-viii. 4d.

each.

o 34 Incana, 9 in., a dainty silver-grey shrub, useful for groups and edgings, vii-viii. 4d. cach.

SAPONARIA (Soap-wort), flowers in early summer thriving in most soils.

37 Caucasica flore pleno, 3 ft., reddish purple, produced with the utmost profusion, vii ix. 6d.

30 ocymoides (Rock Soap-wort), 9 in., bright rose, produced with such freedom as to almost hide the foliage, useful for rockery, &c., vii-ix. 4d.

- alba, a floriferous white form, very

fine. 6d.

43 — splendldisslma, 4 in., large, rich pinkish-red flowers, highly decorative. 6d.

SAXIFRAGA (Rock-foil). The number after the name indicates the general cultural hints for each section as follows:—All marked 1, Encrusted, silvery leaves often margined white, in pretty rosettes; generally favour a calcareous soil, in sunny position, impatient of stagnant moisture, especially in winter. 2, Oppositifolia, of trailing habit, make brilliant patches in rock-garden, or on a well-drained border; prefer gritty soil or sand-stone. 3, "Mossy" evergreen leaves in rosettes, of moss-like habit, covered with white flowers in Spring and early Summer, when they have the ap-pearance of mounds of snow. Like half shade and sandy soil. 4, Umbrosa or London Pride, rosettes of deep-green leaves, delicate "airy" spikes of white or pinkish flowers, fine for border or rockery; sandy soil.

5, "Tufted," these are distinct in form and habit, and include some of the prettiest and most rare. Short pointed green, occasionally glaucous, leaves, in dense tufts and of compact tufted liabit; flowers large and freely produced; sandy soil, well-drained sunny position. 6, Megasca or cordifolia, are listed under Megasea, which see.

46 affinis (3), white flowers, v-vi. 4d.

48 aizoon (1), 1 ft., flowers white, spotted, v-vii. 4d.

mlnor (1), 6 in., flowers white, spotted; fine for edgings, rock-work, &c., v-vi. 4d.

Ambigua (4), 6 in., white flowers. 4d. Andrewsli (4), 9 in., white, conspicuous-

ly dotted red. vi-viii. 4d.

62 aretioldes (5), 1½ in., silvery cushions,
½ inch high, rich golden flowers on stems 1, in. high, delightful, iv-v. 9d.

SAXIFRAGA—continued.

65 balcana (1), flowers covered with red

spots, iv-v. 6d.
69 Boydii (5), 3 in., large primrose yellow flowers; very free. A rare gem, iii.

70 alba (5), 3 in., pure white, very handsome, iii. 9d.
76 burserlana (5), 2 in., beautiful, free

- flowering; pure white on scarlet stems; the earliest and one of the best, ii-iii. 9d.
- major (5), 3 in., exquisite, covered with lovely pure white flowers, ii-iii.
- 83 cæsla major (1), 3 in., minute silvery tufts, white flowers; slow growing v-vii, 9d.
- 89 carniolica (1), 6 in., large rosettes, white flowers, vi-vii. 4d.
- 90 catalaunica, highly decorative species.

6d.

- 92 ceratophylla (syn. trifurcata) (3), 6 in., very showy, dark green leaves, divided somewhat like the antlers of a Reindeer; flowers pure white; free, v-vi.
- 95 cochlearls (1), 1 ft., panicles of white flowers, branches purplish-brown one of the best, vi-vii. 6d.
- 96 mlnor (1), 6 in., pretty form of preceding, vi-vii. 6d.
- 240 Camposli (Wallacei) (3), 6 in., beautiful panicles of pure white, useful for cutting, iv-vi. 6d.
- o8 Cotyledon pyramldalls (1), 2 ft., similar to above, but larger; flowers purplish centre, splendid for pots, vi-vii. 6d.
- 101 cristata (1), 3 in., with pure white flowers, v-vi. 9d.
- 104 Cunelfolia (5), 4 in., white flower, spotted yellow at the base of cach petal, roundish leaves, deep green above,
- pale and reddish beneath, v-vii. 4d. **Cymbalaria** (syn. Sibthorpii), 3 in., annual species, glossy-green leaves, bright yellow flowers. Fine for crevices in rock-work. Sows itself, v-viii. 4d.
- 110 Fortunell (4), 12 in., snow white blossoms, a fine species, vi-viii. 6d.
- 113 Fredericka Augusta (syn. luteo-purpurea) (5), 4 in., cushions of dcep green, numerous heads of primrosc-yellow, ii-iv.
- 118 Geum Minor (5), 6 ins., pinkish white slender stems, v-vii. 4d.
- 123 granulata fl. pl., 9 in. grows best in moist loamy soil, good for cutting, iv-v. 4d.
- 127 Grlesbachll. See New Plants, page 6.
- 130 Guildford seedling. See New Plants, page 6.
- 133 hibernica (3), 6 in., cushions of foliage, white flowers, v-vi. 4d.
- 136 hlreulus, 4 in., pretty yellow flowers, moist position, vi-viii. 6d
- 1.40 Hostil (1), 6 in., silvery tufts of foliage, tall panicles, white flowers, v-vi. 6d.
- -— Altisslma (1), 9 in., a fine form of the preceding. 6d. 141
- 144 hypnoldes Kingli (3), 3 ins., mossy tufts of green, flowers white, one of the prettiest of the mossy section, v-vi. 4d.

- SAXIFRAGA—continued.
 - 146 Incurvisolia (1). 3 in., flowers white. 6d.
 - 148 Intacta (1). 11 ft., rosettes of silvery leaves, flowers white, v-vi. 4d.
 - 151 Intermedla (5), 1½ ft., pretty, foliage edged white, flowers white, v-vi. 4d.
 - 153 juniperina (5), 3 in., bright yellow. A gem for the rock garden, vii-viii. 6d.
 - 154 Kingli (3), I ft., white flowers, dense cushions of foliage, vii-viii. 6d.
 - 157 lantoscana (1), 9 in., fine large white flowers in arching panicles, v-vi. 6d.
 - 158 lantoscana superba (1), 9 in., silvery tufts; snow-white panicles of large flowers, v-vi. 6d.
 - 161 longifolia (True. The Queen of Saxi-fragus) (1), 1½ ft., rosettes of silvery foliage, white in a pyramidal panicle, vii-viii. od.
 - 166 McNablana (1) 1 ft., very pretty, white with carmine spots, v-vii. 4d.
 - 170 muscoldes rubra (3) 6 in., deep red flowers, mossy habit, vii-viii. 3/doz., 4d. each.
 - 173 nepalensis (1), 1½ ft., broad rosettes, branching panicles of white flowers; very fine, v-vi. 6d.
 - 174 nivalis (4), 4 in., white, foliage somewhat broad and toothed, vii-viii. 6d.
 - 175 Olivlana (4), 1 ft., pink and white flowers, produced in fine panicles, vi-vii. 4d.
 - 176 oppositifolia (2), 2 in., cushions of green foliage, bright rose flowers; beautiful, grand for ledges and slopes of rock, 4d.
 - alba, (2), 2 in., pure white variety
 - of above, iii iv. 6d.
 major (2), 2 in., flowers red, larger than the type, showy, iii-iv. 6d.
 - pyrenalca superba (2), flowers large rosy-lilac. 6d.
 - 191 palmata (3), 3 in., large pure white flowers, v-vi. 4d.
 - 193 pectlnata (1), 6 in., silvery edged foliage in rosettes, white flowers, v-vi. 4d.
 - 203 peltata (Umbrella Plant), rosy flowers on stems 2 ft. high, produced before the leaves, fine for water-side, iv-v. 6d.
 - 205 psuedo-sancta (1), 3 in., pretty yellow flowers. 4d.
 - 206 pulchella (3), 6 in., prostrate stems, white flowers, v-vi. 4d.
 - 200 Rhæl (3), 3 in., a mossy hillock of foliage, covered in Spring with lovely pink. v-vi. 4d.
 - 211 rotundifolia elegans, 1 ft., spikes of pink and white flowers. 4d.
- 212 graellis (4), 1 ft., blush-white, very pretty, v-vi. 4d.
- 215 sancta (5), 3 in., yellow, handsome, iv-v. 4d.
- 217 Serrata elegans (4), light rose flowers, good grower, v. 4d. — minor (4), 3 in., light rose, v.
- 218 4d.
- 221 spathulata (3), 1 ft., pretty white, on crect slender stems, v-vi. 4d.
- 224 taygetea (4), 6 in., neat species, white flowers, v vi. 4d.

SAXIFRAGA -continued.

229 umbrosa (London Pride), (4), 1 ft., white, sometimes speckled red, vi-vii largely used, and a great favourite for edgings. 4d. each, 2/6 doz., 12/ per 100.

varlegata (4), 1 ft., resembling the preceding, but with white variegated

leaves, v-vi. 6d.

237 valdensis (1), 3 in., snow-white, fine for rock, vi-vii. od.

Twelve Saxlfragas In 12 fine varletles, our selection for 2/6.

25 Saxlfragas in 25 fine varieties, our selection, for 5/-

100 Saxifragas in a good selection of varieties, 15/-

OSA (Pincushion Flower), handsome, free flowering border plants, with large SCABIOSA elegant heads of flowers on long stems. Each inflorescence has the appearance of a dainty pincushion.

241 alplna coerulea, 6 in., a very pretty miniature form of dwarf habit, producing lovely blue flowers,

1/beautiful.

rosea, 6 in., similar to above in habit. &c., but producing rose flowers. Both these varieties are very beautiful

on rockery. 9d.

243 caucasica, 3 ft., densely tufted species of singular beauty, with abundance of long-stalked soft lilac-blue flowers, often 4in. across. vi-viii. 6d.

- alba, a beautiful pure white form. 9d.

247 Columbarla, 6 in., dwarf and tufted, with dainty rosy-lilae flowers, vi-vii. 6d.

(syn. Cephalaria gigantea) Roundheads), 8 ft., pale yellow on long stalks; grand for back of a border,

mlnor, 3 ft., soft sulphur-yellow,

in extraordinary profusion. 4d. — tartarlea, 5 ft., showy pale yellow, 6d. each. free.

259 gramlnifolla, 1½ ft., exceedingly graceful, pale lilac-blue flowers, silver leaves; good for rock-work, vi-viii. 6d.

263 Parnassl, 4 in., densely tufted; pale purple-mauve, vi-viii. 6d. SCHIZOSTYLIS (Kaffir Lily).
270 cocclnea, 2½ ft., Gladiolus-like habit,

spikes of rich crimson in late Autumn requires protection; splendid for cutting, ix-x. 3/- doz.; 4d. each.

SEDUMS. See pages 60 & 61.

SEMPERVIVUMS. See page 61.

SENECIO (Groundsel or Ragwort). The following are of remarkable beauty, and ought to be represented in every garden. 332 ellvorum. See New Plants, page 6.

332 citorum. See New Frams, page o.
335 Doronleum, 1 ft., bright yellow flowers 2 in. across, vi-viii. 4d.
340 pulcher, 2½ ft., rosy purple flowers of great beauty, 3 in. across; one of the best border plants; vii-ix. 6d.
343 sagittæfollus, 6 ft., splendid creamywhite flowers with a yellow disc; most

white flowers, with a yellow disc; most striking, vii-viii. 6d.

SERRATULA (Saw-wort).

327 cyneroldes, 2 ft., purple flowers; free and vigorous, vii. 6d.
SHASTA DAISIES. See page 61.

SHORTIA

348 galacifolia, 6 in., a creeper of exquisite beauty, leaves deep green, changing to a rich bronzy-crimson in Winter; flowers pearly-white passing to rose, bell-shaped, iv-vi. 1/-

SIBTHORPIA

352 europæa (Cornish Money-wort), ½ in., creeper with tiny flat leaves forming a dense carpet; moist soil, vii-viii.

4d. each.

varlegata, leaves broadly margined

cream, a gem. 6d.

SIDALCEA, beautiful Mallows, covering themselves with lovely satiny flowers, vi-viii.

357 candlda, 21 ft., pure white. 4d.
359 Listerl, 3 ft., lovely satin pink and white, beautifully fringed. 6d.

SILENE (Catch-fly), very floriferous and ornamental following are especially suited for rock garden and borders.

371 acaulls, 11 in., "a dense firm carpet of light green leaves, hidden in Summer with rosy-pink flowers, v-vii. 6d.

- alba, 1½ in., a fine white form. 6d. - exscapa, 1 in., dwarfer and more

dense than the type. 6d. 378 alpestris (syn. rupestris), 4 in., clusters of shining pure white flowers, v-vii. 6d,

383 maritima fi. pl., 3 in., a sea-green carpet of glaucous leaves, with double white flowers as large as the old Pink, vi-ix.

386 -- rosea, 3 in., large soft rose flowers.

388 pendula compacta, 6 in., bright rose, produced in Spring in the greatest profusion. 1/- doz.; 6/- per 100.
389 Schafta, 6 in., profusely covered with large deep rose flowers; delightful for edging, vi-ix. 4d.

SILPHIUM (Rosin Plant), effective water-side plants; they have a stately appearance in a border.

394 laciniatum (Compass Plant), 9 ft., large yellow flowers and handsome leaves, which are said to present their faces uniformly north and south, vii-ix. 6d.

SISYRINCHIUM (Rush Lily, Satin Flower) charming plants of the Iris order, with simple saucer or bell-shaped flowers; prefer peaty soil.

399 anceps, i ft., pale blue, a beautiful species of great decorative value, vi. 6d.

401 bermudlanum, 1½ ft., light blue enp-shaped flowers, vi-vii. 6d.

404 glganteum, 2 ft., handsome spikes, creaniy-sulphur flowers, vi-viii. 6d.

406 grandlflorum, 1 ft., rich purple bellshaped flowers, on elegant stems; useful for cutting, vi-vii. 6d.

— album, 1 ft., flowers transparent

white. 6d.

SMILACINA, dainty plants with rich green Lily-of-the-Valley-like foliage and grace-

ful white feathery flower spikes.
411 blfolla, 6 in., stem carries but two leaves, and terminates in flowers, iv-v.

413 stellata, 15 in., numerous narrow leaves, and dense little flower spikes, v-vi.

A NEW HYBRID FLOWER, "SHASTA" DAISIES," ONE OF ITS PARENTS ON THE LEFT. See page 61.

SOLDANELLA

- 416 alplna (Blue Moon-wort), 4 in., a charming Spring-flowering Alpine, upright slender stems, ending in a small grace ful spray of violet bell-shaped flowers, with a deeply-fringed margin; moist, gritty, peaty soil, iv-v.
- **SOLIDAGO** (Golden Rod), each slender branch ends in a giant branching plume of small yellow flower heads, giving a good-sized clump a most imposing appearance in Autumn; look grand contrasted with Michælmas Daisies.
- 422 altissima (syn. rugosa), 5 ft., grand plumes; viii-x. 4d.
- 426 canadensis, 4 ft., ray florets, short, viiiix. 4d. each.
- 428 glgantea, 5 ft., sulphur-yellow plumes, viii-ix. 4d.
- 431 multi-radiata, 12 ft., flower heads in a
- great cluster, viii-ix. 4d.
 436 Virgaurea nana (syn. V. cambrica), 1½ in., a showy miniature Golden Rod. 4d.

SPERGULA (syn. Sagina).

- co 445 plllfera aurea, 2 in., a tiny creeping Pearlwort, plant yellow, with small white flowers; valuable for carpeting and edging, v-vi. 2/6 doz.; 3d. each.
- . SPIRÆA (Meadow-sweet), a handsome Summer-flowering group of easy culture.
 - 448 Aruneus (Goat's-beard), 4 ft., large white plumes, beautiful for cutting, vi-vii, 6d. each.
 - 450 --- plumosus, 2 ft., dwarfer in habit and finer. 6d.
 - 457 erlsplfolia (syn. bullata), 1 ft., beautiful dwarf Japanese shrub, for borders or rockery; crimson, vi-viii. 6d.
 - fl. pl., a fine double form for cut-460 ting. 4d.
 - 463 gigantea (syn. kamtschatica), 7 ft., large clusters of feathery white flowers;
 - handsome plant as an isolated specimen, vi-viii. 4d.

 472 lobata, (Queen of the Prairies), 3½ ft., similar to S. venusta, free; rosy-crimson, vi-viii. 6d.

SPIRÆA—continued.

475 palmata, 2 ft., bright rose, effective; useful for cutting, vi-viii. 4d. each.
476 — alba, 2 ft., lovely white form of the above; a gem for herbaceous borders and a good forcing plant. 6d. each.

4d. each.

489 -fol. var., 2 ft., golden variegated foliage, creamy-white flowers, fine for cutting, vi-viii. 1/-6 Spiræas, our selection, for 1/9

STACHYS (Hedge-nettle), flowers in whorls in a long, narrow erect spike.

495 cocclnea, 1½ ft., deep red flowers; very free, vii-viii. 6d.

o 497 lanata, 1½ ft., large, densely woolly leaves, flowers reddish purple, useful for edging, vi-vii. 3/- doz.; 4d. each.

STATICE (Sea Lavender), numerous branching flower stems, the flowers retain their colour and form for months; excellent for cutting.

500 caspica, 1½ ft., a free-flowering species, useful and attractive. 6d.

502 elata, 2 ft., blue flowers margined white,

vii-ix. 6d.
504 exlmia, r ft., lilac-rose, dense spikes, vi-viii. 1/-

509 Gmelini, 1 ft., robust, flowers blue, vi-viii.

511 latifolla, 3 ft., large handsome spreading branches crowded with small purplish-blue flowers; best for cutting and drying for vases in winter, vii-x.

each; per doz., 4/6; per 100, 30/–
514 Limonlum, 1½ ft., grandly branching
blue flower spikes, viii-x. 6d.
516 scoparia, 1 ft., a dainty blue-flowered
form, vi-viii. 6d.

STIPA

530 pennata (Feather Grass), 2 ft., a beautiful hardy Grass, graceful arching stems carrying in Summer lovely feathery plumes of silky hair-covered awns; prefers deep sand. 4d.

STOBÆ (syn. Berkheya).

533 purpurea, 2 ft., a handsome South African Thistle, numerous bluish-purple flower heads, 3 in. across in great loose masses, leaves more than 1 ft. fong, rich green ' above, cottony below, viii-ix. 6d.

c 44 montanus albus, white, fine for carpet bedding, vi-vii. 2/6 doz., 3d. cach.
o 46 officinalis variegatus, foliage in dense sheets; lilac flowers, vii-viii. 4d.

51 serpyllum carnosum, rosy flowers, in great profusion, v-vii. 4d.

49 — coccineum, sheet of brilliant crimson flowers vi-vii. 2/6 doz., 3d. each.

o 54 thuriferous (lanuginosa), large cushions, woolly foliage; lilae, vi-vii. 2/6 doz., 3d. each.

5 distinct varieties of Thymus for 1/-

TIARELLA (Foam-flower), beautiful border and rock plants, leaves bronze with age; graceful upright spikes of small flowers in early summer, clustered in delicious profusion; moisture and partial shade.

TIARELLA-continued.

57 cordifolia (False Mitre-wort) (1 ft.), white, in foam-like masses. v.vi. 4d. each.

TRADESCANTIA (Spider-wort).

64 virginica (Flower-of-a-day), 11/2 ft., grasslike foliage, spikes ending in a cluster of flower buds opening in succession; flowers peculiarly bright purple, lovely; vii-viii. 3/- doz., 4d. each.

— alba major (1½ ft.), finest pure white form. 4d. each.

cerulea (1½ ft.), flowers very striking blne. 4d. each.

rubra (1½ ft.), bright ruby-red. 68 -

4d. each.

violacea (1½ ft.), violet purple, produced freely, vi-ix. 4d.

TRIFOLIUM (Clover).

79 repens nigrescens (Calvary Clover), purple-centred leaves. vi-viii. 4d.

TRILLIUM (Wood Lily).

81 grandiflorum (Wake-Robin) 1 ft., snowywhite 3-petalled flower of great beauty, over 3 in. across; loves a shady nook and a peaty soil. iv-vi. 4d.

TRITOMA (syn. Kniphofia). Sec page 62.

TROLLIUS (Globe Flower), large globular usually yellow flowers. Prefers moist soil; showy in beds and borders, and charming when naturalised in wet ground. v-vii.

154 aconitifolius (1½ ft)., luxuriant foliage; yellow flowers. 6d. each.

156 altaicus, a fine species with richlycoloured flowers; 6d. each.

158 asiaticus (2 ft.), flowers rich golden.

161 caucasicus (Orange Globe), 2½ ft., immense flowers of bright gold, stamens rich deep orange, lovely form. 9d.

164 europæus (11 ft), clear pale yellow.

165 --- albus (1 ft.) flowers creamy-white.

168 Fortunei fl. pl. (1 ft.), a rich golden semi-double; lovely, delightful for cutting. I/-

173 giganteus (21 ft.), large form of europæus, clear bright yellow. 6d.

176 Ledebouril (1 ft.), fine foliage, clear soft yellow; very free. 6d.

178 napellifolius (2 ft.), flowers showy yellow. 6d.

Six fine Trollius, in 6 varieties, for 2/6.

TROPÆOLUM (Nasturtium Indian Cress).

186 speciosum (Flame flower), one of the loveliest climbers, sending up shoots 5 ft. to 10 ft. annually, which are smothered with brilliant vermilion flowers and pretty round leaves, from June to August, succeeded then by brightly-coloured berries. Cool, moist soil, not exposed to full sun. The difficulty found in establishing this superb rambler is considerably lessened if planted out of pots when starting into growth, 6d. each, 5/doz., 30/- 100.

89 tuberosum, flowers orange-scarlet; grand

free-flowering climber. 6d.

TUNICA

193 saxifraga, a sweet little pink, bearing dainty pale rose-coloured flowers in lovely profusion, delightful for rock garden, old walls, and dry borders. vi-ix. 6d. each.

TUSSILAGO (Coltsfoot), compact clusters of small flower heads in Mid-winter or early spring, followed by usually large rhubarb-like foliage.

o 201 farfara fol. var. (6 in.), leaves richly variegated creamy white. ii-iii. 6d.

TYPHA (Reed Mace or Bullrush). See Aquatic Plants, page 9.

UMBILICUS (syn. Cotyledon), Navel-wort.

3 chrysanthus, 8 ins., a dainty, soft, greyish green houseleek, with clustered creamy yellow flowers, likes peat and grit on wall, or dry sunny rockery. v-vi. 9d.

UVULARIA (Bell-wort).

8 grandiflora (1½ ft.), long pale yellow pendulous flowers, on slender stems; moist soil. iv-vi. 9d.

VALERIANA (Valerian) .

3 dioica (Marsh Valerian) (6 to 8 in.), pale rose-colour in terminal corymbs; pretty. 4d.

5 montana (9 in.), pretty clusters of pink

vi-vii. 4d.

8 Phu-aurea (2 ft.), yellow foliage, especially when young, white sweet-scented flowers; effective in groups, and much admired for Spring bedding, vii-viii, 3d. each, 2/6 doz., 15/- per 100. 11 vulgaris, a free-growing species, ex-

cellent plant for border. 4d.

VANCOUVERIA

14 hexandra (1 ft.), graceful and dainty, with elegant maidenhair-like leaves and slender spikes of translucent white flowers, peat; distinct from every other herbaceous plant in cultivation. vi-vii. 6d.

VERATRUM (False Hellebore), flowers in flense terminal branching spikes, make fine specimens and look well in groups.

17 album (Langwort), (3½ ft.), dense spikes of yellowish white, vi-viii. 9d.

20 viride (3½ ft.), a green flowered form of above, vi-viii. 9d.

23 nlgrum (3½ ft.), a slender form, flowers blackish-purple. vi-viii. 9d.

VERBASCUM (Mullein), showy border plants. flowers with beautiful hairy often richly coloured stamens.

20 Chaixii (Nettle-leaved M.), bold, pretty yellow flowers, purple stamens, vii-viii. 4d.

50 Cupreum, flowers orange yellow, shaded with terra-cotta, distinct and attractive. 6d.

38 **nigrum** (3 ft.), spikes of numerous yellow flowers, excellent for groups. vi-viii. 4d.

40 niveum, pretty cream-coloured flowers vii-viii. 4d.

42 **olympicum** (6 ft.), foliage sifvery-white, surmounted by pyramids of golden yellow flowers, vii-viii. 4d.

VERBASCUM—continued.

48 phœnlceum album (2 ft.), white, in elegant spikes; all the varieties of phœniceum are useful decorative plants for the border. 4d.

purpureum (2 ft.), rich purple

flowers. 4d.

- roseum, 2 ft., pretty rose coloured flowers. 4d.

57 Thapsus (Blanket Leaf), (4 ft.), flowers yellow; large woolly leaves, vi-viii. 4d. 4 Verbascums In 4 sorts, 1/-

VERBENA (Vervain)

61 venosa (15 in.), clusters of bright vinous purple flowers. vi-ix. 4d.

VERONICA (Speedwell), charming plants; flowers usually bright blue, produced as a rule in wonderful abundance.

65 amethystlna (1½ ft.), pretty, pyramidal spikes of amethyst-blue flowers,

vi-viii. 4d. each.

c 68 Balfourniana (3 in.), bright blue; fine for bedding, v-vii. 4d. each.
69 elegans (2 ft.), rose-coloured flowers, in

spikes; free and pretty, vii-viii. 6d.

70 gentlanoldes (1½ ft.), palc blue with darker blue streaks. v-vi. 4d. each.

— fol. var. (1½ ft.), foliage variegated cream. 6d. each. 75 Hendersonli alba (1 ft.), pure white

flowers, much larger than any other white. vi-viii. 4d.

78 incana (9 in.), greyish foliage; pretty blue flowers; effective in bedding designs, vi-viii. 4d. each.

80 longlfolia subessilis (syn. Hendersonii) (2 ft.), long spikes deep violet-blue, free, one of the finest. vii-viii. 4d.

83 maritima (syn. longifolia) (2 ft.), lovely blue, grand for borders, vii-viii. 4d.

-alba (2 ft.), a dwarf variety, white flowers; showy, 4d.

87 Michauxll (4 ft.), light blue flowers; fine for cutting, vii-ix. 4d.

90 Nummularla (3 in.), Alpinc species, both

leaves and flowers charming. vi-vii. 4d. 93 pectinata rosea, 2 in., a pretty trailing

species, with rose-coloured flowers. 6d. 94 prostrata (1½ ft.), dense tufts; clear bright blue. vi-vii. 4d.

(3 in.), dense cushions covered with white flowers, shaded lilac; excellent for bedding and rockwork, vi-vii. 2/6

doz., 3d. each.
98 rupestris (syn. Teucrium dubia) (9 in.),
beautiful rock plant; sheets of dark green, smothered with bright blue

flowers. v-ix. 2/6 doz., 3d. each.
— alba (9 in.), beautiful white form

of preceding, producing a multitude of flowers. 4d.

pallida (6 in.), a faintly coloured form of "rupestris," free, good habit. 4d.

c105 saxatilis (3 in.), brilliant blue flowers;

invaluable for rock work, v-vii. 4d.

108 scabluscula (3 ft.), spikes of pale blue, fine border plant, vi-viii. 4d.

110 spleata (1½ ft.), branching spikes of blue flowers; good rock or border plant, vii-viii. 4d.

111 — alba (1 ft.), long spikes of snowy white, beautiful. 4d.

fol. var., charming blue, foliage ornamental. 4d. 114 -

VERONICA—continued.

2 aloifolia, small plants. 4d.; larger, 6d.

to 1/6.

3 — fol. var., 2/6, 3/6 and 5/-6 angustifolia, small plants. 6d.

8 filamentosa, small plants. 4d., larger 6d. to 1/6.

— fol. var., 2/6, 3/6 to 7/6.

14 gloriosa, 3/6 to 5/-

16 recurva, small. 6d.

—— larger. 2/6, 3/6 to 10/6. Whipplel, small. 1/-

ZAUSCHNERIA (Californian Fuchsia)

3 californica (1½ft.), spikes of graceful vermilion-coloured flowers; likes dry loam or an old wall, vii-ix. od.

-- splendens, (11ft.,) a fine brightlycoloured variety, attractive. 6d.

Hollyhocks (Althea rosea var).

The Hollyhock is one of the grandest flowers for the embellishment of shrubberies, the back of herbaceous and other borders, centres of beds, &c. Its stately appearance, fine massive form of individual flowers, and rich diversity of colour all give it a striking individuality. After flowering the stems should be cut down a foot from the ground, to throw all the energy of the plant into the development of new shoots.

Double-flowered Scedlings of a beautiful strain, 4/- per doz.; 25 for 7/-; 100 for 25/-Double flowered seedlings to colour—white, yellow, cream, crimson or rose, 6/- doz. ,, ,, 4/-

This strain is one of the finest, seed being saved only from tlowers of good form and varied colours. SEED, 1/- and 2/6 per packet.

New Fringed Hollyhock "Allegheny."

A beautiful race producing large, fringed flowers of a delicate satin-like texture in a wide range of colour. Unlike the old type this race produces two to four buds in the axil of each leaf. These open in succession, and extend the blooming over a long season.

In vigour and constitution this race equals the old form, and is superior in freedom of flowering and decorative appearance.

> Strong transplanted plants, mixed colours, 6/- per doz. SEED, mixed, per packet, 1/- and 2/6.

Iris Germanica (German Iris).

In these charming plants we have beautiful combinations of colour. They have been aptly styled "The Poor Man's Orchids;" flowers are produced in profusion, of large size and beautiful form. The Plants grow freely in damp places, herbaceous borders, town gardens, &c. (s) signifies STANDARDS, or the upright petals; (f) the FALLS, or drooping petals.

Purchasers' selection, 4d. each, 3/- per doz.; excepting those priced. Our selection, of 12 fine varietics, 2/6. Beautiful mixed varieties, very fine, 1/6 per doz.

For English and Spanish Iris, see Bulb Catalogue. Post free on application.

Liliums.

Many species and varieties of Liliums make excellent border plants, and when planted among shrubs such as Azaleas, Rhododendrons, &c., their stately habit and beautiful varied coloured fragrant flowers produce a grand effect. They do not like being disturbed, and should be planted where they can remain for several years. A full list of Hardy and other varieties of Liliums will be found in our Bulb Catalogue, post free on application.

Lobelia-Herbaceous Varieties.

A highly-ornamental class of perennials requiring little attention when once planted in a moist situation. The flowers are borne on spikes 12in. to 18in. long, and vary in colour from white, purple to scarlet-crimson. Blooming late in the season they make a fine display when other flowers are scarce.

- 158 Andrew Barlow, A.M., R.H.S., vivid magenta on bold spikes; rich, bronzecoloured foliage; highly ornamental.
- 160 **Ariadne,** bright cerise rosc flowers, nearly 2 in, across, thickly set on large stont spikes, od.
- 161 cardinalis, deep red flowers. 4d. each; 3/6 per doz.

No.

- 163 Crimson Veivet (New), rich deep crimson; bold and striking; extra fine. 1/-
- 166 Firefly, intense red, superior to Cardinalis. 6d. each; 5/- doz.
 179 Multiflora, bright ruby, pretty and
- effective. 1/
- 182 Purple King, A.M., R.H.S., rich brilliant purple, large and distinct. 1/--
- 184 Queen Victoria, blood-red foliage and velvet-crimson flowers. 4d. each; 3/6 doz.

centre, fragrant. 1/276 White Queen, white, centre cream, changing to pure white, floriferous; scented. 1/6.

Single Herbaceous Pæonies.

JAPANESE VARIETIES.—These are exceedingly pretty for cutting or garden decoration, the flowers being most attractive, and ranging in colour from the purest white to rich dark crimson. All are free flowering, and several sweetly scented. Colour will be sent with each plant. 1/- each, 10/6 per dozen.

Pæony Arborea (Tree Pæonies).

These are distinct from the Herbaceous Paonies, having a different habit of growth, and producing flowers of immense size in many lovely shades of colour not found in the last-named section, They may be grown in pots for Greenhouse or Conservatory decoration, or outside in warm, sheltered positions. The plants are quite hardy, but the delicate blooms, which are produced in May, require protection from strong winds and late frosts.

Six lovely varieties, selected from Japanese coloured drawings, with colours attached, for 15/and 21/-; 2/6 and 3/6 each.

Probably the most important point, in the culture of all the plants in this list, is deep vation. The site for a herbaceous border should be trenched, but the bottom spit should cultivation. not be brought to the surface; it should be turned over and left quite rough and loose in the bottom. Manure should always be mixed with the top spit of earth, as the work is done. It is useless to expect fine heads of flowers, without manure. Additions to existing borders should be prepared similarly, that is with deep stirring and manuring of the soil. If the border has too much weed on, to be dealt with by hoeing, turning the surface over with the spade is an unavoidable evil, great care should be taken to dig as shallow as possible, or many surface roots will be cut off and the growth and bloom in the following year injured. The hoe is the tool for the herbaceous border and it should be used weekly for a time in Spring.

European Species and Varieties of Pæonies.

These beautiful and interesting old-fashioned garden flowers bloom in May and June, and produce an abundance of brilliant flowers. They are exceedingly effective, and thrive in almost any position.

289 Boule de Nelge, flesh, changing to white;

yellow stamens. 1/299 **Duke of York**, bright carmine rose, centre crimson, gold stamens; large.

free, a grand acquisition. 2/303 Jeanne d'Arc, flesh, changing to white.

violet, yellow stamens, dwarf.

yumila, bright crimson, very dwarf.

Tenuifolia fl. pl., large, rich double crimson flowers; foliage divided into narrow segments, undoubtedly one of the most beautiful and effective of all Pæonies, 1/6,

Pansies.

March and April are the best months for planting out Pansies. The ground should have been well manured the previous year, and ridged in the beginning of the Winter, so as to get into a rich but sweet and well-aired condition. On carelessly or hastily-prepared ground, Pansies are often disappointing. As soon as they have become established in their Summer quarters, a dressing of equal parts of soot and salt will be found of considerable service.

Bedding Pansies.

Our selection, 12 for 2/-; 25 for 3/6; 100 for 12/-

Show Pansies.

Selfs, yellow grounds, and white grounds, our selection, 2/6 per doz.

Fancy Pansies.

Our selection, 2/6 or 3/- per doz.

For descriptive List of all the above, see our Carnation and Pansy Catalogue, post free on application.

"Can be kept in the pocket and studied in spare moments. The division of the Violas into separate groups is a special feature of a very comprehensive list."—Vide Land and Water.

Pentstemons.

Few plants for freedom of bloom equal these, flowering freely from June to October, and possessing the richest and most delicate hues. The effect of the beautiful slender spikes amongst low-growing shrubs is very good, and if a number of varieties contrasting well in colour are grown in a mass, they are equal to any bedding display in beauty and interest. Our collection has been carefully selected from all the first-class varieties.

4d. each; 3/- doz.; excepting where priced, our selection, 2/6 doz.

No.

General Nansouty, deep purplish-crimson, shaded maroon, throat white, pencilled

10 George Bizet, purple, white throat, purple margin; extra.

12 George Home, bright scarlet, white throat ; large fine spikes.

No.

37 Shakespeare, bright pink.

36 **Spitzberg**, pure white; very large, well-opened flowers.

38 Talma, light rose, edged dark rose; large and effective.

39 W. E. Gladstone, crimson, blotched chocolate; grand spike.

40 Wm. Bane, rosy scarlet, white throat margined crimson.

Seedlings (in Pots), from Seed saved from the choicest-named sorts, and bearing a profusion of large flowers of all shades and markings—white, purple, pink, scarlet, &c. 2/- per doz.; 25 for 4/ : 100 for 12/-

Phloxes.

There is no genus of Herbaceous Plants possessing so much beauty, variety of colour, and freedom of bloom as the Phlox, and none more worthy of a prominent position in the garden. An open situation, shaded from strong winds, is the best; the soil ought to be deeply trenched and enriched with well-rotted manure; a mulching and liberal application of liquid manure are beneficial as the plants gain strength. Each plant should have a stake, and the shoots ought to be tied as growth progresses. Five or six shoots are as many as should be allowed for flowering.

Purchasers' selection, 4d. each; 3/6 doz.; 25 for 6/6; 100 for 25/- 1 year old, except those priced. Our selection, 3/- per doz., 1 year old; 25 for 6/-; 50, in 50 varieties, for 12/-, all fine named sorts. Cuttings, two-thirds price of Plants.

Strong two and three year old clumps, of many sorts can be supplied, our selection, 5/- doz.; 25 for 10/6; 100 for 35/-

457 Thomas Swanston, crimson self, a grand variety. 1/-

466 Vesuvius, bright crimson scarlet, dark crimson eye.

471 William Veitch, white shaded rose, large crimson eye.

Pinks—Border Varieties.

These beautiful old-fashioned flowers are among the best for cutting, and their attractive colours and sweet perfume make them as good for beds, borders, and rockwork. They are hardy, and require little attention. When brought on in a cool house, and supplied with abundance of air, they bloom profusely in the Spring. Perhaps the best for this purpose are Albino, Ernest Ladhams, and Snowflake. Failure under this treatment is generally due to, too high a temperature.

Our Selection of varieties, 3/- per doz.

Common border sorts, such as Snowflake, Mrs. Sinkins, &c., 2/- doz.; 12/- per 100.

Show or Laced Varieties.

An indispensable class of Florists' Flowers of easy growth. Invaluable for decorating borders or cutting, commencing to flower early in June, and continuing to the end of July. They thrive well in good garden soil, enriched with a little rotten manure. To obtain perfect blooms it is necessary to shelter the plants under glass, as rain and wind quickly tarnish the flowers.

Our selection of varieties, 3/6 per doz.

For descriptive list of Pinks and hardy border Carnations, see Special Carnation Catalogue, gratis and post free on application,

Polyanthus (Named Varieties).

Specially hybridised seed of a grand strain, choicest mixed, od. and 1/- per packet.

No.

eye. 392 Venus, white and lilac, free.

394 Victor, rosy-red, large, good form and habit, showy.

398 Ware's White, pure white, long stalks free.

401 William Clibran, lilae with white centre

There would be a distinct advantage to gardens, if it were realised that herbaceous plants, climbers, rare shrubs (so far as grown in pots), can be planted in late Spring, Summer or early Autumn, with less risk of losses, and a decided gain of growth, in the following season, than if planted in late Autumn, Winter or early Spring, as so frequently done. Even if the permanent situation of a plant is for a time otherwise occupied, there is still an advantage in buying in the first named periods, and putting the plants in an out of the way place, such as a Kitchen Garden, and taking from there, when the permanent situation is at liberty. With this treatment, the plant often has more fibrous roots; it has recovered the check of a journey, change of climate, or treatment, and it commences to grow at the root, generally at once.

Pyrethrums.

Are beautiful hardy Plants, Flowers similar in colour, form, and size to German Asters, fine for garden and room decoration, and useful for bouquets.

Purchasers' selection, 6d. each, 3/6 per doz.; 25 per 100; excepting those priced. Our selection, 3/- per doz.; 20/- per 100.

- 178 Ploona, pink, lightly-suffused white, very pretty.
- 196 Tasso, bright vermilion, extra fine. 6d.

Sedum (Stonecrop).

All are effective, many very pretty, some valuable for carpet bedding; but it is in the rockery they are seen to the best advantage. Plant in the driest position in sandy soil. Dasyphyllum and spathulifolium are scarcely hardy enough to withstand a rigorous Winter, and should be planted in a sheltered spot.

4d. each; 3/- per doz., excepting those priced. Marked (B) are best for carpet bedding.

No

Six pretty Sempervivums for 1/9; our selection, 12 pretty Sempervivums for 3/-, our selection.

Shasta Daisies.

Have been obtained by crossing the European and American species of Chrysanthemum Maximum with the Japanese. They are hardy, of perennial habit, blooming more abundantly each scason, vigorous in growth, and remain in bloom for several months. The flowers are large and graceful, averaging about 12 in. in circumference, with three or more rows of petals of glistening white, on stems, nearly 2 ft. in length. See illustration, page 45.

Strong roots, 4d. each; 3/6 per doz.

OUR DAHLIA LIST.

Formerly our Dahlia list has been included with General Plant List, but on account of the increased interest that is being taken in Dahlias, we have thought it advisable to publish a list exclusively for Dahlias, of a convenient size for pocket use. We hope it will be an additional advantage when required for reference. Copies post free on application.

Tritoma (Kniphophia).

The Torch Lilies or Red-hot Poker, are magnificent plants for borders, &c. The hybrids are most conspicuous. They all prefer light, sandy soil, to which may be applied a liberal top dressing of well-rotted manure, and plenty of water in Spring and Summer. A covering of bracken, &c., early in Winter is necessary, excepting in warm, dry positious.

No

84 Aurea, produces an abundance of spikes of beautiful yellow flowers.

86 Burchelli, dark red, passing to orange.

9d.

88 caulescens, reddish-salmon, changing to white with tinge of greenish-yellow.

- grandis, bright orange-scarlet. 144 nobilis, pale red shaded yellow, im-147 mense spikes; grand variety. 1/-

New Zealand Veronicas.

These shrubby Speed-wells, though not absolutely hardy in this country, can withstand several degrees of frost, and as there are many positions in gardens which are somewhat sheltered, these are the plants to occupy them, and give ample return in an abundance of flowers into late Autumn, and a constant neat appearance. Of the species, those marked with an asterisk (*) are evergreen and admirably adapted for the rock garden. No. 2301 and 2347 especially have the appearance of small conifers. In the South of England, in Wales, and near the coast generally (to the South of Scotland), these shrubs need practically no protection. Traversii is the hardiest of all the species, and may be planted with confidence, even in a fairly exposed position.

Those not priced, 4d. each; 3/- per doz. Twelve, in 12 varieties, our selection, 2/6. 15/per 100. Larger plants of some kinds at 2/- and 3/- doz. extra.

Hybrids of Speciosa. Varieties and

No.

 - 2348 speciosa, deep blue-purple, showy.
- 2350 Traversii, white, fine, extremely hardy.

For Herbaceous Veronicas see Page 48.

Violas.

Special descriptive list free on application.

For bedding purposes, the Viola is cheap, hardy, accommodating, and effective. With comparatively little attention it gives a glorious display of colour from Spring till Autumn. If planted at the proper season it is probably less affected by adverse weather than any other bedding plant. The ground intended for Violas should be in a rich well-worked condition. Planting should be completed by the middle of April, as Plants that are moved later are more susceptible to the effects of Sunmer heat and drought. To encourage a plentiful succession of bloom, it is advisable to pick off withering flowers, to prevent seed pods from forming, and also to shorten the longest shoots, to secure an abundance of lateral growths.

OUR SELECTION.

12 in 12 varieties, 2/6 and 4/-; 50 in 12 varieties, 6/6 and 12/6; 100 in 12 varieties, 10/- and 15/Seed, 6d. and 1/- per pkt.

Rayless Violas.

Our selection, 3d. each; 2/- per dozen; 10/- per 100.

Violetta.

Strain of Violas and Tufted Pansies.

The characteristic of this strain is that the flowers are without rays in the eye. In warm weather the beds exhale a pleasant odour (like sweet-scented violets), which, coming at a different season, is the more welcome. They are of dwarf compact habit, vigorous constitution, and very thoriferous, remaining in blossom from Spring till Autumn. In masses, or as edgings to beds, &c., they are remarkably effective.

Our sclection, 3d. each, 2/- per dozen, 10/- per 100.

For descriptive list of Violas and Violetta, see our Carnation and Viola Catalogue, post free on application.

Violets-Sweet Scented.

Twelve varieties, our selection, 3/-; per 100 18/-; purchasers' selection, 4d. each, 3/6 per dozen, per 100 24/-, excepting those priced. The double varieties are marked thus (*).

Clumps of standard varieties for forcing, can be supplied in Autumn at 6/- per doz.

·No.

- 5 Admiral Avellon, rosy-violet, long stalks, very sweet.

Vegetable Marrow Plants. 4d. each, 3/- doz.

Miscellaneous Roots.

ARTICHOKES.

Chinese (Stachys tuberifera) 14 lbs. 9/-; 7lbs., 4/6; lb., 9d. ... (strong plants), 6/- & 9/- per doz. Globe usalem 2/6 per peck of 14 lbs. — White Skinned, tubers whiter and more regularly formed than the old variety, 2/6 per peck of 14 lbs. ASPARAGUS. Planting 3/6 to 5/- per 100. 7/6 and 10/6 ,, Strong Planting Extra Strong for Foreing 20/-

SEA-KALE.

Sea-Kale for forcing is a speciality with us, and always gives fine crops if attended to. Customers who have not tried our roots will do well to give them a trial.

RETARDED SEA-KALE.

For use during the Summer and early Autumn, before the ordinary crowns come into use. Strong Selected Crowns, 30/- per 100; 15/- for 50.

HORSE-RADISH ._ 1/6 and 2/6 per dozen roots.

CHIVES.—2/6 per dozen.

Rhubarb.

We may mention that the Rhubarb roots we send out are all clumps, and not single crowns; they are therefore fit for foreing or pulling the first year after planting.

6d., 9d. and 1/- each; 5/-, 6/- and 9/- per doz. No.

3 Champagne, early deep red, tender. excellent for foreing and outside.

5 Champion (Daw's), stalks long and stout, bright crimson; excellent flavour; as a forcing variety, or for general purposes without an equal. Ready for use earlier than any other variety. Strong roots, 1/6 and 2/- each, 12/- and 18/- per doz.

7 Crimson Perfection, rich erimson, fine for forcing.

9 Defiance (Bauldry's), long erimson stalks, fine flavour, comes into use immediately after the early varieties.

10 Early Red Raspberry, stalks small, excellent quality; very early.

Extra sized roots for forcing, 12/- per doz. No.

13 Linnæus, excellent early variety, immense eropper; fine for forcing.

16 Monarch (Stott's), immense stalks; green. 9d. and 1/-

19 Paragon, stalks rich scarlet, early, fine, most productive.

22 Prima Donna, excellent flavoured, fine for forcing; very productive.

25 Prince Albert, dark red, good forcing kind, early.

28 Princess Royal (syn. Linnaus).

30 St. Martin's (Johnson's) (syn. Linnæus)

33 Victoria (Myatt's), large, very fine, excellent for general use.

Clematis.

IN POTS TO PLANT OUT IN SPRING AND SUMMER.

Manure ought to be well Clematis require a richly manured soil if the best result is aimed at. mixed with the soil when planting, and used annually as a mulch for Winter protection, forking it in very lightly in the Spring. The addition of chalk or lime to the soil is also beneficial.

TIME OF FLOWERING.—The Jackmanni and lanuginosa sections bloom from July to October; viticella and cærulea odorata from July to September; palens and monlana in May and June; florida in June and July; Clematis indivisa and indivisa lobata are tender kinds, and flower indoors from February to May.

PRUNING.—The Jackmanni, lanuginosa, viticella and carulea sections should be pruned in early Winter, after the flowering season, cutting the shoots well into the old wood, as they bloom on the current year's growth; florida, patens, and montana sections should only have the weak and unnecessary shoots cut out, they bloom on the previous year's ripened wood.

For full and complete descriptions of all varieties of Clematis, see our Tree and Shrub List, free on application.

New Varieties.

No.

ga Comtesse de Bouehard, satin rose. 1/6.

of Onslow 125 Countess (coccinea hybrid), bright violet purple, band of scarlet down each petal. 1/6 each.

CARNATIONS, STOVE AND GREENHOUSE PLANTS, FERNS, &c.

As we buy every novelty that promises to possess merit, and rigorously discard all that on trial, do not it is clear, that although the number of sorts we list, may be less than many others, "The Best" must be included and obviously to the Buyer's advantage. If asked, we will procure for our customers any of these discarded sorts, but we ask our friends, if possible to help us in what we are sure, is a reform of Nursery Management, by ordering the kinds we offer, in place of others that we have destroyed, because of inferiority.

lvies-continued.

ORNAMENTAL GREEN-LEAVED VARIETIES.

With large or small veined leaves of varied form.

No.
6 amurensis (syn. acuta).
20 azorica.

22 Beauty of Huntingdon (syn. Campbelli).

25 Cænwoodiana.

canariensis (Irish), the common ivy for walls, rapid grower. In pots 2 to 3 ft. 4/6 and 6/-per doz.; 3 to 4 ft. 9/- per doz.; 4 to 5 ft. 1/- to 1/6 each, 12/- to 15/- per doz.

No.

Larger plants 2/6, 3/6
and 5/- each. Ground
plants, 2 to 3 ft., 3/per doz., 20/- per 100.

40 conglomerata.

47 dentata.

THE

GARDENERS' ROYAL BENEVOLENT INSTITUTION.

Secretary-Mr. J G. INGRAM.

175, Victoria Street, Westminster, London, W.C. THE VAI CADDENED

ROYAL CARDENERS' ORPHAN FUND.

Secretary-Mr. B. WYNNE.

30, Wellington Street, Covent Garden, London, W.C.

We wish to direct the attention of Gardeners and all interested in Horticulture to the splendid work that has been accomplished and is still being carried on by the above bodies.

By subscribing to their funds a gardener is not only making his own position more sure in the future, but at the same time is assisting those who are most in need of help. The respective Secretaries are at all times anxious and willing to give every information concerning the working of their Institutions to all applicants.

LANDSCAPE WORK____

In all its branches. The laying out of new and the re-modelling of existing grounds carried out in the best style, either from our plans or those of our Patrons. Correspondence invited on all matters connected with this class of work.

Climbing and Other Plants.

SUITABLE FOR COVERING WALLS, TRELLISES, ARBOURS. PERGOLAS, ROOTERIES, &c., &c.

Choice, New, and Recent Varieties.

ACTINIDIA

kolomikta, white flowers, foliage in Autumn, charmingly tinted. 1/- to 1/6 each.
chinensis, handsome yellow flowers 1½
inches in diameter in clusters on dwarf shoots. 5/- and 7/6 each.

CLEMATIS, new varieties, see page 65.

JASMINUM

primulinum, bright yellow, similar to J. nudiflorum, but much larger, evergreen, 1/- to 1/6 each; 9/- to 12/- per doz.

LONICERA

Heckrotti, rose ontside, yellow inside. 2/and 2/6 each.

Hildebrandl, handsomest of all honeysuckles. Flowers, 5 to 7 inches in length, lovely orange-crimson, not quite hardy, except in favoured situations. 2/6 to 3/6 each.

POLYGONUM BALDSCHUANICUM, see page 6.

VITIS

armata, leaves shining bronzy-green when young passing to dark green when mature; in Autumn the foliage as-

sumes a rich crimson; 5/- each.

Coignetiæ (Crimson Glory Vine), leaves often 10 inches across, of a brilliant

scarlet hue in Autumn. 1/6 to 2/6 ea. flexuosa major, leaves 7 to 8 inches across, young shoots and tendrils are bright crimson; in Autumn the foliage assumes a rich tinge of blackish purple; a vigorous and rapid grower. 3/6 & 5/- each.

Thomsonli, leaves greenish purple hue with purple mid-rib and margin, under surface bright claret-purple, glossy, reflecting the light with a metal-lic lustre. The purple hne is constant through the Summer, changing in Autumn to purplish-red; 5/- each.

WISTARIA

multijuga rosea, lovely lilac rose tint, standards rosy white, lower petals have a yellow centre; 3/6 and 5/- each.

GENERAL COLLECTION.

All are in pots (excepting where otherwise stated), for convenience of moving at any season. 12 distinct varieties, our selection, for 6/-, 9/-, or 12/-. Marked (E) are evergreen.

Those marked (*) require a South or West aspect.

ACTINIDIA

I arguta, a strong quick-growing twiner. 9d. and 1/- each.

chinensis, see new Climbers above.

2 kolomikta, see new Climbers above

3 polygama, waxy-white fragrant flowers, edible berries, brightly tinted Autumn foliage; rich warm soil. 9d., 1/- and 1/6 each.

AKEBIA

5 quinata, fragrant flowers, brownish-purple; looks charming over Irish Ivy. 1/- and 1/6 each.

AMPELOPSIS

II Engelmanni, earliest to colour in Autumn. 9d., 1/- to 1/6 each.

8 hederacea (syn. quinquefolia), Virginian Creeper. 5/- per doz.; 6d. each. Creeper. 5/- per doz.; 6d. each. Extra strong, with numerous shoots, 9/- per doz.; 1/- each.

12 japonica Hoggi, tenacious clinger; leaves often 4 to 6 in. wide, 6 to 8 in. long. Autumn colouring, rich. 1/- and 1/6 each.

14 quinquefolla variegata (*), beautiful variegated variety, requires cold requires cold 1/6 each.

AMPELOPSIS—continued.

15 muralis, clings readily, colours well in Autumn. 1/- and 1/6 each.

17 Roylei (serjaniaefolia), resembles Veitchii, but darker. 1'- and 1/6 each.

(e*) 20 sempervirens (Vitis striata), evergreen, dark leaves. 1/- and 1/6 each.
23 Veitchii (tricuspidata), highly coloured, one of the best climbers for South and West aspects. 9/- and 12/- per doz.; 1/- and 1/6 each. Extra sized plants, 2/6 and 3/6 each.

purpurea, young leaves, purple, changing with age to greenish-purple. 1/-, 1/6 to 2/6 each.

- atropurpurea, deeper than Veitchii purpurea; grows stronger than Veitchii; 1/-, 1/6 and 2/6 each.

ARISTOLOCHIA

28 Sipho (Dutchman's Pipc), flowers yellow, veined brown. 1/-, 1/6 to 2/6 each.

BERBERIDOPSIS

corallina (The Coral Barberry), bright clustered coral red flowers. 1/6 to 2/6 each.

Full descriptions of above will be found in our Tree and Shrub List. Free.

Climbing and other Plants—General Collection—continued.

BIGNONIA

39 capreolata (*), showy for sunny spot; flowers reddish yellow, April to August. 1/- and 1/6 each.

42 grandiflora (The Searlet Trumpet Vine) (*), flowers rich orange-scarlet, in large

clusters. 1/- & 1/6 each.
45 radicans (Common Trumpet Flower), (*), clinging like Ivy, showy clusters of orange-scarlet flowers. 1/- and 1/6

BRIDGESIA (Ercilla).
49 spicata (Ercilla volubilis) (E), elings as tenaciously as Ivy; attractive. 9d., 1/to 1/6 each.

CELASTRUS

50 Articulatus (Strangle Bush), interesting climbing shrub. 9d., 1/- to 1/6 each

CEANOTHUS

54 azureus (*), light blue in great abundance, June till September; dry sunny position. 1/6 to 2/6 each.

56 Ceres (*) rose, very floriferous. 1/6 to 2/6 dentatus (E*), bright blue flowers. 1/-

and 1/6 each.

59 divaricatus, (E*), in constant bloom from May till September; bright blue. 1/-, 1/6 to 2/6 each.

61 Gloire de Plantieres, pretty blue. 1/~, 1/6 to 2/6 each

62 Gloire de Versailles (*), delicate lavender, free. 1/6 to 2/6 each.
64 indigo, rich, dark blue flowers, 1/6 to

2/6 each.

61 papillosus (E*), blue, in dense clusters. 2/6 each.

67 rigidus (E*), rich deep purple, in April and May. 1/6 to 2/6 each.

69 Veitchianus (E*), rich deep blue flowers.

1/6 to 2/6 each.
Though frequently grown in a cold conservatory these beautiful shrubs are sufficiently hardy for warm, dry soils in a sunny exposure. They form lovely wall plants, profuse and often continuous bloomers, prune in April; the branches required for filling in being topped, all others shortened to three eyes if strong, to one if weak.

CLEMATIS, see pages 65 & 66.

DECUMARIA

76 barbara, white scented flowers. 1/6 ea.

ECCREMOCARPUS

Calampelis scabra) (*). 03 scaber (syn. beautiful bright orange-red flowers protect roots with a mulch during Winter. 9d. and 1/- each.

94 — rosea, beautiful rose. 1/- and 1/6

ERCILLA (see Bridgesia).

GELSEMIUM

95 **sempervirens** (Carolina Jessamine) (E*), deep yellow, fragrant. 1/-&1/6 each.

HEDERA (Ivy), see pages 66 and 67.

HONEYSUCKLE, see I.onicera.

HUMULUS

118 lupulus, Common Hop, a rapid twining perennial. 6d. and 9d. each, 4/6 and 6/- per doz:

- foliis aureis (The Golden Hop), foliage golden. 9d. and 1/- each; 6/and 9/- per doz.

HYDRANGEA

120 scandens (syn. Schizophragma hydrange-oides (*). "Climbing Hydrangea." Flowers white or flesh, heads 6 in. across. 9d., 1/- to 1/6 each.

IVY, see pages 66 and 67.

JASMINUM

- 122 floridum (E*), yellow. 1/- and 1/6 each.
- 124 fruticans, yellow flowers; ornamental.

 1/- and 1/6 each.
- 125 nudiflorum, yellow in great abundance during Winter; 9d., 1/- to 1/6 each; 6/-. 9/- and 12/- per dozen.

126 — fol. aureus, golden variegated form, 9d., 1/- to 1/6 each.
129 officinale, white, sweet-scented; 9d.,

1/- to 1/6 each.

- 130 majus, stronger than the type, flowers larger. 9d., 1/- to 1/6 each. 131 primulinum, see New Climbers, page 68.
- 133 revolutum (E*), bright golden-yellow. od., 1/- to 1/6 each.
- 136 Wallichianum (E*), bright yellow. 1/to 1/6 each.

KADSURA

138 japonica variegata (*), pretty variegated plant for a wall. 1/6 and 2/6 each.

LARDIZABALA.

142 biternata (E*), handsome glossy ever-green climber, hardy in mild situations, 1/-, 1/6 to 2/6 each.

LONICERA (Honeysuckle).

- 145 aurea reticulata (E), golden netted emerald green leaves, good for baskets, window, &c. 6d., 9d. and t/- each; 5/-, 6/- and 9/- per doz.
- 148 brachypoda (E), pale yellow. 9d. and 1/- each.
- 151 Early Dutch, yellow, early. 9d. and r/- each.
- 152 Early Cream Dutch, eream. 9d. and 1/- each.
- 154 Early White, fine white, 9d. and 1/- ea.
 157 flava (Yellow Trumpet), yellow form of
 Scarlet Irumpet. 9d. and 1/- each.
- 150 flexuosa (E), pale yellow scented flowers; od, and 1/-each.
- 163 gigantea (*), extraordinary strong grower, yellow flowers, not quite hardy. 1/-, 1/6 to 2/6 each.
- 165 Halleana (E), white, strong grower, not quite hardy. 9d. and 1/- each.

For full descriptions of above see our Tree and Shrub List. Free.

HOW TO HIDE UGLY WALLS IN SMOKY TOWNS.

Plant in prepared soil at the foot of the wall-Ampelopsis hederacea in the worst positions, and A. Veitchi in the better aspects, or if an evergreen cover be wanted, plant Irish Ivy; an ugly blank wall can be made beautiful by so planting. It becomes an object of interest for tired eyes and a reminder of Nature and green fields.

Climbing and other Plants-Ceneral Collection-continued.

LONICERA—continued.

- 164 Heckrotti, see New Climbers, page 68.
- 165a Hildebrandi, see New Climbers, page 68.
- 166 Perlelymenum, well-known wild form with yellowish fragrant flowers. od. and 1/- each.
- 171 sempervirens (E*), (Scarlet Trumpet), beautiful, should be extensively grown. 9d., 1/-, 1/6 to 2/6 each.
- 174 serotina floribunda (Late Dutch or Late Red), rapid climber, continuous bloomer. 9d., 1/- to 1/6 each.

Six fine sorts of Loniceras, Our Selection, 5 -

MENISPERMUM.

:179 canadense (Moon Seed), teathery clusters of yellowish flowers. 9d. and 1/- each,

PASSIFLORA.

cœrulea (*) (Passion Flower), flowers blue, sheltered situation. 9d., 1/-, 1/6 to 2/6 each.

PERIPLOCA.

185 græca (*) (Virginian Silk Vine) beautiful shining leaves. 9d., 1/- to 1/6 each.

POLYGONUM.

101 Baldschuanicum, see page 6.

SMILAX.

- 204 aspera (E*), (The Prickly Ivy), trailing stems, spiny evergreen leaves. 1/- and 1/6 each.
- 207 **australis** (e*) (*latifolia*), handsome glossy green leaves; grows rapidly. 1/- and 1/6 each.

VITIS.

- 212 armata, see New Climbers, page 68.
- 216 Coignetiæ, see New Climbers, page 68.
- 219 flexuosa, highly coloured in Antumn; not quite hardy. 1/- and 1/6 each.

VITIS-continued.

- 210aflexuosa major, see New Climbers, page 68.
- 220 heterophylla humillifolla, (*) (Hop-leaved Vine), small red berries like currants. 1/- and 1/6 each.
- 221 —— variegata (*), leaves beautifully speckled ivory and cream; lovely greenhouse decorative plant; not affected by insects. 1/- and 1/6 each.
- followed by dark purple or amber coloured fruit; 1/- and 1/6 each.
- 222aThomsonii, see New Climbers, page 68.
- 223 vinlera apiifolia (The Parsley-leaved Vine), ornamental, amber-coloured grape. 1/6 to 2/6 each.
- 225 purpurea (The Claret-coloured foliaged Grape), large leaves claret colour, 1/- and 1/6 each.

to ornamental Vines, our selection, for 6/-

WISTARIA.

- 241 frutescens (American Ridney Bean Tree), densely flowered racemes. 2/6 and 3, 6 each.
- 24 japonica, lovely white flowers. 2/6 to 3/6 each.
- 246 flore pleno, double-flowered form of preceding. 2/6 and 3/6 each.
- 240 multijuga, flowers in racemes frequently over 2 ft. long; ornamental. 2/6 and 3/6 each.
- 251 alba, racemes of white flowers. 2/6 and 3/6 each.
- 252 -- rosea, see New Climbers, page 68.
- 228 sinensls, racemes of lovely lilac. 2,6 to 3/6 each.
- white. 2/6 to 3/6 each.
- 233 flore pleno, handsome double flowers. 2/6 to 3/6 each.
- 238 variegata, bright silvery-variegated foliage. 2/6 to 3/6 each.

A POINT OF NURSERY MANAGEMENT.

An opinion generally held by Plant Buyers, with reference to lists of varieties, is, that if these are not lengthy, they do not include the best sorts in their classes; we submit that this may be true of collections which remain small in number of sorts, because their Owners do not buy new kinds, but are content to go on year after year, cultivating only the same kinds, but it is not at all true of collections which are small in number of sorts, because their owners cultivate only the finest kinds. The matter is of greater importance to Plant Buyers, than appears on first consideration, and its importance arises in this way. Where a collection of plants is kept up to date by the annual purchase of the various raisers' novelties, its number of varieties becomes very large, even when older sorts are occasionally discarded, and although the unreflective plant buyer is apt to think that if he orders from such a list, there is a certainty of his buying the best kinds, that is not so, unless he himself has a knowledge of which varieties are the finest. As an indication of quality, our experience leads us to the opinion that the long list of names, expensive to the grower to keep true, and to propagate, and bewildering to the buyers to select from, are one cause of so much rubbish being sold. All those buyers not acquainted with up to date Novelties of all classes (and how can an Amateur or Gardener be acquainted with them all) suffer by having more of the poorer kinds in their orders. The grower has had all the expense of producing the plants or seed, he cannot afford to throw away and so the Buyer suffers. We have therefore determined to reduce the number of sorts we list of inside and outside varieties of most plants. Trees, etc. During the last year we have discarded very large numbers of varieties in all classes.

ABRIDGED LIST OF

Choice Hardy and Half-Hardy Shrubs, &c.

MANY OF THE FOLLOWING MAKE EXCELLENT SUBJECTS FOR TRAINING ON WALLS, &c.

A full list will be found in our Tree and Shrub Catalogue, gratis and post free on application.

New, Recent, and Rare Shrubs.

ALL ARE IN POTS.

BUDDLEIA

Colvillel, rose coloured, white ring round mouth of corolla, of bell-shaped form, long pendulous panicles. Best in south or south-west aspect. 2/-, 2/6 to 3/6 each.

variabilis veitchiana, F.C.C., R.H.S., densely flowered brilliantly coloured pyramids of bright violet mauve flowers, with orange yellow centre, 3/6, 5/- to 7/6 each.

CÆSALPINIA

japonica, F.C.C., R.H.S., long racemes, rich canary-yellow flowers. 1/6 to 2/6 each.

CARPENTERIA

californica (The Tree Anemone). Pure white, bold stamens lovely yellow. Hardy in the South. 2/-, 2/6 to 3/6 each.

CORNUS

Kousa, F.C.C., R.H.S., covered in Summer with dainty clusters of minute flowers; fruit edible. 3/6 and 5/-- each.

COTONEASTER.

angustifolia, F.C.C., R.H.S., 1904, a beautiful highly ornamental new species from China. Branches literally covered with clusters of clear orange-yellow berries. 1/6 and 2/6 each; 12/- to 24/- doz.

DEUTZIA

discolor floribunda, white flowers tinged rose, free. 1/- and 1/6 each.

EMBOTHRIUM

coccineum, "The Fire Bush," brilliant scarlet in large sprays, do well outdoors in S. Devon and parts of Wales and Ircland. 3 6 and 5/- each.

ESCALLONIA

Langleyensis, bright rose-carmine colour. 2/6 to 3/6 cach.

EUCRYPHIA

plnnatifolia, flowers in clusters, snowy white, with feathery tuft of yellow-tipped stamens. 5/- and 7/6 each.

FREMONTIA

cailfornica, bright golden cup-shaped flowers 2/-, 2/6 to 3/6 each.

HAMAMELIS

Mollis, bright yellow, quite distinct. 7/6 and 10/6 each.

HEDYSARUM

multijugum, rich reddish-violet flowers, in clusters I to 1½ ft. in length. I/- and I/6 each.

HYPERICUM

Moserlanum tricolor, golden flowered, leaves bordered bright scarlet and creamy white; sunny position; not quite hardy. 9d., 1/- and 1/6 each.

LAVANDULA

Grappenhail Variety. See page 35.

LONICERA

Morrowil, brigh' crimsou berries, in great abundance, 3 to 4 ft., 6d. each; 4 to 5 ft., 9d. and 1/- each.

NOTOSPARTIUM

Carmichæliæ, pretty pink freely produced in racemes. 2/6 each.

PHILADELPHUS

hybridus Lemoinll purpurea maculatus, flowers white, petals with large purplish rose spot. 2/6 each.

RHUS

Cotinoides, beautiful in Autumn, foliage coloured with tints of orange, red and yellow. 2/6 to 3/6 each.

ROMNEYA

Coulterl (Bush Poppy), see page 6.

SAMBUCUS

racemosa foliis aurels, golden fern-leaved variety, leaves retaining their bright, golden-yellow hue, late in Autumn. 1/- to 1/0 each; 9/- and 12/- per doz.

SPIRÆA

arguta, clusters of pure white flowers. 1/6 each.

Aitchisonl, bright red bark; flowers pure white, in large panicles; 2/6 each.

WEIGELA

Eva Rathke, flowers dark red, very free, F.C.C., R.H.S. 1/- and 1/6 each.

Full descriptions of all Hardy Climbing Plants, appear in our List of Trees, and Shrubs. Free.

VISITORS TO OUR NURSERIES.

Intending visitors should notify us time of their train, and if to Hale or Altrincham Station, so that we could send a conveyance to meet them.

GENERAL COLLECTION.

These are not of climbing habit, but many of them are exceedingly attractive ornamental subjects for training against walls and in other similar situations. Marked (c) are Evergreen; (*) require a south or west aspect. All are in pots, except where otherwise stated, for convenience of moving at any season. Twelve in 12 distinct varieties, our selection, for 6/-, 9/- or 12/-

ABELIA

*1 floribunda, rosy-purple. 1/6 to 2/6

*2 rupestris, white. 1/- and 1/6 each.

ABUTILON

*4 vltlfollum (Vine leaved), porcelain bluc. In Autumn leaves golden. Hardy in the South of England and Ireland, but should have protection in the north, 1/-, 1/6 to 2/6, each, 10/6, 15/- to 24/- per doz.

- album, a white flowered form of the preceding. 1/-, 1/6 to 2/6 each.

AZARA

*218 crassifolia, leaves, deeply cut. In pots, 1/-, 1/6 to 2/6 each.
*220 integrifolia, charming half-hardy ever-

green. In pots, 1/- and 1/6 each.

— fol. varlegata, spikes of fragrant

yellow flowers, golden margined foliage.

In pots, 2/- and 2/6 each.

*224 mlcrophylla, bright orange-red berries.
In pots, 9d., 1/- to 1/6 each.

Bamboos. See page 12.

BERBERIS (Barberry). 239 Darwlnii, bright orange flowers; 6d., 9d., 1/- and 1/6 each; 4/6, 7/6, 10/6 and 15/- per doz.; 30/-, 50/-, 75/and 96/- per 100.

242 dulcis (buxifolia), shoots profusely hung tiny golden flowers. 6d., od.

to 1/6 each.

243 dulcis nana, compact growing variety of preceding. od. and 1/6 each; 6/to 15/- per doz.

245 empetrifolia, an attractive trailing species, 1/- and 1/6 each; 9/- to 12/- per doz.

248 fascicularls, evergreen, prickly foliage.

1 to 1½ ft., 6d., 9d. and 1/- each;
5/-, 7/6 and 10/6 per doz.; 1½ to 2 ft.,
1/- to 1/6 cach.

251 Fremonti, glaucous grey leaves. Small plants 2/6 to 3/6 each.
254 Hackodate, a Japanese variety of upright growth, 1/6 to 2/6 each.

263 stenophylla, long pendulous branches densely hung with bright yellow flowers; i to 12 ft., 6d., 9d. and 1/- each; 5/-, 6/- and 9/- per doz.; 1½ to 2 ft., 1/- to 1/6 each; 10/6 to 15/- per doz. Larger, 2/- to 3/6.

BROOM—See Cytisus.

BUDDLEIA.

301 Colvillel—see new Shrubs, page 71. 302 globosa (Orange Ball Tree), bright orangeyellow fragrant flowers. 1/- and 1/6 each; 10/6 to 15/- per doz.

*304 varlabllis, reddish-violet, inside of tube dcep orange. 1/-, 1/6 to 2/6 each.

veltchlana. See new Shrub

new Shrubs, *304a page 71.

No.

CÆSALPINIA.

341 japonica—see new Shrubs, page 71.

CALYCANTHUS (The Allspice).

*344 floridus, purple, sweetly pefumed. 1/-, 1/6 to 2/6 each.

*347 occidentalis (macrophyllus), maroon crimson, fragrant; I to 11 ft., od. and I/each.

CARPENTERIA

353 californica (The Tree Anemone). See New Shrubs, page 71.

CARYOPTERIS

*365 Mastacanthus (Blue Spirwa), rich violet flowers, in Autumn. 1/-, 1/6 to 2/6 each.

CHIMONANTHUS

*398 fragrans, yellowish-white, fragrant, the shoots that have bloomed should be cut back to the main branches as soon as the flowers fall. 1/- to 1/6 each.

*401 — grandlflorus, flowers larger than above. 1/- to 1/6.

CHOISYA

*410 ternata (Mexican Orange Shrub) white, sweet hawthorn-scented flowers; 9d., 1/-, 1/6 to 2/- each; 7/6, 10/6, 15/to 21/- per doz.

CISTUS

*413 ladanlferus (Gum Cistus), white, dark vinous blotch on each petal. 9d., 1/to 1/6 each.

CITRUS

416 trifoliata (Hardy Orange). 9d., 1/- to 1/6 each, 7/6, 9/-, 12/- to 15/- per doz.

CLERODENDRON.

*421 fætldum roseum (Bungei rosea), bright rose-coloured flowers; 1/-to 1/6 each.

*422 trichotomum, white with purplish calyx sweet scented. 9d., 1/- to 1/6 each.

CORCHORUS. See Kerria.

CORONILLA.

467 Emerus (Scorpion Senna), yellow. Gl., 1/- to 1/6 each.

COTONEASTER

481 Angustifolla, see New Shrubs, page 71.

407 horizontalis, suitable for walls, rockwork, &c. In a south aspect, foliage bright crimson in Autumn. 9d., 1/to 1/6 each, 7/6, 10/6 to 15/- per doz.

503 mlcrophylla. Fine for rockeries or walls. 6d., 9d., and 1/- each; 4/-, 6/-, and 9/-

509 thymæfolla, a miniature form of mi-crophylla, suitable for rockwok, &c. 9d. to 1/- each.

CRATÆGUS

561 pyracantha (*The Fiery Thorn*), scarlet berries during Winter, &c. 9d., 1/- to 1/6 each; 9/-, 12/- to 15/- per doz.; 60/-, 75/- to 100/- per 100.

- fructo-lutea, yellow berries. 9d., 564 -

1/- to 1/6 each.

--Lelandl, brilliant scarlet berries od., 1/- to 1/6 each; 7/6, 9/-, 10/6 to 15/- per doz.

CYDONIA (Pyrus) (Quince)

573 japonica (Japan Quince), bright scarlet.

1/- to 1/6 each; 10/6 to 15/- per doz.
--- alba, white flowers. 1/-, 1/6 to 2/6 each; 10/6, 15/-, 18/- to 21/-576 per doz.

grandiflora piena, double white 579 1/-, 1/6 to 2/- each.

582 - cardinalis, rich salmon-red. 1/to 1/6 each.

- nivalis, pure white. 1/- to 1/6 585 each.

- Moerloesi, pink and white. 1/- to 591 1/6 each, 10/6 to 15/- per doz.
—— Simoni, dark red. 1/- to 1/6 each;

10/6 to 15/- per doz.

597 Mauleli, scarlet, succeeded by pretty fruits. 9d., 1/- to 1/6 each; 7/6, 7/6, 10/6 to 15/- per doz.

598 — alba, I/-, 1/6 to 2/- each. 600 — superba, deeper coloured than Mauleii. 1/-, 1/6 to 2/6 each; 10/6, 15/- to 24/- per doz.

CYTISUS

603 albus (multiflorus) · (White Fortugal Broom), most graceful of early flowering shrubs. 6d., 9d., and 1/- each.

609 capitatus, heads of yellow flowers. 9d. and 1/- each; 5/-, 7/6 and 10/6 doz.

612 Dwarf Yellow, compact, suitable for rockwork. 9d., 1/- and 1/6 each; 7/6, 10/6 to 15/- per doz.

614 nigricans, bright yellow. 6d., 9d. and 1/- each; 5/-, 7/6 and 10/6 doz.
618 præcox, beautiful lemon-coloured flow-

ers. 9d., 1/- to 1/6 each. Standards, in pots or from ground, 3 to 4 ft. stems, 2/-, 2/6 to 3/- each; 5 ft. stems, 2/6 to 3/6 each.

622 purpureus albus, free, suitable for rockeries, &c. 9d., 1/- to 1/6 each.
——Incarnatus, bright rose-purple. 9d.

1/- to 1/6 cach.

627 Schipkaensis, dwarf, pure white flowers. 1/- and 1/6 each.

630 scoparlus, effective, free. 6d. and 9d. each; 4/- to 6/- per doz.; 15/- to 20/- per 100.

633 servatory and outside. Upper half of flower bright golden yellow, two centre petals deep reddish chestnut. 1/-, 1/6 to 2/- each; 10/6, 15/- to 18/- per doz.

follis variegatis, foliage beautifully edged silver. 1/- to 1/6 each. 634 -

grandiflora, large yellow flowers. 1/- to 1/6 each; 9/- to 15/- per doz. 636 -

642 Blagayana, fragrant, white flowers. 2/6 to 3/6 each.

645 Cneorum (The Garland Flower), deliciously perfumed deep pink flowers. 1/6 each.

648 - majus, a large flowered form of

preceding. 1/6 and 2/6 each. *651 collina (sericea), fragrant pale pink from

January to June. 1/6 each.

*654 Genkwa, bright lilac fragrant flowers,
2/6 to 3/6 each.

*660 hyemalls (Fioniana), pink, sweetly scent

ed. 1/- and 1/6 each.

For other varieties of Daphnes, see our Tree and Shrub List, Free.

DESFONTAINEA.

696 spinosa, scarlet, tipped yellow. 2/-, 2/6 to 3/6 each.

DESMODIUM.

*699 pendulislorum, (syn. Lespedeza bicolor), rich violet flowers. 9d., 1/- to 1/6 each; 7/10/6 to 15/- per doz.

DEUTZIA

714adiscolor floribunda, see New Shrubs, page 71 715—grandiflora, large white flowers, flowers, tinted rose. 1/6 to 2/-

purpurescens, tinted rose; racemes 2 to 3 in. in length. 1/-, 1/6 to 2/each.

717 gracilis, white flowers, 9d. and 1/- each; 7/6 to 10/6 per doz.

- campanulata, flowers are pure white. 717a-1/6 to 2/- each.

eximea, buds pretty rose, carmine tint, petals pure white, charming contrast. I/- to I/6 each. 717C-

--- Kalmlæflora, rosy white. 1/6 to 718b-2/- each.

rose-coloured flowers. 9d. rosea, rose-c 718 -

- venusta, large flowered white. 9d., 1/- to 1/6 each.

719 Lemolnel, pure white. od., 1/- to 1/6 each.

-- compacta, pure white flowers. 1/to 1/6 each.

720 parviflora, large, pure white, free. 9d., 1/- to 1/6 each.

DIPLOPAPPUS

*726 chrysophyllus (Cassinia fulvida), flowers like white Michaelmas daisies, free. od., 1/- to 1/6 each.

*727 leptophyllus, under side of leaves silvery. 1/6 and 2/6 each.

DOGWOOD, see Cornus.

ELÆAGNUS (Wild Olive or Oleaster).

*732 glaber (syn. reflexa), silvery elegant. 1/- to 2 6 each. scales.

beautiful variefollis variegatis, *735 -

gated form. 1 - to 2/6 each

Fredericki variegata, variegated form from Japan; very ornamental. 1/6 to 2/6 each.

*739 japonicus varlegatus, bright and distinct. 1/6 to 2/6 each.

741 longipes (syn. edulis; crispa), clusters of orange-coloured fruit. 1/6, 2/6 and 3/6 eacli.

ELÆAGNUS-continued.

724 macrophyllus, silvery white scales on 1/6 and 2/6 each. under side.

*747 pungens variegatus, handsome variegated foliage. 1/6 and 2/6 each.

*748 Simonii tricolor, foliage decp yellow and green. 1/6 and 2/6 each.

EMBOTHRIUM.

*750 coccineum, see New Shrubs, page 71.

*752 japonica ("Japan Medlar," or "Loquat Tree"). Flowers white, fruit about the size of a small apple; not quite hardy. 1/-, 1/6 to 2/6 each.

ESCALLONIA

*753 macrantha, pinkish-red. 9d., 1/- to 1/6

757 Illinita, white flowers. 1/- to 1/6 each.

758 Langieyensis, see New Shrubs, page 71.

*759 montevidensis (syn floribunda), flowers white. 1/- to 1/6 each.

762 Philiipplana, snow-white flowers. 1/to 1/6 cach.

*764 rubra, red-flowered. In pots, 1/- to 1/6 each.

EUCALYPTUS.

*globulus (Blue Gum Tree), valuable for sub-tropical gardening. 9d., 1/to 1/6 each.

EUCRYPHIA.

*766 pinnatifolia, see New Shrubs, page 71.

EUGENIA, see Myrtus.

EXOCHORDA (The Pearl Bush).

817 grandiflora, snowy-white. 1/- to 1/6 each.

FABIANA.

*820 imbricata, finc plant for decoration of cool conservatory, flowers pure white, 1/6 to 2/- each.

FENDLERA.

864 rupicola, snow-white or silvery rose deliciously perfumed flowers; requires well drained soil. 2/- to 2/6 each.

FONTANESIA.

864aphiiiræoides, creamy-yellow. 1/- to 1/6 each.

FORSYTHIA.

865 suspensa, bright yellow. 9d., 1/- to 1/6 each; 6/-, 9/- to 12/- per doz.

868 intermedia, yellow. 9d., 1/- to 1/6 each; 6/-, 9/- to 12/- per doz.

871 viridissima, beautiful yellow. 6d., 9d. 1/- and 1/6 each.

FREMONTIA.

*901 californica, see New Shrubs, page 71.

FUCHSIAS-Hardy varieties .- See page 16.

GARRYA.

*904 elliptica, pendulous catkins in great profusion. 1/~ to 1/6 each.

GARRYA -continued.

906 McFadyenii, vigorous growing. 1/- to 1/6 each.

907 Thuretii, more vigorous and hardy than G. elliptica. 1/6 to 2/- each.

GENISTA.

*910 hispanica (Spanish Gorse), free blooming, hardy furze-like shrub. 9d. and 1/each; 6/- and 9/- per doz.

915 Lobelii, flowers primrose yellow. 1/and 1/6 each.

916atinetoria elatior, yellow flowers, Angust and September. 12 to 2 ft., 6d. each; 4/- per doz.; 20/- per 100.

917 virgata, yellow flowers. 9d., 1/- to 1/6 each.

GRISELINIA.

*928 littoralis, beautiful evergreen. 1/6 to 2/6 cach.

*931aiuclda, a pretty and attractive evergreen shriib. 1/6 to 2/- each.

HAMAMELIS (Witch Hazels).
943 arborea, beautiful golden-yellow and clarct coloured flowers in mid-winter; sunny position. 2/6, 3/6 to 5/- each.

048 Japonica, dwarfer than arborea, lemon yellow flowers. 2/6, 3/6 to 5/- each

- Zuccariniana, flowers pale lenion yellow, very distinct. 2/6, 3/6 to 5/each.

948a Moilis, see new Shrubs, page 71.

950 virginica, flowers yellow, small and freely produced during Winter. 1/- to 1/6 each.

HEDERA ARBOREA. See page 67.

HYMENANTHERA.

*976 crassifolia, flowers yellowish, branches covered with pure white berries. 1/- and 1/6.

HYPERICUM. See page 34.

INDIGOFERA.

*1078 Gerardiana (Dosua floribunda), bright rose, pca-like flowers, Autumn; likes a Hardy on well-drained soil. 1/- to 1/6, 9/-, 12/- to 15/- per doz.

IVY, TREE, see Hedera arborea, page 67.

JAPANESE MAPLES, see Maples, page 75.

KERRIA (Corchorus).

1091 japonica, (single-flowered Kerria), orange yellow. 6d., 9d. and 1/- each.

flore pleno, orange-yellow, double. 1094 9d., 1/- to 1/6 each.

- foi. variegata, foliage varicgated white. 9d. and 1/- each; 6/- and 9/- per doz.

LAVANDULA (I.avender).
1172 spica. 6d. each, 4/6 per doz.
1173 ---- Grappenhali Variety, see page 35.

LEPTOSPERMUM

*1175 scoparium. Australian shrub, broomlike reddish lilac flowers. 1/6 to 2/6 each.

LESPEDEZA, see Desmodium penduliflorum.

Choice Hardy and Half-Hardy Shrubs-continued.

LIGUSTRUM (Privet).

- *1190 japonicum, large shining green foliage, 1/-, 1/6 to 2/6 each.
- eiegans, highly ornamental form of japonicum. 1/- to 1/6 each.
- *1193 - variegatum (tricolor), foliage beautifully shaded red and white. 1/- to 1/6 each.
- *1195 coriaceum, leaves leathery and densely crowded on the short shoots. 1/- to 1/6 each.
- *1196 lucidum macrophylium, shining green leaves; handsome bush. 9d., 1/- to 1/6 each; 7/6, 9/-, 12/- and 15/- per doz.
- *1199 - marginatum aureum, goldenmargined form of preceding. 9d., 1/to 1/6 each; 7/6, 9/-, 12/- and 15/per doz.
- --- "Triomphe de Bordeaux," vigorous variety, large foliage. 9d., 1/- to 1/6
- LONICERA (Shrubhy Honeysuchles).

 Climbing Varieties, see page 69.
 1235 fragrantissima, white, fragrant. For
- od... 1/- to 1/6 each.
- 1238 involucrata (Ledebourii), yeilow, tinged red; invaluable for snicky districts. 1½ to 2 ft., 6d. each, 4/6 per doz.; 2 to 2½ ft., 9d. each, 6/- per doz.; 2½ to 3 ft., 1/- each, 9/- per doz.

 1241 Morrowii, see New Shrubs, page 71.
- tartarica rosea, rose flowers, succeeded by black fruit. 6d., 9d. and 1/each.
- 1250 xylosteum (Fly Honeysuckle), cream coloured. 9d. to 1/- each.
- MAGNOLIA. Magnolias should be severely pruned when transplanted, and unless they have been in pots, only moved in Spring.
- 1253 acuminata (Cucumber Tree), handsome deciduous tree, very hardy. 2/6, 3/6 to 5/- each.
- 1256 conspicua (Yulan Tree), white, reverse of petals sometimes suffused purple. 5/-, 7/6 to 10/6 each.
- 1250 Aiexandrina, white, reverse of petals sometimes flushed purplish-magenta 2/6, 3/6, 7/6 to 10/6 each.
- 1262 Lennei, interior pinkish white, exterior deep purple. 5/-, 7/6 to 10/6 each.
- 1265 Norberti, white, base of petals dark purple. 3/6, 5/-, 7/6 to 10/6.
- 1268 Soulangeana, white veined and shaded purple. 2/6, 5/-, 7/6 to 10/6 each.
- 1274 conspicua speciosa, similar to Soulangeana, but flowers paler. 3/6, 5/-, 7/6 to 10/6 each.
- 1280 Fraseri (auriculata), yellowish white, sweet scented. 2/6, 3/6 to 5/each.
- *1283 grandiflora, white, fragrant, flourishes best in a south aspect. 2/6, 3/6, 5/-
- to 7/6 each.

 Exmouth Variety, white. 3/6 to **#1286** -10/6 each. Haiieana, see stellata.

- MAGNOLIA-continued.
 - 1280 hypoieuca, creamy white, fragrant. 2/6, 3/6 to 5/- each.
 - 1202 Kobus, white, reverse of petals shaded pink, 3/6 to 5/- each.
- obovata (purpurea), petals purple outside, and white within. 2/6 to 3/6 each.
- 1294 parviflora, white, tinted rose. 5/- to 7/6 each.
- 1295 stellata (Halleana), profuse bloomer, double, sweet scented. 3/6, 5/-, 7/6 to 10/6 each.
- 1301 Watsonii, creamy white, filaments. 5/- to 7/6 each. blood-red
- 8 Magnoiias in 8 distinct sorts, 20/- and 25/-

MAPLES, JAPANESE.

Are extremely handsome, and their beautiful foliage desirable for decora-tive purposes They may be grown in pots for conservatories, or planted out of doors in favourable districts. Groups produce a charming effect, their colours ranging from yellow to rich dark crimson and purple.

- 1306 cratægifolium.
- 1308 japonicum.
- 1311 -· aureum.
- filicifolium. 1313
- 1345 Osakazuki. 1346 Oshiobeni.
- 1317 paimatum
- (polymorphum).
- 1320 atropureum.
- 1326 dissectum.
- 1329 --- ornatum.
- rubrum. 1335 ----
- 1336 variegatum.
- 1338 flavescens.
- 1341 iineariiobum.
- (Scolopendrifolium).
- 1343 -- atropurpureum.
- 1344 marmoratum. 1347 — paimatifidum.

Tar Cord and Twine, sec Tying Mate-	illustrations, see Garden Requi-
rials.	sites Catalogue).

For full list of all Garden Tools, Sundries, etc., see our Garden Requisites List. Free.

To Employers requiring Head or Under Cardeners, Head or Assistant Foresters, or Farm Bailiffs.

We shall be pleased to send our List of Names and Addresses of suitable men, with full particulars of wages required, experience and references. Great care is taken that no man shall be placed on our Register whose character is not good. Our acquaintance with the men's abilities and characters cannot but be of service to all needing men, as the difficulty of selecting from scores of answers to an advertisement, or from applicants of whom nothing whatever is known, is felt by every employer of labour; frequently it is noticed that preference is given to an inferior man and much better men passed over.

Established The Journal 1848. of Horticulture

22d. Weekly.

AND HOME FARMER. Weekly, 22d.

THE LEADING HORTICULTURAL JOURNAL.

The career of THE JOURNAL OF HORTICULTURE (now in its 58th year) extending over a period distinguished for the phenomenal development of gardening, is without a rival in the United Kingdom.—The crisp, intelligent style of its Articles maintains for the "Journal" a position which is unique.

WE CHALLENGE COMPARISON WITH ANY OTHER HORTICULTURAL NEWSPAPER IN EXISTENCE!

It is of great utility to Advertisers as an effective medium for bringing their specialities before the public.

Terms of subscription: Year, 10/6; Half-year, 5,6; Quarter, 3/-, Post Free.

Specimen Copy and Scale of Charges for Advertisements on application.

47th YEAR OF PUBLICATION.

Post Free, 1/3. Cloth Bound, 2/6.

The Horticultural Directory FOR 1906.

This work contains over 16,500 up-to-date Addresses of Nurserymen, Seedsmen, Florists, Gardeners and County Seats throughout the United Kingdom; with a carefully selected list of the principal Nurserymen, &c., on the Continent and in the A complete List of Instructors in Horticulture appointed by the County Councils of Great Britain and Ireland; also a full List of Victoria Medalists of Honour (instituted 1897).

Offices: 12, Mitre Court Chambers, Fleet Street, LONDON, E.C.

Herbaceous & Alpine Plant List

(No. 234)

HIS Supplement, containing latest additions to stock, and current Prices, is distributed with each copy of our Herbaccous List.

Should this reach the hands of any one not possessing our Catalogue of Herbaceous and Alpine Plants, we will gladly forward a copy Free on request.

CLIBRANS

ALTRINCHAM & MANCHESTER.

Also at BRAMHALL, Cheshire.

Supplement to herbaceous & Alpine Plant List

NEW RARE AND CHOICE HERBACEOUS AND ALPINE PLANTS.

Additions to Stock & Revised Prices.

Names and descriptions of NEW PLANTS are printed in heavy type.

The page referred to in several of the items, where Revised Prices are given, is that of our List No. 234, where full descriptions will be found.

- Acæna argentea, 4 ins. bronze foliage, with a pleasing metalic hue, July, 6d. ea.
- Achillea argentea, 9 ins., a pretty plant of shrubby habit, golden yellow flower heads. June to August, 6d. each.
- ADONIS AMURENSIS, 12 ins., a handsome new plant, producing large single golden-yellow flowers and fern-like leaves; one of the prettiest of early Spring flowers, blooming during February & March, 1/6 ea., 15/- doz.
- ALYSSUM SAXATILE fl. pl. see page 3. 4d. each, 3/6 doz.
- ANCHUSA ITALICA, "Dropmore variety," see page 3, 1/- each, 9/- doz.
- Androsaee vitaliana, 2 ins., bright rich yellow flowers, a charming Alpine for the Rockery. April to June, 6d. each, 4/6 doz.
- Anemone nemorosa (Wool Anemone), 6ins., flowers white, or rosy white, a charming and very beautiful native species, easy grower. April to June, 6d.
- Anemone nemorosa rosea duplex, 6 ins., a pretty, double flowered, rose coloured form, 6d.

- Anemone palmata alba, 9ins., a pure white flowered variety, bright shining green foliage, beautiful and attractive. April to June, 6d. each
- ARABIS ALBIDA fl' pl' fol' var', see page 3, 6d. each, 4/6 doz.
 - AUBRIETIOIDES, see page 3, 4d. each, 3/6 doz.
- Aquilegia alpina, 1ft., violet and white flowers, of large size with rather short spurs. May and June, 6d. each.
- STUARTII, LADHAM'S IMPROVED, a beautiful improved form with longer and broader sepals than the type, effective. May to June, 1/6 each
- ASPERULA ATHOA, see page 3, 6d. each, 5/- doz.
- ASTER AMELLUS, Perry's Favourite, see page 3, 9d. each, 6/- doz.
 - ELLA, 5ft., large mauve flowers, with golden centre, free bloomer, very fine. September, 6d. each
 - -- Elsie Perry, see page 3, 6d. each, 4/6 doz.

Supplement to Herbaceous & Alpine Plant List.—Contd.

- ASTER AMELLUS SUB-CŒRULEUS, 12ins., bluish violet, golden centred flowers, about 3ins. in diameter, dark green foliage in compact tufts, very free, a splendid border or rock plant, easy grower. June. 6d. cach, 4/6 doz.
- ASTILBE DAVIDII, see page 3, 1/- ea., 9/- doz.
- AUBRIETIA DELTOIDEA, Bridesmaid, see page 3, 9d. each, 7/6 doz.
- —— —— Dr. Mules, see page 3, 4d. each, 3/- doz., 20/- 100
- --- Pritchard's, A1, see page 3, 9d.
- TAURICOLA ALBA, see page 3, 9d. ea., 6/- doz.
- BELLIS PERENNIS "Alice," see page 3, 3d. each, 2/6 doz.
- BETONICA SPICATA SUPERBA, A.M., R.H.S., 1½ft, a pretty plant, producing dense clustered spikes of bright rosy-pink flowers, 1/- cach, 9/- doz.
- Campanula garganica hirsuta, 4ins. dainty blue flowers of great beauty, cushions of pretty grey foliage, 6d. each, 4/6 doz.
- dwarf growing Campanula, producing clusters of dark blue flowers, a charming rock plant, 1/- ea., 9/- doz.
- PERSICIFOLIA, "Daisy Hill," semi-double flowers of a delightful shade of lavender blue, produced on spikes 3ft. in height, a beautiful bell flower, 1/- each, 9/- doz.
- -- NEWRY GIANT, see page 3, 9d.
- TURBINATA "Isabel," see page 3, 9d. cach, 61-doz.
- CHRYSANTHEMUM MAXIMUM King Edward, see page 3, 6d. each, 4/6 doz.
- --- Mrs. Charles Lowthian Bell, see page 4, 1/ each, 9/ doz.
- Rev. H. Sanders, see page 1. 1/-cach, 9/- doz.

- CIMICIFUGA SIMPLEX, see page 4, 6d. ea., 4/6 doz.
- Cistus Cupanianus, 2ft., white flowers, with a spot of yellow at base of each petal, a pretty June flowering species, 6d. each
- Corydalis Lutea, I ft., clear yellow flowers and an abundance of graceful foliage, easy grower and wonderfully profuse in bloom, 6d. each
- THALICTRIFOLIA, 9ins. a new introduction from China, bright clear yellow flowers, in long racemes, in bloom from April until frost, a charming plant, 9d. each, 7/6 doz.
- WILSONII, rosettes of prettily cut rather fleshy glaucous green leaves, and erect racemes of deep canary flowers, 7 to 8ins. in height. The individual flowers are tubular about linch in length, and very freely produced, throughout Summer and Autumn, requires protection in Winter. 2/6 cach
- CYCLAMEN LIBANOTICUM, see page 4,
- Delphinium cardinale, 3-4ft. bright scarlet flowers on long graceful branching spikes. July, August. 6d ea., 5/- doz.
- —— PERSIMMON, strong erect branching spikes of large single sky blue flowers, with a white eye, a lovely variety, good grower and free bloomer, 3/6 cach.
- DIANTHUS ATKINSONII, see page 1, 1/6 ea.
- coccineus see page 4, 6d. ea., 4/6 doz.
- Hybridus "Mrs. Dixon," see page 4,
- —— Napoleon III., see page 4, 6d.
- ERYNGIUM BOURGATI, 2 ft., a very beautiful and distinct species; the stems, foliage and bracts are a bright steely blue, 9d. each.
- GALEGA BICOLOR HARTLANDI, 3½ft., a fine variety, making large bushes and producing an abundance of blue and white flowers during July and August, 9d. each, 6/- doz.

Supplement to Herbaceous & Alpine Plant List.—Contd.

- Genista tinetoria, fl' pl', 6 ins., bright golden yellow double flowers, dwarf prostrate habit, fine for rock-work 9d. each, 6/. doz.
- GERBERA JAMESONII, see page 4, 9d. and 1/- each, 6/- and 9/- doz.
- Geum montanum, 9-12 ins., large, bright yellow flowers, produced in abundance in Spring, dwarf compact habit, 6d. ea.
- GLYCERIA SPECTABILIS fol' var', see page 4, 3d. ea., 2/6 doz., 18/- per 100
- GYPSOPHILA PANICULATA, fl' pl', see page 4, 9d., 1/- & 1/6 each; 7/6, 9/- & 12/- doz.
- HOLCUS MOLLIS fol' var', see page 4, 4d. each, 3/- doz.
- Houstonia cœrulea, 3 ins., pretty light blue flowers, a charming dwarf growing plant, May-July, 9d. each
- ---- purpurea, 4-6ins., pale lilac blue flowers, a charming alpiue, 9d. each
- serpyllifolia, 3ins., pale blue flowers, a pretty dwarf growing rock plant, July— August, 9d. each
- INCARVILLEA DELAVAYI, see page /, 6d. & 9d. each, 5/- & 6/- doz.
- Inula Helenium, 6-8 ft., handsome foliage and bright yellow flowers, a bold and strikingly effective plant, 6d. ea., 4/6 doz.
- ISATIS GLAUCA, see page 5. 1/- each
- LATHYRUS LATIFOLIUS GRANDIFLORUS "White Pearl" see page 5, 1/2 each, 9/2 doz.
- pubescens, 3-5ft., pale blue flowers, a charming climber, requires protection in Winter. Aug.—Sept., 9d. & 1/- each
- —— Sibthorpii, 3ft., flowers rosy crimson, in fine raceines a fine species, June— August, 9d. each.
- LUPINUS POLYPHYLLUS, "Clibrans' Giant Purple," a striking & attractive form, producing large bold cylindrical spikes, 1½-2ft. in length, of rich purplish-blue flowers; a splendid plant for the herbaceous border, 1/6 each
- -- SOMERSET, see page 5, 9d. each

- MECONOPSIS INTEGRIFOLIA, see page 5, 10/6 each
- PUNICEA, see page 5, 10/6 each
- MEGASEA PURPURASCENS, 1 ft., reddish purple flowers, in large semidrooping heads; bold handsome foliage; striking and effective. April to June. 1/- each
